### Thornton Says Dark-Age Era May Come Back

PHILADELPHIA, Dec. 14—A warning that, unless the Caucasian race wakes up to conditions in Europe, culture and civilization may again slip into a dark age, was sounded by Sir Henry W. Thornton, president of the Canadian National Railways, in an address before the Franklin Institute here last night.

"There is a weakening of orderly Caucasian control and the awakening of inexperienced and uncultured hordes in the world today," he said. "It may be that a barbarian knocking at the frontiers of European civilization, and in the invasion should it come, culture and civilization may perhaps slip again into an era of dark ages to resume only in some subsequent century its painful climb toward Olympus."

"The Great War took a heavy toll in blood, brains, wealth and influence from European nations," he said. "Some of these nations which prior to the war represented responsible empires, are now irresponsible fragments. The ravages of battle have robbed the Caucasian race of the flower of its youth. That, in itself, represents a tremendous liability."

"The restraining hand of world discipline is weakening. Already serious influences of a magnitude not to be depicted seek to overthrow these finer traditions to which we owe allegiance and hold to be sound. The struggle of nations for industrial supremacy, which today has replaced the struggle for military leadership, also constitutes a real menace."

### STRESS EXPANDING TRADE FOR JAPAN

VANCOUVER, B. C., Dec. 13—"Japan, already Canada's third largest customer, is almost certain to prove an expanding market for three main groups of our primary or semi-manufactured products," the delegation of Canadian Chambers of Commerce reported in a statement to the press here in a review of their tour of the Orient. The delegation arrived tonight on the Canadian Pacific liner Empress of Japan. The statement, given out by John M. Imrie, Edmonton chairman listed the three groups as wheat and other foodstuffs, lumber and minerals, and a limited range of fully processed commodities. China, which today stands high among Canada's purchasing nations, is a potential market for a vastly greater range and volume of Canadian products—both manufactured and primary.

### THE FINEST OF FUR

"I wish to let you know that I have been feeding your IMPERIAL FOX BISCUITS for quite a number of years, having used them in my ranches in Prince Edward Island and in the United States. There is something in them that KEEPS THE FOXES IN GOOD CONDITION and PROMOTES HEALTHY GROWTH as well as PRODUCING THE FINEST OF FUR. I never lose the opportunity of recommending them to others feeling that they are of GREAT VALUE TO THE SUCCESS OF THE INDUSTRY."
