Plumbing That Stands All Tests

That is the only kind of plumbing we do. We aim to make every job as good as it can be done—we are not satisfied until you are perfectly satisfied. The strictest critics of our work are ourselves.

It will pay you to have us attend to your plumbing whether it is a complete system, improvements or repairing—no job is too big or too small to handle and we guarantee satisfaction.

H. McEWEN Superintendent.

PRINCE EDWARD ISLAND AS A SUMMER RESORT

THE LAND OF PURE DELIGHT FOR TOURISTS AND HEALTH SEEKERS

SOME OF P. E. I. ATTRACTION

Prince Edward Island is the best spot on earth in which to spend a vacation. It is more, it is the ideal land we've all heard and sung about in the halcyon days of childhood and youth, "The Land of Pure Delight." Some of its outstanding features are:

A LAND OF BEAUTY.

Three hundred and seventy-eight years ago Jacques Cartier wrote—"All this land is low and the most beautiful. . . . This is a land of the best temperature which it is possible to see." Thousands of tourist visitors attest that it is more beautiful today, and the most attractive summer resort in the entire Dominion of Canada.

A DELIGHTFUL SUMMER CLIMATE.

Gentle breezes laden with the breath of the sea blow from the south and the west all through the long summer days, dying with the red and gold amber and green of a gorgeous sunset. The nights are always cool and bright, refreshing rest and sleep. There are no fogs.

A LAND OF HEALTH.

In no country does so large a proportion of the people live to a green old age. Only about one per cent of the population dies each year. The report of the Registrar of Vital Statistics for the year 1911, in which year the mortality was larger than usual, shows that of a total of 1,114 deaths there were:

- 566 over 60 years of age; 411 over 70 years of age; 214 over 80 years of age; 42 over 90 years of age;

The infant mortality of other countries is almost unknown here. There is no other land under the sun where 40 per cent of the population live to pass the seventy year span of life!

A LAND OF ABUNDANCE.

In no other country is there greater abundance of the best food and of clear, sparkling water in town and rural districts alike. Lamb of the finest flavor; Eggs, milk, butter and cheese; The most luscious oysters in the world; Lobsters in great abundance; Sea and brook trout, mackerel, cod, etc.; Wild geese, brant, plover, duck and partridge in their season; Strawberries, raspberries, blueberries, cranberries; Apples and plums of rare excellence; cherries and small fruit are plentifully produced.

AGREEABLE SOCIAL CONDITIONS.

The Island is socially a land of the golden mean. Few are very rich and almost none are poor. The great majority enjoy comfort and prosperity. Sobriety and order everywhere prevail. In no part of the American Continent is there proportionately so little serious crime. There are no tramps and beggars are unknown. Churches and schools are abundant.

POSTAL AND OTHER FACILITIES.

There are 468 post offices—one to every 4 1/2 square miles. Throughout a large part of the Province there is free delivery of the mails daily at the farmers' road gates. The Prince Edward Island Railway intersects the Island in every direction, bringing four-fifths of its area within five miles of the rails. Telephone lines all over the Island connect 175 towns, villages and settlements.

SOME SPECIAL ATTRACTIONS FOR TOURISTS

ON THE NORTH SHORE.

The rampart of sand dunes, fifty miles long, thrown up by the waves. The long shallow lagoons inside the dunes, the haunts of fish and waterfowl. Scores of miles of broad, clean, hard sand beaches, the delight of bathers.

IN GENERAL.

Surf bathing and sheltered sea bathing; Shooting wild geese, duck, brant partridge and plover in their season. Fishing brook and sea trout, mackerel and other sea fish. Clam baking, picnicking, oyster digging. Boat sailing and rowing. Hundreds of motor boats.

IN CHARLOTTETOWN.

Victoria Park, 60 acres within ten minutes' walk of the Post Office. Beautiful walks and drives, tennis courts, cricket and baseball. The Belvidere Golf Links. Amateur Athletic Grounds. An excellent Free Public Library. The Legislative Building, seat of a Legislative Assembly older than the United States Congress. The Micmac Encampment at Rocky Point. The old French Fort at the Harbor's mouth. Seventy miles of land-locked waters for boating, bathing, oyster fishing and clam digging.

THE FOX RANCHES.

Tourist visitors and investors will find great interest in seeing the scores of fox ranches that are thickly dotted over the western and central portions of the Island. There are upwards of 150 of these ranches. There are hundreds of these black and silver beauties, each with a present selling price of \$5,000 upwards. A single black fox represents the value of a good farm, with all its buildings, fences and live stock. The total value of all the black foxes on the Island is believed to be over \$7,000,000. The Island is the recognized headquarters of this important industry. Eighty-five per cent of all the valuable foxes in captivity throughout the world are within P. E. Island ranches.

NEW FURNITURE AT LESS THAN AUCTION PRICES.

Another carload of furniture received at Paton's, consisting of Sideboards, Dressers, Commodes, Parlor tables, Bed-room tables, Kitchen tables, Extension tables, square or round. PREMIER LEAVES FOR HALIFAX

BRUSSELS, June 11 (Special)—Mr. Melnie, formerly French Premier, who is president of the tenth International Congress of Agriculture, in his inaugural address here emphasized the vital importance of preventing the inhabitants of the country districts from migrating into the cities. He showed by statistics that, while the population of the world is increasing, the production of cereals and meat is decreasing. He declared that this was so even in the United States and Canada, on which Europe was accustomed in the past to rely to make up deficiencies. This economic fact, he explained, was the cause of the high cost of living, which tended to become higher more and more rapidly. Many countries, including the United States, are represented at the congress, which will discuss many important questions.

THE G. T. RAILWAY (Canadian Press.) OTTAWA, June 10—indications here

point to the commencement of Pacific traffic on the Grand Trunk Pacific from the prairies to the maritime provinces ports in 1914. The question turns on the completion of the car ferry at Levis, as the gap in the main line, between Cochran and Quebec, now only 30 miles wide will be filled early this autumn. The contract time for provision of the ferry in May 1914, and if the limit is observed the service from Winnipeg to Moncton will be in operation a year from now.

Nervous Sufferers Often Look Well

While persons subject to disorders of the nerves are frequently thin and weak, such is not always the case by any means. Many are of ruddy and vigorous strength and so healthy in appearance that they receive little or no sympathy. In such cases the symptoms indicate trouble in the head and spinal cord. Though strong in a muscular sense, the nerves are affected and spells of helplessness come over the sufferer. The condition is alarming, because the result to be expected is paralysis. As in all forms of nervous exhaustion, Dr. Chase's Nerve Food is the new hope and confidence to the mind.

Dr. Chase's Nerve Food 50 cents a box, 5 for \$2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.
