ANGLO-AMERICAN TRADE PACT IS PENDING

FRENCH POLICE PROBE HOODED SOCIETY Threat Is Seen To Canadian Trade Preferences

PLANNED COUP AGAINST THE GOVERNMENT

Series Of Raids Reveals Cache Of Armaments Stored By Secret Order.

(Copyright 1937 By The Havas News Agency)
PARIS, Nov. 18.—Authorities tonight charged eight prisoners in the domestic security of France as the latest of a series of large secret armaments was discovered in Paris. The charge implied a belief on the part of officials that the secret hooped society known as La Cagoule to which the men allegedly belong planned eventually to seize control of government by force of arms.

A raid on the extensive quarters of the shipping firm, La Romaniere La Font, in the Bastille section of Paris yielded 44 cases containing 1,408 thin-shelled grenades, 17 hunting rifles, three war rifles, 11 shotguns, six portable machine guns and hundreds of rounds of ammunition.

Eight persons representative of various strata in French society were announced in custody while several others were held incommunicado and many more were sought.

Reviewing their findings this week, police concluded that the secret hooped society was divided into "heavy" and "light" groups. The "heavy" units were to be equipped with rapid-firing high-powered weapons, while the "light" groups were to be armed with shotguns for street fighting.

Investigations hummed through France under direction of the Surete Nationale, the National Police Force, which assigned two commissioners to the case with a large

List all stock with secretary. L-1235-11-19-11.

Weather Baulks Insurgent Drive

(C. P. by Guardian's Special Wire) HENDAYE, Franco-Spanish, Frontier, Nov. 18.—Weather fought for the Spanish Government on the Aragon front today, but formidable insurgent forces continued to move into opposition for the promised major drive into eastern Spain.

Fog and a steady drizzle delayed execution of insurgent General Franco's plans for an offensive toward the sea and gave the Government time to build up its defenses.

Government forces added to insurgent difficulties by harassing raids and artillery bombardments of insurgent lines, especially in northern Aragon.

Nevertheless reports reaching the border said insurgent Navarrese brigades—units which took a leading role in the recent conquest of the Bay of Biscay coastal area—were in villages between Burgos and Valladolid, ready to move to the eastern front.

Government forces added to insurgent difficulties by harassing raids and artillery bombardments of insurgent lines, especially in northern Aragon.

APPOINTED TO COMMISSION

Dr. Joseph Sirois, Quebec, Succeeds Justice Rinfret.

OTTAWA, Nov. 18.—Dr. Joseph Sirois, 25 years professor of constitutional and administrative law at Laval University, Quebec, has been appointed to succeed Supreme Court Justice Rinfret on the Royal Commission on Dominion-Provincial Relations. Justice Rinfret was forced to retire because of ill-health. Prime Minister Mackenzie King announced the appointment tonight.

Justice Rinfret has been in ill-health for some years; although he attended the earlier organization meetings of the Royal Commission, it was evident some time ago that his physical condition was such it would not be desirable for him to subject himself to travel and constant work which the Commission will engage upon and efforts were undertaken to find a successor.

Dr. Sirois is a member of one of the oldest notary firms in Quebec, a past president of the Quebec Board of Notaries, and is regarded as an authority on constitutional questions. He is publisher of the Law Review of Quebec.

Under chairmanship of Chief Justice N. W. Rowell of Ontario the Royal Commission on Dominion-Provincial Relations will open its first public hearing in Ottawa, for some weeks organization work has proceeded here where a large staff of experts and secretaries is engaged.

Bonnet Opposes Money Control

PARIS, Nov. 18.—Any establishment of government control over the money market would gravely prejudice French relations with Great Britain and the United States, Finance Minister Bonnet told the Chamber of Deputies today. He opposed any form of control, which would constitute a violation of the tripartite monetary agreement signed by France, the United States and Great Britain on Sept. 25, 1936.

Bonnet traced the difficulties he encountered in economic and financial fields since he took over the helm of the finance ministry. Despite these obstacles, Bonnet declared, the country is well on the way to financial recovery.

Halifax Will Sound Hitler On European Problems Today

BERLIN, Nov. 18.—As Viscount Halifax prepared for his talk tomorrow with Reichsstaerker Hitler, indications developed tonight that Germany's colonial demands and the Chinese-Japanese war would be in the forefront of the discussion.

JAP FORCES ADVANCE ON TWO FRONTS

Claim Victories As Chinese Launch Counter-Offensive Before Soochow.

(A.P. By Guardian's Special Wire) SHANGHAI, Nov. 18.—Chinese military leaders asserted tonight their forces had thrown the Japanese back in the centre of China's "Himdenburg Line" west of Shanghai, but Japanese spokesmen declared that line had been breached by smashing Japanese blows near its northern and southern extremities.

Chinese reports told of a strong counter-offensive before Soochow, central keystone of the Chinese defensive system, in which the Japanese were driven back toward Chien, 16 miles east of Soochow.

But heavy assaults brought the Japanese literally to the gates of Changshu and Kashing, northern and southern strong points, respectively, of the Chinese defenses, some 50 miles west of Shanghai.

A Japanese spokesman said Japanese shock troops smashed through Chinese lines on Fushan Creek north of Changshu and then turned southward to attack the city itself.

Japanese reports from the southern end of the 110-mile hatifront said one gate of Kashing already had fallen and bitter fighting was in progress around that city of northern Chekiang Province. Chinese, however, declared there was still heavy fighting at Seven Star bridge, four miles northeast of Kashing.

Chinese ministries of the Chinese Government continued their withdrawal from Nanking to Hankow, Chungking, Changsha and Wu-chang in the interior before the threat of a Japanese advance to the capital itself. The general exodus from Nanking clogged all avenues and means of getting away.

Foreign ambassadors and ministers were given unofficial notification of the government was moving, but the envoys made no announcement of their own plans, pending official statement of the Chinese government's intentions.

Once Had Fortune, Now Penniless

(A. P. by Guardian's Special Wire) SAN FRANCISCO, Nov. 18.—Gus Oliva, who had \$4,600,000 eight years ago, came to town today with \$1.20 in his pockets and a patch on his pants.

One year the former newspaper carrier paid the Government \$250,000 in taxes on a fortune he reaped in the stock market. He donated thousands to charity. Some say he bet \$100,000 on a California-Sanford football game. Then had investments cleaned him.

Now he faces a grand theft charge in Los Angeles. Gus says the charge is false, that he put up a \$1,800 ring as security on a loan but somehow a cheap ring showed up in its place.

Will Export 60,000 Christmas Trees

SYDNEY, N. S., Nov. 18.—(CP)—Contracts for export of more than 60,000 Christmas trees to the United States from Cape Breton Island had been signed, the board of trade was informed tonight by D. J. Donnell, president.

He predicted the industry would attain major prominence in the island in the next few years.

Halifax Will Sound Hitler On European Problems Today

BERLIN, Nov. 18.—As Viscount Halifax prepared for his talk tomorrow with Reichsstaerker Hitler, indications developed tonight that Germany's colonial demands and the Chinese-Japanese war would be in the forefront of the discussion.

Lord Halifax, Lord President of the Council, lunched with Sir Neville Henderson, British Ambassador, apparently in preparation for tomorrow's meeting at Hitler's Berchtesgaden estate. The German Foreign Minister, Baron Von Neurath, is to accompany the British Ambassador to Berchtesgaden.

German political circles attached weight to a debate yesterday in the House of Lords which he believed indicated Great Britain was

No Ultimatum To France, Claim

PARIS, Nov. 18.—The French foreign office and the Japanese embassy formally denied today that France had received an "ultimatum" from Japan to cease transporting war materials to China over the French-owned railroad from Indo-China to Yunnan.

Nevertheless, Senator Henry Berenger, chairman of the Senate foreign relations committee, who declared in a speech that Japan had "warned" France, still insisted his statement held good, as he had not used the word "ultimatum."

The Japanese embassy said the report that Japan issued an "ultimatum" to France was "denied in the most formal manner by the Minister of Foreign Affairs in Tokyo."

Referring to Berenger's speech the embassy said it "opposes a most categorical denial to that fantastic news. No ultimatum of any sort has been addressed by Japan to the French government."

INSTITUTE ACTIVITIES REVIEWED

MARITIME Delegates To Toronto Convention Report On Branch Work.

(C.P. by Guardian's Special Wire) TORONTO, Nov. 18.—Presidents and representatives from every Canadian province told briefly today of women's institute achievements in their territories in addresses to the annual convention of the Federated Women's Institutes of Canada.

Mrs. Marley Dunman, Petitecodiac, N. B., representing New Brunswick Institutes, said the branch had been influential in securing legislation for women concerning property rights, representation on school boards and in the legislature. They had raised approximately \$1,000 for a home for mentally deficient.

Nova Scotia Work

Mrs. Freeman Lank, Bass River, N. S., president of the Nova Scotia Institutes, told of enthusiastic rallies in the province where they conducted educational programs, specializing on music, discussions and handicraft displays. Taxistic schools had been established to train local leaders and there was a spirit of cooperation between home-makers and community workers.

Island Activities

Prince Edward Island Women's Institutes continued to make work in connection with the tuberculosis sanatorium their major activity, Mrs. Fred McLaren of North River, P. E. I., told the meeting. They were instrumental in getting the government to establish the sanatorium and had secured \$1,000 for the institution in the past year.

N. B. Loan Issue Is Oversubscribed

FREDERICTON, N. B., Nov. 18.—"I am pleased and gratified to announce that word reached us this evening from the syndicate managers in Montreal that the \$650,000 Province of New Brunswick debenture issue, offered to the public on Monday had been over-subscribed," Premier Dymally said tonight.

The issue was in two maturities—three per cent debentures maturing November 15, 1940 and four per cent debentures maturing November 15, 1947. The public took \$2,000,000 of the 1940 series and \$4,500,000 of the 1947.

Canadian Potato Yield Increased

OTTAWA, Nov. 18.—(CP)—The Canadian potato crop was estimated tonight by the Dominion Bureau of Statistics at 42,633,000 hundredweights, compared with 39,614,000 last year. Alfalfa and corn were two other field crops reported to show increases while turnips, hay and sugar beets were estimated to be lower.

Improved potato yields were noted mainly in Ontario, Manitoba, Alberta and British Columbia, with slightly lower production in Prince Edward Island and Nova Scotia as compared with the yields last year. The reductions in hay and clover production occurred mainly in Quebec, Ontario and New Brunswick Commercial sown beet production at 419,000 tons was substantially below the record crop in 1936 of 595,000 tons, due mainly to the poor seeding conditions last spring in Ontario.

PREMIER HOPES TO NEGOTIATE 'BROAD' TERMS

New Canada - U. S. Treaty Mooted To Offset Loss Of British Preferences.

(By The Canadian Press) OTTAWA, Nov. 18.—Negotiations are contemplated for a new trade agreement between Canada and United States, Prime Minister Mackenzie King announced tonight. Exploratory conversations have been in progress since August, the Prime Minister said.

The Prime Minister stated at the same time that the government is "fully alive to the many and varied political and economic implications" of proposed negotiations for a trade agreement between the United States and the United Kingdom announced earlier today.

In conformity with United States procedure on the making of trade agreements announcement that negotiations are contemplated precedes advice to the public that negotiations are actually underway. Secretary of State Cordell Hull was to make the same announcement in Washington.

Canada's trade agreement with United States, concluded two years ago this month, runs to the end of 1938. When it was being dealt with in the House of Commons Mr. Mackenzie King indicated it was hoped to make it broader and more efficient by subsequent negotiations.

Whether the existing agreement will run its course or be replaced by a new agreement before its normal expiration depends upon the progress made in negotiations. Mr. Mackenzie King, who personally visited Washington for negotiation of the present agreement, said he did not contemplate going there in the immediate future but expected direct conferences would proceed without delay.

In making this announcement, the Prime Minister said: "In August last the Canadian Government approached the Government of the United States with a view to extending and revising the trade agreement concluded between them in 1935. Since then, exploratory conversations have been proceeding which have resulted in today's announcement regarding the negotiation of a new agreement which will be on as broad and comprehensive a basis as possible."

Questioned as to the possible surrender of some of Canada's preferences in the British market to facilitate the negotiations for a trade treaty between United States and the United Kingdom, of which intention was also formally announced today in London and Washington, Mr. Mackenzie King would not comment in any detail. On this point the Prime Minister

Philippines Are Swept By Typhoon

MANILA, Nov. 19.—(Friday) —A typhoon of tremendous destructive force, the second to hit the Philippines within a week, left a large area isolated today, and first scattered reports showed 10 deaths and indicated property damage in the millions of dollars.

Winds sweeping across the archipelago at 100 miles an hour gave the central islands their worst storm of the year. Six deaths were reported immediately on the Island of Leyte, and four on Cebu Island. Both places were in the storm's vortex.

The typhoon whirled out into the China Sea about 140 miles southwest of here but the weather bureau said there still was the possibility that it would backdash toward Manila, Mindoro and Panay, large islands in the east-central portion of the archipelago, felt almost the full force of the storm.

LORD CECIL WINS NOBEL PEACE PRIZE

Leading British Pacifist Is Fifth Englishman To Win Award.

(C. P. by Guardian's Special Wire) OSLO, Nov. 18.—The career of Viscount Cecil of Chelwood, at 73 acknowledged to be the leading British pacifist and spokesman for disarmament and the League of Nations, was capped today when he was awarded the Nobel Peace Prize for 1937.

A month ago, Viscount Cecil indicated to the first British Congress of the International Peace Campaign he would soon resign active direction of the pacifist movement to a younger person but would continue, as long as his health permitted, to function as president both of the International Peace Campaign and its British section.

Viscount Cecil is head of the British League of Nations Union, which under his leadership in 1935 conducted the famous "peace fall-out" in which millions of votes were cast for continued adherence to the League of Nations and for disarmament.

Lord Cecil, third son of the third Marquis of Salisbury, was created a Viscount in 1923. Previous to that he had a lengthy political career in the House of Commons. He was then known as Lord Robert Cecil.

The Nobel peace prize, which comes out of the interest on \$9,000,000 bequeathed by the late Dr. Alfred E. Nobel—as do other prizes in various fields to men who have most contributed to the welfare of mankind—was first awarded in 1901.

Viscount Cecil is the fifth Englishman to win the peace prize since then. Sir William Ramca, Premier won it in 1903; Sir Austen Chamberlain jointly with Charles Gages Daves of the United States in 1925; Norman Angell in 1933; and Arthur Henderson in 1934.

Threat Is Seen To Canadian Trade Preferences

Proposed Treaty Expected To Allow U. S. Farm Bacon, Fruit & Lumber To Compete In British Market With Empire Goods

LONDON, Nov. 18.—(CP)—British industry tonight endorsed Prime Minister Chamberlain's announcement to the House of Commons that negotiations were contemplated for an Anglo-American trade treaty.

Forecasts were heard in political circles that negotiations would not be concluded before the end of next March. They take the place of informal and exploratory discussions in progress for some time.

Hon. R. B. Bennett Arrives In Halifax

HALIFAX, Nov. 18.—Conservative leader R. B. Bennett arrived in Halifax tonight to address the annual meeting of the Nova Scotia Conservative Association here tomorrow afternoon and also a public meeting tomorrow night.

It was the second time in little over a month the Opposition Leader visited Halifax. On Oct. 12 he spoke at a Dalhousie University Alumni Association banquet at which he was the guest of honor.

Spur Search For Union Chief Slayer

MINNEAPOLIS, Nov. 18.—State and city investigators, spurred by order from Gov. Elmer A. Benson and reward totalling \$11,000, turned to labor strife today in an effort to uncover a clue to the mysterious slaying of Union Chief Patrick J. Corcoran.

The 45-year-old chairman of the North Central District Drivers' Council, active in five states, was shot to death near his home late last night.

Canada's Concessions

Canada in 1937 agreement that runs until 1940 received concessions on wheat, butter, cheese, apples, pears, eggs, condensed milk, milk powder, honey, copper, timber, sealish, salmon, asbestos, zinc, lead and patent leather.

United States negotiations were regarded as certain to try for tariff advantages in the British market for certain products within the foregoing list.

If they affect Canada's fixed margin of preference, the consent of Canada will be necessary with the possibility of Canada seeking new concessions in return.

Former Colonial Secretary L. S. Amery today declared himself in favor of an Anglo-American trade pact provided it did not prejudice the system of imperial preference stipulated by the Ottawa agreement.

LATE NEWS FLASHES

LONDON, Nov. 18.—(C. P. Havas)—Foreign Secretary Eden tonight entertained King George VI and Leopold III, King of the Belgians, at a brilliant reception at the Foreign Office. The dinner marked the last of a series of banquets given for King Leopold, whose visit here officially ends tomorrow.

SYRACUSE, N. Y., Nov. 18.—(A.P.)—Percy (Angel Face) Geary, last of the three O'Connell kidnap gang members who escaped early Tuesday from the Onondaga County Penitentiary at Jamesville, was captured late today.

RIO DE JANEIRO, Brazil, Nov. 18.—(A.P.)—President Getulio Vargas tightened his grip on Brazil today through a decree abolishing federal courts in the nation's 20 states, acre territory and the federal district of Rio de Janeiro.

Threat Is Seen To Canadian Trade Preferences

Proposed Treaty Expected To Allow U. S. Farm Bacon, Fruit & Lumber To Compete In British Market With Empire Goods

LONDON, Nov. 18.—(CP)—British industry tonight endorsed Prime Minister Chamberlain's announcement to the House of Commons that negotiations were contemplated for an Anglo-American trade treaty.

Forecasts were heard in political circles that negotiations would not be concluded before the end of next March. They take the place of informal and exploratory discussions in progress for some time.

The general expectation, the Associated Press reported, was that the proposed treaty would reduce American tariffs on British manufactures and allow United States farm produce to compete in the British market with Empire goods.

Two ways of resolving the difficulty were being discussed, the Associated Press learned: New trade agreements between Britain and various dominions or later bilateral trade agreements, like the Canadian-American agreement, between the United States and the Dominions.

(In Ottawa tonight Prime Minister Mackenzie King announced new treaty negotiations with the United States are contemplated.)

Will Begin Negotiations

Government authorities were expected to confer immediately with representative industrial groups to ascertain the eventual tariff concessions to be granted to the United States. These negotiations were expected to take two or three months at least.

Among articles listed for reductions benefiting American exporters were fruit, fruit preserves, dry fruit, bacon and lumber. Goods expected to rank high among British products given lower tariffs by the United States were woollens, Scottish tweed and wool product.

Canada is likely to be particularly concerned in the present negotiations as she alone among the Dominions has concluded a trade agreement with the United Kingdom to replace the Ottawa agreement of 1932. The other Dominions will likely negotiate new agreements in the light of Anglo-American discussions and meanwhile the Ottawa agreements are in effect so far as they are concerned.

Canada's Concessions

Canada in 1937 agreement that runs until 1940 received concessions on wheat, butter, cheese, apples, pears, eggs, condensed milk, milk powder, honey, copper, timber, sealish, salmon, asbestos, zinc, lead and patent leather.

United States negotiations were regarded as certain to try for tariff advantages in the British market for certain products within the foregoing list.

If they affect Canada's fixed margin of preference, the consent of Canada will be necessary with the possibility of Canada seeking new concessions in return.

Former Colonial Secretary L. S. Amery today declared himself in favor of an Anglo-American trade pact provided it did not prejudice the system of imperial preference stipulated by the Ottawa agreement.
