For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear.

It is always easier, cheaper and better to check a cold in the very beginning.

It is safer, too.

Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are never without it.

A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. Once used, my customers will buy no other."—L. Elsley, Nassagaweya, Ont.

If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell 503

A SPECIAL meeting of the Provincial Football League was held last night to consider the protest entered by the Victoria Club against a decision of the referee Vincent Blake in their last match with the Abegweits. The protest was not sustained by the League, the Abegweits and Prince Edward delegates voting against it and holding that according to the playing rules there can be no appeal from a referee's decision in matters of fact. The game therefore remains a draw, and if the Victorias defeat the Prince Edwards Saturday, they will have to play off with the Abegweits for the Provincial Championship.

DALHOUSIE College won from the University of New Brunswick Tuesday 16—0, the same figures that the Halifax college scored against the New Brunswick boys when the latter were in Halifax two years ago. The day was a perfect one and about four hundred people saw the football. Play was rather of a listless character, but although the visitors did not display very much knowledge of the game, they fought gamely to the end and several times nearly caught the yellow and blacks napping. Dalhousie made two tries and two goals, scoring twice in the first half, but twenty minutes elapsed in the second period before the third try was made, the fourth being scored a few minutes later.

THE subject, "Which would be of the greater benefit to this city, Prohibition as it now exists or High License, was debated with great interest in the Charlottetown Business College last evening. The Prohibition side was opened by W. I. Clarke, who in a very able, pointed and spirited speech upheld his end of the argument, and quoted figures in many cases in support of his views. He was ably supported by Fred May who in a splendid address advanced many arguments for Prohibition. The contrary was led by Walter Trainor, who dwelt more at home and said that High License was not by any means the best law but brought forth arguments endeavoring to show how it was better than Prohibition. He was supported by Austin Bradley, from St. Dunstan's who in a very forcible, rhetorical and philosophical speech introduced many new arguments. His remarks were listened to with great attention. The debate throughout was very interesting, and the floor was not for a moment idle. On the ballot being taken it showed a majority of one vote for Prohibition.

Friends of The Guardian are again asked to have all their advertising matter whether of entertainments, lectures, concerts, or of a general nature, in this Office not later than 4 p. m. and of any considerable length much earlier, as it is impossible to give all the news of the day if advertising has to be handled at night, for every line of the latter prevents the appearance of the same quantity of news. For the issue of the 13th one third of a column of such advertising was set up in type at night, and readers were thus deprived of the same quantity of late news. This, of course, makes The Guardian less valuable to readers and correspondingly so to advertisers, and in future only emergency advertising will be accepted at night. Friends are asked to hand in all their advertising as early as possible each day.
