THIS BED SPRING WILL *NOT* RUST

¶ It has a non-rusting enamel finish that is *guaranteed* not to damage bedding—a most important feature.

¶ It will not sag nor lose shape, because of the patented interlocked twisted links and the strong parallel tension of the helical springs at each end. Note the illustration.

¶ Moreover, because of its reinforced adjustable corner castings, it will fit any bed.

¶ For buoyant comfort and lasting service, the

ALASKA Twisted Link SPRING

is unsurpassed. It has all the "give" and smoothness of a woven-wire spring without any of the *sag*, always evident in the latter, and the cost is practically the same.

¶ Your dealer sells it, or will get it for you, if you ask for it *by name*.

NO PEACE TILL 1920

REMARKABLE PROPHECY TWO YEARS AGO IN WARSAW

America as the leader in the peace movement, the abolition of the boundary lines between the United States and Canada and Mexico and a "new era" in 1920 are predicted in a remarkable so-called Warsaw prophecy, made by a young girl of that city, Miss "R. S.," in October 1914.

The prophecy is contained in a book published by a Polish doctor, who has served abroad in the Red Cross, and is now in this country. He signs himself discreetly "Dr Stephan," although he gives his full name to Mme Szumowska Adamewski of Cambridge, president of the "Friends of Poland," who has furnished the following translation.

The words of a young woman from Warsaw, Miss R. S., at one of the psychological meetings in Warsaw copied from hectographic print in October 1914.

The crops will be gory this year.—A war will start in all Europe.—A German avalanche will submerge all our country up to Warsaw, up to Vistula—and also the whole of Belgium.—The German people will follow their Government.—Against the Germans France, England, Russia, and the heroic Belgium will line up—Poland, forgotten by the whole world, will act with equal heroism to Belgium, and no one will appreciate the tragedy of the Polish soul when, owing to the crime of Europe committed a hundred years ago through the dismemberment, a brother will have to fight against a brother.

All through the first year the struggle will continue with varying luck.—Galicia will pass from hand to hand.—And the result—ruined, burned cities and villages, dishonored women, defiled churches,— the population chased out of their land,—despair, misery and plague; the result—the country one huge cemetery.

Words of Millions of Victims

On the side of Germany and Austria —Turkey —and on the side of France, England and Russia, Italy will stand. Before the year 1915 goes by Warsaw will fall into German hands. The scales of victory will seem to tilt over to the German side.

One of the combatting forces will lose its leader. The Germans, as apparent victors, will assail peoples with their offer of a thorny olive branch of peace—and they will find an echo of agreement in the dynastic interests in Russia.

The sprouting idea of war, stifled and deformed by the Governments of the fighting sides, will begin to light the dawn of the freedom of the peoples Until now the Governments spoke with the voice of cannons and crimes, with the voice of massacres of millions —now the nations will begin to speak with words of millions of millions of victims. Year 1916 will be the year of a world-wide revolution, the year of the beginning of a new era, and the beginning of the conflagrations of the world.

Revolutions will start in Austria, Turkey, Russia, China, India. Japan will endeavor to force her rule on China.

America's Response

Materialistic, dollar-worshipping America will wish to guard her neutrality, but in vain. The people of America will respond to the call of freedom of the nations on the other side of the ocean. A revolution will start in America, and the revolutionary Americas will take the lead of the movement for freedom of the whole yorld.

The demarcation lines of Canada, the States and Mexico will disappear. This movement will pass to the South America. The years 1917 and 1918 will be those of the greatest revolutionary tension, Revolutions will flare up in Germany, France England and Italy.

Russia, Germany and England will go to pieces as states—and on their ruins will rise a federation of free nations of Europe. So Poland will also be independent. Turkey will be chased away into Asia and Constantinople will become a free city.

England will be deprived of her colonies. Egypt will become independent. A federation of peoples of Asia and the whole world will start. This errant nation, the Jews, will fight out for themselves the right of deciding for themselves. The nations will not disappear but will individualize themselves. The process of formation, of creation, will last a long time. Only the year 1920 will become a year of peace and a new era in the development of humanity on earth.

DUG OUT LIFE MADE CHEERFUL

Mrs. Lowther of Kingston has received the following letter from her son, N. W. Lowther, who left here with the 6th C. M. S. and is now in France.

In a dugout,
April 22nd

My Dearest Mother:—I believe tomorrow is Easter Sunday. I wonder what Easter should signify to us. I am going to give you an idea of a dugout life. There are three of us in this one, one chap from Dartmouth and another from Pictou. It rains with "verberosity", Sgt. Smith (otherwise called Smith) says. He is from Pictou Our dug-out roof needs repairing badly but Fritz, no doubt in misery also on account of the rain, objects so we were forced to resort to hanging mess-tins, steel helmets, under the drips. So you see we go back to the days of the ancients who measured time by the running of sand through an hour glass, whereas we measure it by the mess-tins getting full. One takes 22 minutes, another 14 and the tin-hat (as we call them) one hour and 50 minutes. Time is as relentless here as anywhere for if you chance to snooze off you are awakened in 14 minutes by drip, drip on your face. In the meantime the officer comes along "Sgt. L., will you find out how many steel helmets we are short." "All right," and out you go in the rain, and so on.

This morning as I was cooking breakfast a cuckoo started singing or chanting. It was the first I had heard. And then again we can light no fires or rather make no smoke in daylight as Fritz sends over flocks of whizz-bangs so as necessity mother's invention, I got an old maconochie tin (they contain beef, vegetables, etc., and all that is required is to warm them up) cut off a small square of sand-bag, put this in the tin, slice up a candle fine, set a match and presto! you have a fine fire without smoke and will heat a mess-tin of tea etc. You can't beat it. Then get a piece of nice, soft, sweet, biscuit (impossible to be obtained in Europe) and open up a tin of jam (if you have the good fortune to have one. We have not at present). But I have a pipe, some Edgeworth tobacco, a whole skin and good spirits, so why should I worry? The little bushes are shooting into leaf slowly, but there is no sign from the trees yet This seems to be the first place we have been where the leaves are coming so fast.

Am enclosing a piece of a German Eokher that one of our chaps brought down near us after a long scrap. The pilot was not killed, but the observer was. This morning we saw a fine aeroplane scrap over our heads. A Fritz and one of ours got into it heavy, machine guns splitting but another Fritz seemed to get on top of ours and gave ours a broadside. Ours took a shoot down directly for us and landed first behind us. But we haven't had a chance to work him over as Fritz landed some shells right around here as soon as ours landed Fritz is rather nasty here with his whizz bangs and shrapnel. Love to all.

An Easy Way To Get Fat And Be Strong

GOOD ADVICE FOR THIN FOLKS.

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing or useless "flesh creams" or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

There is a preparation known to reliable druggists almost everywhere which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich fat-laden blood. This modern treatment is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to the starved, broken-down cells and tissues of you body. You can readily picture what result this amazing transformation should produce as with increased weight the cheeks fill out, hollows about neck, shoulders and bust disappear and from 10 to 20 pounds of solid, healthy flesh is added to the body. Sagol is absolutely harmless, inexpensive, efficient. Leading druggists of this vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

If you find a druggist who is unable to supply you send $1.00 to the National Laboratories, 74 St. Antoine St., Montreal and a complete ten days treatment will be sent you postpaid.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion etc." have been reported care should be taken about using it unless a gain of weight is desired.
