THE CHARLOTTETOWN GUARDIAN

MONDAY MORNING FEBRUARY 26, 1906.

OUR DAIRY INDUSTRY.

The facts disclosed, and the suggestions made at the annual meeting of the Provincial Dairy Association are worthy of most careful and earnest consideration by our farmers. The reports of Secretary Anderson and Inspector Morrow are particularly valuable and informing. The fact is that our dairy industry was hit very hard by the dry season, short pasturage and hay-crop and the succeeding hay famine of the recent past.

This led to the closure of a number of factories while others started late and were conducted with diminished number of patrons, with necessarily increased cost proportionately for the hauling of milk. There is no doubt also that the conditions referred to affected the value of much of the milk supplied. The cows after a hard winter would require months of abundant pasturage before regaining their full power of producing rich milk.

The good prices realized for butter and cheese during the season make up the brighter side of the picture and give reason to hope that our cherished and productive dairy industry shall not be permitted to pass into permanent decadence. We trust that during the coming spring and summer many of the patrons who have temporarily dropped away may return to the fold.

In 1904 there were in Canada the following number of cheese factories: Ontario 1,123; Quebec 1,122; New Brunswick 83; Manitoba 31; Nova Scotia 11; Prince Edward Island 43; the Territories 14. The production of cheese in this Province was greater than in New Brunswick and Nova Scotia combined, and about equal to that of New Brunswick and Manitoba combined.

In the last census year there were in all Canada 3,576 cheese and butter factories to which 201,120 patrons contributed and these were paid for their milk the large sum of \$25,302,531. The total value of cheese produced in factories was something more than three times the value of the butter so produced. We regard it as of prime importance that cooperative dairying, in which our Island farmers have hitherto excelled, shall be continued, improved and extended. It is, we believe about as remunerative as any branch of industry connected with the farm taking one year with another and taking all things into consideration.

The House Representatives at Washington this year refused to adjourn in celebration of Washington's birthday.

St. John city will have a plebiscite in April to decide for or against a two year term for Mayor and Aldermen instead of the present one year term.

The Nova Scotia Government has introduced a bill in the Legislature to provide a pension fund for school teachers.

The St. John Women's Council under the presidency of Mrs. D. McLellan are considering the propriety of taking charge of the tea room and of women's exhibits at the Provincial Exhibition to be held there next September.

The Annapolis Conservatives will give their support to Rev. Mr. Gaetz and not put forward a party candidate in the coming by-election for the Provincial Legislature. It will be remembered that the Conservative Association of the Province some time since resolved in favor of provincial plebiscite on prohibition, and pledged itself to carry out the wishes of the majority so expressed when their party comes into office. In supporting the prohibition candidate in Annapolis the party is therefore quite consistent.

It is a highly significant fact that in the by-election for Missouneuve, the seat held by the late Hon. R. Prefontaine, the straight Liberal candidate has been defeated and the Labor candidate elected by a large majority. Just what may be the bearing of this change upon political parties we do not know, but, following the great show of strength made by the labor organizations in Great Britain, it seems at least to show that organized labor has become a political factor to be reckoned with on both sides of the Atlantic.

Nourishing Blood Means Strength

You Are Pale and Weak Because Your Blood is Thin and Weak.

There can be no such thing as health without pure, rich blood—no sparkling eyes, clear skin, or active brain. The very foundation of health and strength lies in the blood, which must be kept free from poisons and impurities. Nature has no better blood medicine than Dr. Hamilton's Pills, which are composed of such vegetable extracts as mandrake and quinine, known to all doctors for their prompt and healthy action. If you would drive out disease and increase your force and vigor, take Dr. Hamilton's Pills. You will feel fresher, brighter, and enjoy keener appetite.

SHE WAS PALE AND LISTLESS.
"Before using Dr. Hamilton's Pills," writes Mrs. Edith E. Phelps of Woodstock, "I was pale and listless, my color was yellow, and my appetite very poor. To-day I am a different girl, weigh more, look better, and feel improved in every way."
Why not use Dr. Hamilton's, too? You'll get that hearty bracing health that thousands and thousands are enjoying because they used this famous medicine. Price 25¢ per box, or five boxes for \$1.00, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

DUNDAS WANTS BRANCH RAILWAY

Meeting Largely Attended—The Resolutions Adopted and Summaries of the Speeches—The People Thoroughly Aroused—And Determined to Spare no Efforts to Win.

At the Railroad Meeting at Dundas on the 21st inst. the Cheese Factory Hall was filled with electors from all the surrounding country. T. J. Wigginton, President of the Farmers' Institute, acted as chairman and C. B. Clay, Secy. of the Institute, acted as Secy.

At the opening of the meeting Geo. E. Saville who had convened the meeting at the request of the Institute stated that he had notified all the local members and ex-candidates, J. J. Hughes, M. P., John McLean, and several other prominent men to attend. He read a letter from W. A. O. Morson regretting his inability to attend, but asking that the meeting be assured of his sympathies in favor of the proposed railroad. A telephone message from P. D. Bowlen, regretting his unavoidable absence, was also read.

The following resolution was then read by Charles Clay, Junior, and on motion adopted, viz: Whereas in view of the fact that Dundas and the surrounding country is greatly inconvenienced for want of adequate railway accommodation, and that nothing has been done to improve our conditions in this respect, while at the same time large sums are being spent in other parts of the Province; Therefore resolved, that our present representative J. J. Hughes be hereby requested to do all in his power to have a railroad built from the Cardigan line via Dundas to a point on the Souris-Mount Stewart line, at or near Bear River; and further resolved, that we pledge ourselves to refuse to support any candidate who will not agree to do his utmost to accomplish the building of said road.

Mr. Saville then spoke for some time arguing that the interests of Annapolis and Lunenburg demanded that the proposed line be extended to Annapolis, and that it was greatly in the interests of Dundas, especially in the spring and fall.

J. C. Underhay said that now was the proper time to ask to have a line built, as it would be greatly in the interests of the people of Souris to have the route from Souris to Georgetown shortened by one half. He thought it would be unwise to run the main road to Annapolis, but that, if necessary, a spur line could be built from the main line to Annapolis, which would be much cheaper and just as efficient. A. J. McDonald, M. L. A., said he endorsed the object for which the meeting was called, and considered the proposed line would benefit a very large section of country, and he thought if the people only worked in harmony they would succeed in having the road opened in the near future.

Lemuel Robertson asked that it be built to accommodate the people of Annapolis and Little Pond and Lunenburg, as well as other parts. James Robertson spoke very strongly against dragging party politics into the discussion. He appealed for harmony and united action.

John Howlett said that he thought a line from St. Peters to Annapolis would suit the people there just as well, but that if the whole eastern part of the country would be benefited by the proposed line, and Annapolis also accommodated, he would give it his hearty support.

Lewis Ross and Samuel McLeod contended that we were more entitled to a railroad than many other parts of the country that is now served by the present system, and we must work for it until we get it. Geo. E. Saville then moved that Mr. Clay's resolution be adopted. The motion was seconded by William McLeod, and carried unanimously. It was then moved that a committee of five be appointed to draw up petitions to be circulated for signature. This was carried and the committee was struck as follows: J. C. Underhay, Chairman; John Howlett, G. A. Clay, C. B. Clay, Angus McLellan, A. J. McDonald, M. L. A. for attending, and rather pointed remarks were made in reference to the failure to attend or at least send satisfactory reasons for non-attendance on the part of several public men who had been invited. (Examiner please copy.)

THE TONIC OF HEALTH.

Must be more than a stimulant—must be a food as well. There is one medicine that is both a food and a tonic—it aids digestion, promotes assimilation, converts food into nutriment that builds up nerves, blood, brain and bone. That tonic is Ferrozone which contains exactly what a run-down system needs. Ferrozone supplies oxygen to purify the blood, stimulates to develop the brain, iron to harden the muscles. No wonder it makes such vigorous men and women. You'll eat, sleep, think and feel better by using Ferrozone; try it—now. Fifty cents buys a box of fifty chocolate coated Ferrozone tablets, at all dealers.

TO PACIFY CRIMINALS.

BERLIN, Feb 24.—The German Colonial league have petitioned the Reichstag on the advisability of transporting criminals to the admiralty Isles, in the South Pacific ocean.

Lame Back.
This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow. For sale by all druggists.

If you want a stylish up-to-date suit call at John McLeod & Co's. 24d 31

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadest declaration, and the broader the scope of the announcement, the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant.—American Medical Journal 1st.

Minard's Liniment for sale everywhere.

100 Pairs White Tape Girdles, 19 to 24 inch, 29 cents a pair just received at Stanley Bros. 26d 21

New Goods—These include Chase's Remedies, Pierce's Discovery and Prescription, Dodd's Kidney Pills, Williams' Pink Pills, Stuart's Dyspepsia Tablets, and many other leading "patents"—A. W. Reddin, Phen B. 24d 31.

New corset covers, new drawers, new skirts, new night dresses, made of English Cambric, and prices that will tempt you.—Prowse Bro's. 24d 31

Is Silver Cleaning a Bugbear

and does your Silver often go uncleaned because you dread the rub, rub, rub of polishing it, the eyes full of flying powder, and at the end, the Silver each time a little duller than when it came home new?

All this work is now ended. SILVEREASE is a new scientific preparation which cleans the Silver without any trouble on your part. It is in the form of a powder to be dissolved in a pan of hot water. All the silver is placed in the pan at once, and in from five to ten minutes it is ready to put away bright and sparkling as when it left the store.

Silverease is as harmless as soap. Silver, sterling or plate, can remain in it for months without the slightest harm. Price 25¢. Sold by
