**Canada—Why?**  
Is it really worth while to develop institutions and industries which are distinctively Canadian, and which promote the welfare and prosperity of the Canadian people? Of course it is!  
Are we wasting our time and energy in training Canadian ability and encouraging Canadian enterprise? Of course not!  
CANADA is more than an accident of geography. The magnificent record of effort made by Canadians in the great European struggle bears witness that the peaceful and unhindered development of the Canadian ideal should be maintained.  
The future of Canada depends upon the sincere and earnest self-expression of Canada's millions of workers—at the plough, the loom, the forge—in the factory, the office and the home. And loyalty to Canada is best expressed, not in bursts of patriotic emotion on state occasions, but in supporting and sustaining Canadian enterprise and Canadian industry.
