MANUFACTURERS' ASSN. SATISFIED WITH TARIFF

NEW YORK, Nov 10—The country should let well enough alone as regards the tariff, says the National Association of Manufacturers in a statement just issued, discrediting certain announcements that have been sent out of late indicating that the association was keeping up agitation on the subject.

"Some one has been issuing circulars in our name," says the statement, "stating that we are planning a crusade of agitation for further tariff revision. This is untrue. We feel that the tariff question has been disposed of by congress.

"There is every proof that we are at the beginning of an extended period of prosperity. The continuance of this business boom is of vital importance to employer and wage earner alike."

ALL ATHLETES TO REGISTER.

HALIFAX, Nov 11—In future all athletes in the Province must register with the M.P.A.A.A. This was decided at a meeting of the Executive last evening.

Mr Lithgow was elected Senior Vice-President in place of Mr McMillan, who resigned to accept the secretaryship. Mr Cameron, of Ictou, was elected to the executive. Dr Johnson and Mr Lithgow were appointed delegates at a meeting of the Canadian Union at Toronto on November 27th. They were given no power and must report back to the executive.

Why Stanfield's Make Underwear

UP to 20 years ago, most everyone considered that all Underwear—no matter how well cut and made—would shrink and harden.

In those days, the makers were working on the wrong idea. They were trying to find a way to finish Underwear so that it would not shrink, instead of trying to find a way to get the shrink out the wool before the yarn went to the knitting machines.

The late C. E. Stanfield—who knew wool as only a man can know it who studies it from the sheep's back to the wearer's back—gave his attention to the problem for years.

Living in Nova Scotia, he soon realized that woolen underwear, and the best of pure woolen underwear, was the only kind that would and could protect the Canadian against the rigorous Canadian Winters. He found that as underwear was then made, he could not make woolen underwear that would not shrink, mat and harden. He devoted himself to this problem and after many years of experimenting, he finally discovered a method by which he could take the shrink out of the wool before the garments were knitted.

This method, improved and perfected, has made possible the immense business of Stanfields Limited, with a larger output of their special classes of Underwear than any other factory in Canada.

The Stanfields make underwear today because Canadian people find Stanfield's Underwear the most comfortable, the most durable, and the warmest for its weight.

The Stanfields are making more underwear every year because the buying public demands more of it. Popularity is a good test of quality.

In 3 standard weights—Light (Red Label), Medium (Blue Label) and Heavy (Black Label) and 17 other weights and qualities to suit the needs and requirements of every man and woman.

The best dealers everywhere handle Stanfield's Underwear. Catalogue showing styles, and sample of fabric, sent free for your address.
