Stock Prices Improved In Yesterday's Trading

NEW YORK, March 17 (AP) - Strength in a hand-picked group of stocks dominated an improved market today.

Most gains were fractional. A favored few, though, advanced 1 to 4 or more points, most of them on larger turnover than usual and some establishing new 1949 highs. Today's rise broke a losing streak in effect all this week.

Several issues were tripped up by unfavorable corporate news, including Bendix Home Appliances and Magnavox.

Turnover of 760,000 shares was some improvement over yesterday's 670,000 but still not enough to allow brokers to plan for early retirement.

The Associated Press average of 60 stocks advanced 2 of one point to 63.4. The industrial component showed the widest swing, with rails and utilities trailing along.

Of the 932 individual issues which appeared on the ticker tape, 425 advanced and 270 slipped.

Stocks which reached new highs for the year included Bigelow-Sanford at 30 3/4, Foster Wheeler 26 1/2, N. Y. Shipbuilding 19 1/4, Montgomery Ward 57 1/2, and Douglas Aircraft 58 3/8.

At Montreal MONTREAL, March 17 (CP) - Trading was at a standstill on the Montreal stock exchange and curb market today and losses continued to edge out gains, despite a last-minute rally by a few leading issues.

Base metals were slowly recuperating from recent heavy losses after leading the downturn. Banks and senior oils were soft, but papers, utilities, western oils and steels stopped an earlier downturn and strengthened near the close of trading.

Closing averages indicated banks down .21 at a new low of 27.05; golds off .11, papers off .04 and industrials off .3 while utilities gained .1.

Of 167 issues traded, 44 were improved, 53 easier and 70 unchanged. Three new highs and 19 new lows were established today.

Industrial turnover was approximately 23,100 shares against 29,200 the previous session. Mining sales were more active with a total turnover of 151,500 shares against Wednesday's 137,000.

Consolidated Smelters touched a new low of 96 1/4 in forenoon dealings following news that lead prices would be cut down by 1 1/2 cents to 17.25 cents a pound. The issues, however, closed unchanged from Wednesday at 97 1/2.

At Toronto TORONTO, March 17 (CP) - Prices halted two sessions of steady decline on the Toronto stock exchange today. Base metals recovered their equilibrium since dipping to the lowest levels in 11 months as several key issues forged upwards on narrow advances.

Consolidated Smelting featured an otherwise dull market. The stock touched a new low of \$96 but went into a recovery movement, climbing to \$97.75, down 25 cents from yesterday's close. Other base metal stocks moved into the gain column. Waite Amulet, Noranda, East Sullivan and Steep Rock were among the better gainers.

Senior gold producers were up fractions while a handful of juniors showed gains ranging up to five cents. Trading was light.

Key western oils showed strong gains. Calgary and Edmonton rose 25 cents at \$4.80 and Anglo-Canadian was up 15 cents at \$4. Royalite, ahead in early dealings, weakened.
