Question Of Rural Credits Before The Ottawa House

(Canadian Press)

OTTAWA, June 19—The government action to promote agricultural credits of long and intermediate terms is recommended in the sixth interim report of the special committee inquiring into agricultural conditions tabled in the House of Commons today.

The committee recommends that the matter of rural credits is of such paramount importance that further investigation and study should take place before definite legislation is brought down. It is advised that the government investigate systems of rural credits in operation in Canada, the United States and elsewhere, and examine the question as to what extent such credits should be fitted into and related to the bank system as well as provincial systems and the operations of mortgage and loan companies.

The report states that well selected and secured farm loans should be among the safest of investments whil e the security in the shape of non perishable and readily marketable farm products is certainly comparable to that offered by merchants and manufactureres. Notwithstanding this the agriculturist in Canada, at least in certain cities, said the report, is called upon to pay considerably more for long term credits than many of his competitors in other countries. He also pays a higher rate for credit than men in other kinds of business.

Mr. Hammond Kelly Judges Live Stock In Ottawa

Mr. Hammond Kelly arrived home Monday from Ormstown, Que. where he had been sent by the Department of Agriculture, Ottawa, to judge light horses at their Annual Spring Fair which included all classes of live stock. Mr. Kelly reports a splendid showing in Ayrshire breed, also good showing of Holsteins, also a breed not seen in P. E. I. namely Brown Swiss, a very hardy looking breed of the Jersey type sheep and pigs were well represented but one of the outstanding features was their show of horses in the Clydsdale Class. The aged stallion was a very fine animal weighing about 2,100 lbs owned by R. R. Wess of Howick, Que. who also owned the second prize stallion in the class. Altogether eight good horses faced the judge. The heavy and light Clyde teams were an exceptional feature of the show, well matched well fitted, and with harnesses that were a credit to their owners.

The Percherons were not so well represented, but was headed by a very nice type of a Percheron Stallion.

In the light horse class Miss Vieu of Montreal had the largest single exhibit showing in all about ten head of very high class carriage and sadle horses also High Jumpers and hurdlers.

Mr. Stafford of Montreal also showed two exceptional high jump ers and won the high jump with one of them jumping 7 ft. 1 inch.

Miss Vieu won the class for best carriage pairs with a pair of high steppers costing $6,000.00. She also showed a pair in the smaller class that cost $5,000.00. She won in the hurdle race with a horse imported a short time ago from Ireland which cost $2,500.00. The horses shown by her at this fair would cost about 20,000.00. They also show a fine lot of Standard bred trotters from that County and a small showing of that hardy breed the French Canadian. Altogether it was a very fine show and a credit to the management, as there was a printed program at the particular time which each and every case was to show each of the exhibitors having one and he knew precisely what time to come into the Arena with his animals to be judged. All the judging is done in a large Arena built for that purpose with seating capacity for about 4000 people. The inside showing space would be about 200 by 80 feet and resembles very much Madison Square garden show ring. There were also horse races in connection with the fair at which Mr. Kelly acted as starter and these races were carried out very satisfactorily with good competition and a splendid track.

Mr. Kelly speaks in the very highest praise of the kindness and hospitality of the management of the fair and of the people of that district extended to him when with them. His stay in Montreal was made by the good service and comfort of the Mount Royal Hotel a splendid place to stay and not unreasonable in price.

ASKED FOR GLOVES AND GOT—STONES.

(By Dominion News Service)

Opening a case of ladies' gloves upon arrival at Slovakia Customs officers found a considerable part of the original contents missing; rubbish and stones having been substituted. Externally, the case bore no signs of having been tampered with.

In a bale of cloth, a bar of pig iron had been substituted for two rolls of serge, while old bricks filled a case that ought to have contained German mechanical toys.

A New Dance

(By Dominion News Service)

LONDON, June 18—Dances with new figures, but inspired by the classical traditions, were shown at the International Dancing Congress held in Paris.

Although the general tone of the assembly was against the exaggerated eccentricities of modern developments, several dances of an arresting novelty were shown.

There was a dance called "Scottish Blues," with something of the shimmy in it; "Samba" from Brazil, with rapid changes of position and subtle movements of the body; a slow paso doble in which the woman dancer revolver round her partner.

Other new dances, showing derivation from the old pavanes, minuets, gavottes, polonaises, and quadrilles, were evolutionary rather than revolutionary forms.

Thus the "Mazoure" in three-quarter time, is a Boston dance which might be described as a graceful Mazurka; the "Francesca" is a lively waltz measure; the Caryatis" is a new valse lente; the "Ariette," for which Paul Vidal has furnished a delicate musical accompaniment, is a rondo in two-four time, corresponding to the one step.

QUEBEC FIRE RANGERS ENCIRCLED BY FOREST FIRES

QUEBEC, June 18—A wire received this afternoon was to the effect that some of the forest rangers in Kamouraska county had been encircled by the fires and had difficulty in making their escape. In fact several of them had to remain on Lunnette, Neigette, Caribou and Canard Lakes, which are situated in Kamourakas. Later they were joined by some residents of the township of Macpes, Lunette and Neigette and a number of sportsmen, who had found the conditions any thing but safe. At St. Blandona at noon today the settlers had left their homes and were rushing towards other sections while the parish of St. Anaclet was being seriously menaced.

A big real estate deal, centering round property at Dundas and Church streets, in the heart of downtown Toronto, is being held up until a family of young robins vacate a tree located on the property in question. The bushmen shown above refused to cut down the tree in which the nest is located and was upheld by the company.
