Regular Orderlies are eaten like candy, they act quietly and have a soothing, strengthening, healing influence on the entire intestinal tract.

SHOWERS BROUGHT SOME RELIEF TO SUFFERERS

NEW YORK, July 7—Showers last night brought relief to many from the hot wave which has taken more than a hundred lives and caused hundreds of prostrations during the past five days.

The passing of the brief storm, however, was the signal for another upward shoot after 9 o'clock, and there still seemed no firm ground for hope that the back-bone of the torrid spell had been broken.

Humanity's sufferings were if possible, greater than ever. Women fainted in the street, and the druggists all over the downtown district became veritable "first aid" stations.

An inhabitant of Alberton, who, according to his own story, has not been in the city for nine years, came on the morning train. He showed an evident desire to make the occasion linger in his memory as a decidedly pleasant one and following out his own ideas as to how to secure such a result, purchased a bottle of the ardent at—well, that does not matter. That proving insufficient he bought another bottle of the cheering liquor and put it in his coat pocket, intending it for consumption on the train on the way home. He was late in starting to catch his train and was still running when he arrived at the station. On turning the corner rapidly at the rear entrance the bottle slipped out and, striking the sidewalk, was shattered, and its contents running over the concrete and creating a distinctive aroma peculiar to liquor of its nature. The owner stopped and his dismay was plainly written on his face. In subsequent he was heard to say he "could get plenty in Alberton but not as good."
