Islanders Were Adrift Five Days in Boat

After being adrift five days and nights in an open boat, with no sail and only one oar to maneuver their craft and with their fresh water supply long gone dry, two Tignish men, Fred and Alphonse Gaudet, were picked up yesterday seventy miles north east of Gaspé by the steamer Sheba and landed at Lévis, Quebec.

Disastrous Fire Is Raging In Que.

(Special to The Guardian.) OTTAWA, Aug. 11.—Aymar, Quebec, which was yesterday a picturesque little town of 7,000 inhabitants on the edge of Lake Deschênes, is today a scene of grief and desolation. Upwards of 700 persons are homeless with all their belongings destroyed. One man is dead and property damage now estimated at \$1,250,000 was caused by a disastrous fire which broke out in some sheds on the main street and fanned by a strong wind which swept across the lake destroyed all before it. In some cases the citizens were barely able to escape with their lives. Very few have any of their belongings and the efforts of the fire fighters were unavailing. Most of the principal buildings in the town were raised by the flames which raged here and there throughout the afternoon and evening. This morning fires are still burning among the heaps of coal and debris throughout the fire-swept area, while the homeless men, women and children are being housed in militia tents and in every available building and are being fed by volunteer workers from Ottawa and Hull and those citizens of Aymar who escaped loss in the conflagration.

ST. JOHN, Aug. 11.—The two suspects in connection with the murder of little Sadie McAuley, have both been released from custody. Each were able to prove an alibi. A youth answering the murderer's description has been arrested at Burton, N. B. ST. JOHN, Aug. 11.—The murderer of little Sadie McAuley was still at large last evening. Two suspects were rounded up early yesterday but both were allowed to go on their way. It was reported that neither was the detective that committed the crime. The coroner's jury viewed the scene of the crime yesterday morning and then adjourned until tomorrow evening when the inquest will be held. The description of the suspect has been scattered broad and every possible clue is being followed to the end. The work of the detectives resulted in two young men being apprehended yesterday morning and taken to the police station. One of them was identified as William Vanocora, Me., in 1915, was placed aboard the Red Star liner Poland by an agent of the Dominion immigration department today, in accordance with the deportation order issued against him, and sailed with the vessel for Hamburg, Germany.

NEWARK, N. J., Aug. 11.—Mrs. Nettie Dunham of Newark, tired of the drudgery of keeping a rooming house wrote to the Sheriff of Omaha a few weeks ago asking him to find her a husband and so far she has had twenty-three replies. She wired the sheriff that she had plenty to pick from and please not send her any more. Mrs. Dunham specified that the husband must be more than 50 years of age and under 200 pounds in weight, and she admitted last night that she had just about decided to accept the first man she heard from. He is a railroad worker, about sixty-five years old. She has sent him her photograph and asked for his in return.

A RELIC OF THE BATTLE OF JUTLAND

LONDON, Aug. 11.—H. M. S. Chester, one of the most famous ships in the British Navy, has arrived at Chatham from Sheerness, and has taken her place amongst the fleet of obsolete vessels in the river. She is to be sold. It was on the Chester that Jack Cornwall won his V. C. at the Battle of Jutland, for remaining at his post when the rest of a gun crew had been killed during this engagement. Chester's decks became strewn with dead and wounded. With all her two gun turrets of action, the light cruiser remained in the thickest of the battle, and nearly one-third of her crew were either killed or wounded. After the battle she made her way into Hull in a terribly battered condition. Chester is a comparatively new ship, having been commissioned in May, 1918, two weeks before the battle of Jutland. The suggestion has been made that she should be kept as a naval relic.

Quebec's Salute to Byng of Vimy

(Special to The Guardian.) QUEBEC, Aug. 11.—Canada today a new Governor General. Shortly before eleven o'clock this morning the little government steamer Lady Grey, which was being used for the purpose of carrying the remains of the late Lord Byng, was being towed by the tugboat "The Vimy" under the supervision of the Prime Minister of Canada. The Lady Grey pulled out immediately from the big liner and headed for the King's wharf, a mile and a half up the river. As she cleared into midstream there came a crashing roar from the ancient citadel and nineteen guns paid tribute to the King's delegate to Canada. It was not the first time that big guns have thundered the triumph of Byng.

The mandate for German Samoa was given New Zealand by the peace treaty.

Kissing Caused Bilsters

UNIONTOWN, Pa., Aug. 9.—Kissing is blamed by physicians of this city for the spread of an epidemic of bilsters, which has now grown to such proportions that the board of health may be called on to place a ban on osculation until such time as the disease has abated or disappeared entirely. Local physicians are authority for the statement that there are hundreds of cases of a skin disease here which spreads in a manner similar to noxious weed poisoning. The disease has the nature of an exanthematous rash and has been found very difficult to control and even more difficult to eradicate once it has taken hold on a person.

Local Industry Fills A Long Felt Want In Fox Business

Last spring a new industry was established in the city, which, though not of large dimensions, fills a long felt want. A company took over the former Fox biscuit machinery of the Ross and Mac Millan Biscuit Company and started manufacturing fox biscuits on a large scale. It was necessary to do this as Messrs. Ross and Mac Millan were giving up the business and several large fox bakers rather than be without them, desired to go on with the concern. The contract was made with a Newfoundland firm for a very high grade of steam process medical flour and a contract was made for the ingredients. An efficient staff was provided and the machinery put in operation.

Will Stand Behind the Boys

To a small group of reporters Lord Byng expressed his pleasure at the prospect of a term in Canada. "It is not only that I will see and renew acquaintances with my comrades-in-arms in France, but I feel that I owe a great deal to Canada," he said. "The Canadians did all they could to help me. For after all it was the Byng Boys, you know, who did it. They stood behind me over there. Now I am going to try and stand behind them over here, and to do all I can for them and for Canada."

BOSTON, August 11.—X-ray photographs taken today prove that there is an ear-to-ear passageway through the cranium of Harry Shanley, a wounded veteran of the Canadian Expeditionary Force, who is under treatment at the Massachusetts Clinic for diagnosis, and is being prepared for surgery. The phenomenon was caused, Shanley said, by the concussion of an exploding shell in France.
