

If you have a hard hacking cough, that no other remedy seems able to cure, try a bottle of Dr. Wood's Norway Pine Syrup. There is nothing to equal it for loosening the phlegm, allaying the irritation and healing and strengthening the lungs and bronchial tubes.

Miss M. Bradshaw, Wesleyville, Ont., says: "My brother was troubled with a very bad hacking cough, which stuck to him in spite of everything we could do, but after using three bottles of Dr. Wood's Norway Pine Syrup he was completely cured."

There are so many spurious "pine" preparations on the market that you should always be careful to get Dr. Wood's, the original and genuine.

## THE MORNING GUARDIAN,

THURSDAY, MAY 2, 1901.

The Monetary Times points out that the iron and steel works being established at the Soo under the agency of Mr. Clergue will have a greater capacity than any similar works in the British Isles or the continent of Europe. The Times also forecasts a brisk trade in the export of iron to the British market three years hence. These facts and intimations illustrate the tremendous strides forward that Canada is taking in these opening years of the twentieth century. And, to enlarge upon the famous forecast of Mr. Tarte, "Just wait till you see us in the next century!"

The report of the Geological Survey for the year 1900 shows a total mineral production in Canada of \$63,775,000. In 1886 the value was \$10,000,000, or only about a quarter of last year's output and in 1895 the value was but \$20,600,000, or less than one third of last year. The production is classified into two great divisions, metallic and non-metallic, the former amounting to over 40 millions and the latter to over 23 millions. Gold gave the best yield among metals, the value being \$27,716,752 or two thirds of the whole. In the non-metallic class coal comes first, the production being 3,332,197 tons, worth \$12,668,475 or more than half the value of this class of minerals.

Referring to the possible increase of tax upon commercial travellers from \$20 to \$50 each, one of their number informs us that probably not a single traveller would visit the Island if such a change were made. Many of them at least would not come nearer than Picton or Point du Chene, and would arrange to have the merchants meet them there. This is a possibility that the Government would do well to consider. It is pretty clear that any sharp advance in the tax would not result in any increase of the amount collected, but rather the reverse. It will be pretty difficult to squeeze any more out of the Knights of the Gripsock than is now being obtained. They are a very resourceful body of men and they have been doing a lot of thinking on the tax.

According to an Ottawa despatch the census returns are being received at the Department in Ottawa much more rapidly than they were ten years ago, 875 returns having been received in April of this year compared with only 59 received in April 1891. This gives hope that the totals of population for the Provinces at least, may be given to the public something earlier than heretofore something ardently to be desired. What is also desirable is that the entire details of the census should be tabulated and published as speedily as possible. Tables that are published years after the enumeration was made are comparatively useless, yet in each of the censuses heretofore taken in the Dominion the work of tabulation went on for years, giving rise to the suspicion that the census officials were nursing "the job" to make as much out of it as was possible.

### THE EDITOR'S MAIL.

#### Don't Curtail Playground.

Sir,—A short time ago you published a very excellent article opposing the taking of part of the children's playground at Upper Prince Street School for a public street. I am surprised that so little notice has been taken of this matter. Fancy taking from an already too small playground a strip of 40 or 50 feet. If possible, which I fear is not the case, our School Board should increase and not diminish the playground area. As a parent, I protest against this scheme. I do not know whether or no there is other land in that locality available for street purposes, but if not, I say do without the street rather than curtail the children's playground.

## Chronic Bronchitis

Mr. Wm. Davidson, St. Andrews, Que., states:—"Dr. Chase's Syrup of Linseed and Turpentine has cured me of bronchitis. I have, without success, tried many remedies for the past six years. Last winter when I had a severe attack and was unable to work I procured a bottle of Dr. Chase's Syrup of Linseed and Turpentine, and am happy to state that the third bottle made me a well man."

Mr. W. R. Alger, insurance agent Halifax, N.S., says:—"I used Dr. Chase's Syrup of Linseed and Turpentine for a severe attack of bronchitis. Permit me to testify to its splendid curative properties. I got better from the time of taking the first dose. Having a family of young children, my doctors' bills have annually come to a considerable sum. I believe a bottle of Dr. Chase's Syrup occasionally will aid me in reducing them very materially." 25 cents a bottle, all dealers.

Wilson is a stepson of Police Sergeant Baxter.

#### Great Victory.

BARNABY RIVER, N. B. Mar.—Few cases of illness and recovery have excited the interest in this community, as has the kidney trouble of Mr. Cornelius Crottie. Mr. Crottie's treatment by the doctors at home and in the hospital, and the fact that they absolutely gave him up as a case beyond all hope, is well known. His subsequent restoration by the use of Dodd's Kidney Pills reads like a miracle. "For five years I have suffered off and on with kidney trouble. Last fall I had an attack, for which the doctors had little hope of my recovery. I was obliged to go to the hospital for treatment, but it did me no good, so I came home, give up by the doctors. A friend suggested Dodd's Kidney Pills. From the first box I improved. Now I am at my work every day."
