**IN MEMORIAM**  
MR. ANGUS McDONALD

The death occurred at Georgetown on Wednesday, May 25th, of Mr. Angus McDonald in the 78th year of his age. For some time the deceased had been in delicate health and confined to his home. He was a man of splendid character, a patient sufferer. He formerly belonged to Pictou, N. S., but has been chief engineer of the ferry steamer Montague for about thirty-five years. He was a general favorite with all who knew him, always so obliging to passengers when on duty. The news of Mr. McDonald's death shall be a great shock to all his friends. There are left to mourn, his widow, living in Pictou, two sons and three daughters. All of whom have the sympathy of the whole community. Mr. McDonald's remains shall be forwarded to Pictou for burial.

ANNUAL MEETING OF THE P. M. Island Hospital on Tuesday, 31st May at 8 p. m. in parlour of Young Men's Christian Association.

**HOTEL CONCERT**—At the Victoria Hotel yesterday an enjoyable concert was given to some hundred and twenty guests assembled for dinner. In addition to the Cashno orchestra there were vocal solos by Mr. Sandy MacGregor, pipe music by Miss Jean Thomson and violin selections by Mr. Porter, of Toronto.

**INTERESTING COLLECTION**—Visitors who have an opportunity of stopping off at Royalty Junction will find it interesting to visit Mr. John McDonald. Particularly notable is his splendid collection of some birds and nests, now being the nesting season a special delight is afforded visitors who may call to see the general "John."

**CHURCH MUSIC**—At the evening service at the Methodist church last night special music, including selections from Gounod's Holy City were rendered with unique effect. The Gloria Sanctus was sung by the choir in the vestry and sounded as from a distance. Mr. Gorbail taking the solo part. The anthems "Alpha and Omega" by Strainer, was also rendered.

**TO UNDERGO OPERATION**—Mr. John McDougald, the efficient and popular caretaker of the Y. M. C. A., left on Saturday for Boston to undergo an operation which will involve the removal of a cataract from one of his eyes. Mr. McDougald will be missed at the Y where he has taken a fatherly interest in the boys and where the boys will be pleased to see him safely back again.

**CAR ACCIDENTS**—That the traffic laws in respect to automobiles are being disregarded by some drivers about the city is becoming alarmingly evident in the number of accidents which have occurred within the past few weeks. It has been complained that illegal driving and speeding is carried on at Victoria Park driveway. Yesterday many near accidents occurred in the crush about St. Joseph's Convent during the Corpus Christi parade.

**ENCOURAGEMENT TO PACKERS**—Prof. Reid, bacteriologist of Ontario, and Mr. Clarence Tidmarsh, of Dalhousie University, (son of Mr. W. F. Tidmarsh, city) are giving demonstrations in the province on bacteria and its effect on lobster meat. Dr. Harrison, also of Ontario, is holding laboratory experiments at Rustico to ascertain the cause and prevention of discoloration as well as smut which sometimes develops in processed lobsters. This work, of Dr. Reid and Mr. Tidmarsh are valuable aids to the lobster industry in this province, and every encouragement should be given to them and to the packers in general.

**Stowaways**  
Trying Experience

WASHINGTON, D. C., May 28.—Naval aviation officers are talking about the hair raising experiences of three stowaways on a big navy seaplane, who rattled around in the rear cockpit in charge of the ship plane division.

Lieutenant-Commander Griffin, in charge of the ship plane division—the seaplane carried aboard the battleships—was making a flight one of the larger flying boats of the F-50 type, capable of carrying fifteen men. He took off at Hampton, Va., to make certain tests, and had gone up with an assistant pilot, who sat beside him in the front cockpit. When the flying boat reached an altitude of about 5,000 feet Commander Griffin started putting the seaplane through a series of dips and turns. He became aware of a strange shifting about at the rear, a sort of jolting.

Looking back he was amazed to see three men half way out of the cockpit. They were clutching the sides to keep from falling out when the plane banked the turns. Commander Griffin straightened out and made a successful landing.

The three men were stowaways—mechanics at the flying station who had wanted a ride and had hidden themselves in the cockpit. They had failed to strap themselves into the plane.

Commander Griffin's tests related to the ability of the seaplane to maneuver to such an extent that it might loop the loop. Had this been attempted there is little doubt the men would have fallen 5,000 feet.

**Rainmaker Backs Old Probs**

WINNIPEG, May 27.—Rain making in the Medicine Hat district is discussed in an article for The Tribune by D. L. McLean, secretary of the provincial drainage commission, who takes the point of view that "Rainmaker" Hatfield is taking a chance and backing Old Probs in his contract with the United Farmers' association at that point. On the least favorable computation as viewed in the light of statistics of rainfall of past years, Mr. McLean estimates that the rain-producer has an 80 per cent. of obtaining 34,000 for the season, a 50-50 chance for a \$6,000 reward, and a 35 per cent. chance for the \$3,000 compensation without any interference on his part without the operations of nature.

Mr. McLean says that records made at Medicine Hat support this view of the matter.

Speaking of rain and crop needs in Manitoba, Mr. McLean says: "As far as the people in Manitoba are concerned, sufficient rainfall for crops is provided throughout the greater portion of the province and the only element of uncertainty is variation of the spring floods and heavy summer or fall rains. Adequate drainage will take care of these variations economically."

A meeting of the club executive is to be held this afternoon at the club house at five o'clock to deal with important matters.

**Fez Disappears As Turk Headgear**

CONSTANTINOPLE, May 28.—The National Assembly in Ankara, has decided that Fez is no longer to be the National headgear of the Turk. By unanimous vote it was agreed that the "kalpak" should replace it, as the uniform covering for the head of all troops, officials and Turkish subjects generally.

The principal argument in favor of this reform, which eliminates one of the most characteristic and picturesque features of Turkish attire, was an economical one. The Turks have never been able to manufacture fezes that compared in price or quality with those manufactured abroad, especially in Austria, where there were several large factories which turned out millions of these articles.

The "kalpak" can be manufactured in Turkey, but it can hardly be considered an improvement on the old fez.

It is made of black cloth or felt, and is much the same shape as the fez, only flatter and broader, as it does not taper. Neither is really a very practical form of headgear, because they are warm and afford little protection against rain and none from the glare of the sun. The fez was bright and lent color to any assembly. Its successor is sombre, uninteresting and on the whole rather depressing.

**FIRE LOSSES**  
Fire losses in Canada during the week ended May 26th are estimated by The Monetary Times at \$24,950, compared with \$14,000 the previous week. The heaviest loss was caused by a fire in the town of Bic, Quebec.

**NEW INCORPORATIONS**  
Capital of companies incorporated in Canada during the week ended May 21 is estimated by The Monetary Times at \$18,710,500, compared with \$36,227,715 the previous week. By Dominion and provinces the figures are as follows:

Province	May 14	May 21
Dominion	\$29,108,000	\$2,426,000
British Columbia	945,000	5,539,000
Manitoba	530,000	530,000
Ontario	5,338,715	530,000
P. E. I.	140,000	140,000
Quebec	838,000	737,500
Totals	\$36,227,715	\$18,710,500

**BUYING WITHIN THE EMPIRE**  
The new Budget has made it more advantageous to buy for Canadians to buy British goods rather than those of United States manufacture," declared Captain Evan J. Edwards, Senior British Trade Commissioner in Canada, in a recent interview in Montreal. "It will also be a big help to agents and business houses who prefer to do business with the Mother Country, and within the British Empire. Sir Henry Drayton, Minister of Finance, in his speech when introducing the Budget, pointed out that business with the United Kingdom continues to be satisfactory, imports from these having risen from \$126,369,249 in 1919 to \$213,930,946 in 1920, with the added satisfaction to Canadian buyers and consumers that their dollars are at a premium in the English market, as against a discount in the United States.

"A section of the Budget which will assist very much indeed in the cause requiring Customs duty to be levied on the invoiced value of goods after taking the rate of exchange into account. At the desire of business interests throughout Canada, Customs regulations drawn up several months ago made it compulsory for this to be done with European goods, but for certain reasons no similar requirements were made on imports from the States. The result was a considerable advantage to importers of American goods, so much so, that in many cases with a high rate of exchange it amounted to a quite substantial reduction of the protective Customs tariff, and sometimes did away with the preferential tariff given to products of the Empire.

"Now American manufacturers will rank the same as those of any other country," continued Captain Edwards, "and I believe the effect will be not only to encourage British trade, but to assist considerably in re-establishing the equilibrium of trade between Canada and the States, and bring back to its fair value the Canadian dollar, which is improving so slowly that still it is worth only some ninety cents in the States.

"Sir Henry Drayton says—and it is clearly known to every business man, including those Canadians and Americans who are interested in pouring into this country quantities of American manufacturers—that Canada, to save herself from financial bankruptcy, must buy less from the States, of products which can be raised or made on this side of the line or in the United Kingdom.

"With the new aids to Empire trade, derived from Sir Henry's latest Budget, a saving of often four-fifths to forty per cent. to the Canadian consumer can be shown by buying Empire products instead of American, and as Britishers, it is not necessary to remind Canadians that there are few lines of goods in which Old Country quality is not superior to that of the American article.

"Canada's own products can be far better supplied than they now are, by herself," insists Captain Edwards, "whose many years' experience in a big business in the Old Country and the other Dominions adds authority to his statements. "More aggressive" selling campaigns by our own manufacturers, perhaps a willingness to spread present heavy—overhead

**Wanted to "Doll Up"**  
CHESTER, PA., May 28.—That they wanted to get "all dolled up" according to their own ideas was the excuse given before Magistrate Elliott in police court today by Peggy Bainbrick, 1226 Crosby st., this city, and Helen Williams, of Darby, who were charged with fitting themselves out in pretty clothes at the expense of Mrs. Philip Lee, with whom Miss Bainbrick boards.

According to Miss Bainbrick's admission in police court here today, she and her friend Helen went on a shopping expedition and used Mrs. Lee's accounts. At one store the girls, neither of whom is yet 20 years old, made purchases amounting to \$244.70, and at another they ran up a bill of \$107.15.

After dressing up in their newly acquired finery the girls went to the roof garden of a leading hotel, where they say they made a great hit with some "nice young men."

Magistrate Elliott held the girls in \$400 bail each. Miss Bainbrick is a telephone operator, and Miss Williams lives at home with her parents.
