PUBLIC MEETING—Rev. Edward Morris, Grand Orange Organizer will address a public meeting tonight in Mount Herbert Hall on Protestantism at 7.30 o'clock.

MOUNT STUART CIRCUIT—Methodist services at Marie St. evening 7.30 p. m. Sunday 11 a. m. Mount Stewart 3 p. m. Dunstan 7.30 p. m.

LECTURE LAST NIGHT—Dr. L. E. Croken delivered an interesting lecture on his "Experience in India" in the Knights of Columbus Home before the members of that society.

EXCITING SPORT—If the Charlottetown Driving Club succeed in pulling off their card of ice races on Saturday morning the public will see two races well worth witnessing. There are five entries in each class, all fast and evenly matched.

RACES FOR SATURDAY MORNING—The Charlottetown Driving Club will meet in their rooms tonight to make arrangements for holding the postponed ice races. The track committee will report on the condition of the ice and if in good condition will advise on Saturday morning at 9.30 a. m. All who have horses entered or who are interested should attend tonight's meeting. There is a possibility of an extra class being added.

BANK OF COMMERCE—Part of Spain, Trinidad in the latest point at which the Canadian Bank of Commerce announces that they will open a branch in the near future. Situated at the mouth of the Orinoco River, the Port is not only the place of shipment for the considerable produce of the island, but also of merchandise derived from the valley of that river. With the development of the Venezuelan hinterland, the stream of traffic down the Orinoco will be greatly increased and the importance of the preferential agreement just concluded by Canada with the British East India will be augmented. The establishment of a Canadian bank in Trinidad should be of considerable advantage to those interested in Caribbean trade.

DOUBLE BEREAVEMENT—Mrs. Patrick Trainor of South Melville, came to the city several days ago to attend her daughter Eileen, sixteen years of age who is attending Prince of Wales College and who was taken ill with measles, afterwards developing pneumonia. She was taken to the City Hospital for treatment, and is now making favorable progress, though at one time her condition was very serious. While Mrs. Trainor was at the bedside of her child she received the sad news of the death in hospital of her brother, Peter, whose body was brought home for burial, in a coffin made at Lot 65 on Wednesday. Before the arrival of her brother's body Mrs. Trainor's aged father, living at the home-stead, Lot 55, took ill and passed away. This double bereavement in the midst of the great anxiety as to her daughter's condition needles to say was a great shock and much sympathy goes out to this family.

MAJOR NORTHOVER HOME—After nearly six and a half years service overseas, Major H. R. Northover, O. B. E., M. C., of the Canadian Ordnance Corps, and well known rifle shot, has returned to Canada. After sixteen months service in France, he was engaged in England for a year modifying Colt and Lewis machine guns, into which he introduced patent devices, and on which he is now awaiting the award of a Royal Commission on inventions. For two years also Major Northover was officer commanding the Gun Testing Section of the Royal Air Force during which time he tested 28,000 machine guns for this force. He was directly responsible for all machine guns used in the R. A. F. from the end of 1917 until the Armistice. Major Northover has been responsible for the collecting of machine guns and rifles for the Canadian Government from the British authorities. Prior to enlisting he was a gun and rifle expert in Winnipeg. He bought with him from England the regimental colors of the 182nd Battalion of Regina, and which had been deposited in Canterbury Cathedral.

DEATHS
HARDING—At Graham's Road on March 1st, Mrs. Jas. Harding in the 82nd year of her age.
HUGHES—At the City Hospital, March 10, John Hughes, aged 70 years. Funeral from residence, 49 Powell St., Saturday at 8.45 a. m. to St. Dunstan's Cathedral, thence to Cemetery.

White Star Mines
Crushed and graded White Stone for building, etc. Artificial stone, steamed cement blocks and floors.
CARTER & CO.
Charlottetown, P. E. I.

SPRING PARK SCHOOL
HONOR ROLL
The following is the standing of Spring Park School, Charlottetown for the month February:
Principals: Misses I. V. 1. George Gough, 2. Eva McIntyre, 3. Grace VIII; I. Evelyn Vail, 2. Amy Clark, 3. Gilda Vail.
Grade VII: 1. Loman Cairns, 2. Irene Derrah, 3. Kathryn Nicole, 4. Grace IV, 1. Stanford Biggar, 2. Walter MacIntyre, 3. Lawrence Gough.
Grade V: 1. Leah Cannon and Morris Cranwell, (equal) 2. Harold Worth, 3. Jack Vail and Stanley Dolson, (equal).
Primary dept., grade III, 1. Ralph Cairns, 2. Florence McIntyre, 3. Laura Biso.
Grade II: 1. Mildred Burke and Carl Burke, (equal) 2. Margaret Biso, 3. Glen Nicole.
Grade I, Sr., 1. Marion McIntyre 2. Edna Gregory, 3. Emma Gallant.
Grade I, Jr., 1. George Whitlock 2. Dorothy Burke, 3. Wilfrid Arling.
A. B. C. class, 1. Leo Peters, 2. Stan Gidant, 3. Kenneth Gough.

Death of Rev. E. B. Moore

The Halifax Mail of the 3rd inst. contained the following article dealing with the death of Rev. E. B. Moore who was a native of Charlottetown:

There entered on rest, early this morning, "as it began to dawn," one of the veterans of the Methodist ministry in the province of Nova Scotia—Rev. Ezra B. Moore. Through out the conferences of New Brunswick, Prince Edward Island and Nova Scotia, that work will be received by hundreds with a sense of intimate, sorrowful loss. Mr. Moore, who had reached the great age of 81 years, enjoyed quite an extraordinary health and vigor for one so long. Past man's allotted span, and yesterday was out as usual, spending the evening with his son, Dr. E. F. Moore. This morning, when the family gathered about the table for breakfast, he did not appear, and when a member of the household went upstairs to call him, it was to find him had already answered that call which comes once to every man and must be answered—the "one clear call," to his heavenly home. The passing of Mr. Moore removes a man of whom it may be truly said that wherever known he was much respected and well loved. There was not the shadow of pose or pretense in his religion—it was "pure and undefiled." Born in Charlottetown, P. E. I., he had been for practically his entire adult life a minister of Christ, and had held many charges both in the New Brunswick, Prince Edward Island conferences and in the Nova Scotia conference.

He was a former pastor of Grafton street Methodist church in this city and the older members of that congregation recall his pastorate as one marked abundantly by the qualities which win the respect and affection of his flock. He was a former pastor of Providence church, Yarmouth, which but lately was destroyed, burned down and had held charges in Truro, Hantsport, Annapolis, Bridgetown and in Hamilton, Bermuda. His last circuit was Wolfville. In one and all of them his record was the same—he was faithful and earnestness incarnate.

Some twelve years ago, rich in the esteem of his fellows of the ministry as also in that of the Methodist body as a whole, he was placed on superannuated list, since the advance of the years made him feel that he could no longer continue in the active ministry. Since that time he has rendered invaluable service at the hospitals and in particular at the City Home, throwing into that work, to which he was appointed by the Evangelical Alliance, all his native fervor, and bringing to those to whom he ministered much divine comfort. None who knew him could question his true spirituality. It was the thing which most distinguished him, and his whole life was pledged to the service of the Master whom he served. He married Christina B. Fraser, of St. John, the wife which was ideally strong and, being broken by death some years ago, to his profound grief. There survive, to mourn a truly grievous loss, the son, above referred to, Dr. E. F. Moore, and one daughter, Mrs. Edmund A. Smith, at whose residence, 198 Robie street, he entered on rest, and one brother, James St. Croix Moore, of Eldon, P. E. I.

Mr. Moore, during his long and beneficent life had held many of the highest posts within the gift of the Methodist church, having been at one time president of the Nova Scotia conference and at various times chairman of quarterly meetings, etc. As intimate as those in a member, and a most active member, of the Evangelical Alliance.

MONTREAL EXPECTS EARLY NAVIGATION—The government signal report says that the ice breakers propose commencing work in the St. Lawrence about a week hence and reports are that the breaking up of a clear waterway will not be a difficult task this year. Between Montreal and Point du Lac (near Three Rivers) the ice is still solid, but from the latter point it is open to Quebec. Below Quebec reports are that there is mostly heavy packed ice and open ice moving down towards Belle Isle. The earliest opening of navigation was April 3rd, 1910, and it is thought that the opening will be also early this year.

REVENUE DECLINES—The ordinary revenue of Canada for February was \$36,080,612, as compared with \$39,501,392, the ordinary revenue for February, 1920. For the eleven months of the financial year ending February 28, ordinary revenue was \$418,916,180, in comparison with \$327,501,392, the ordinary revenue in the eleven months ending February 28, 1920. Ordinary expenditure last month was \$19,788,255 in comparison with an ordinary expenditure of \$38,309,380 in February, 1920. During last month the net debt of the Dominion increased by \$4,290,143 and now stands at \$2,307,013,156.

Women Do Wonders With Diamond Dyes
Each package of "Diamond Dyes" contains simple directions to dye old, faded, shabby materials, whether wool, silk, linen, cotton or mixed goods, any new, rich fadeless color. Buy no other dye.

Commendation for P. E. Island Writer

The current number of "The Sailor" the official organ of the Navy League of Canada, publishes an article on Naval Disarmament by Mr. Percy Pope of this city. In the course of a full page editorial donated to Mr. Pope's article "The Sailor" says:

In this issue of The Sailor we are fortunate to publish as the leading article a contribution from the pen of Mr. Percy Pope, of Charlottetown, on naval disarmament. We trust that every member of the Navy League will read Mr. Pope's article carefully. A vice-president of the Prince Edward Island Division of the Navy League, and a prominent citizen in the Island Province of the Dominion, Mr. Pope writes both as a Navy League member and a Canadian of wide vision, and his words, therefore, should come with a double force to Navy League members throughout the country.

While it is true that many unthinking Canadians of the ultra-radical school, or those imbued with Utopian desires, may find much to disagree with in Mr. Pope's writings, his message unquestionably will be received with approval by all thinking citizens who have the genuine interest of the nation at heart, and who recognize that the fundamentals of nation building are contained in two words—prosperity and protection. He is in the sea—in the holds of our merchant ships and in the strength of the British Navy.

Hotel Arrivals

THE DAIRY COW LEADS

Comparing the dairy cow with some of her competitors in the food line we find that in the first place she consumes a larger amount of feed which cannot be used as human food than any farm animal. Of course a beef animal may be fed a ration much like that of the dairy cow, but no beef animal will ever compare with the dairy cow as an economical producer. Experiments have shown that for every one hundred pounds of digestible nutrients the average cow returns from 240 to 250 gallons of milk which contain from 24 to 30 pounds of solids. The hog on the same amount of food produces about 16 pounds solid; poultry less than 5 pounds solid; the beef animal about 3 pounds, and the sheep about 2.12. There is a fore, we see the dairy cow has a long lead on the rest. Another experiment shows that only about eight per cent of the food of the dairy cow can be used as human food, still the food she provides from these course feeders is the most refined and essential to human welfare. Hence we have the reason why the dairy cow holds the important place in our agriculture and why no other animal replaces her.

Not long ago in talking to one of our most up to date dairymen, he says something like this: "Talking about the high prices of feeds I will say that I never saw the time yet when feed prices were so high that a good cow would not pay a profit on the food consumed provided she was fed to her full capacity," he also said "that by never saw feed so cheap that it paid to keep a poor cow."

This gentleman has the nail on the head. The true line of measure is between the cow and the food, and it seems hard to bring the average dairymen up to the proper standard and knowledge. Know your cows, use the scales, the tester and feed to the full capacity then weed until you get more milk and profit from one half the herd than you now get from them all; keep pushing forward and be not weary in well doing.

If you would become popular with indolent people all you have to do is let them impose on you.

Rotary Club

Rotarian W. M. Rowe presided at the weekly meeting of the Rotary Club in the Hotel Davies yesterday afternoon. Among the guests present were Rotarian Fraser, Halifax, Rotarian Norton, Moncton; Rev. Mr. Littlejohns, York; Mr. Ives, Montague and Mr. Matheson, O'Leary.

Mr. Littlejohns contributed two violin solos which were greatly appreciated. Rotarian J. O. Hyndman gave a two-minute talk on Rotary in business.

The speaker for the day was Rotarian Dr. W. J. P. MacMillan, who gave a most interesting and instructive review of the history of Surgery from the dawn of history to the present day. The Dr. referred to the rough and ready methods in use in the early days for the purpose of stopping hemorrhages and such like, and traced the development of surgery from the old monkish surgery through the barbers to the barbers-surgeons and from the barbers-surgeons to the surgeons and physicians then to the surgeons and again to the present day. He mentioned outstanding names in the development of surgery and the red letter events in its history, such as the first introduction of Chemistry and Physics; the invention of the microscope; the study of physiology and anatomy; the introduction of anaesthetics through the discovery of Dr. Simpson; the theory of the circulation of the blood; Pasteur germ theory; Lister's antiseptic surgery; and the present septic surgery; nursing and Florence Nightingale. He vividly referred to the tremendous assistance X-Rays have proved to the surgeon, and concluded by referring to the practical safety with which operations are carried out today compared with those of fifty years ago.

At the close of a vote of thanks was given to Mr. Littlejohns and Dr. MacMillan for the contributions to the program. After Rotarian Norton, Moncton, had expressed his club's appreciation of the services rendered them by the Charlottetown Club, the proceedings closed with the National Anthem.

MARRIED FOURTEEN TIMES IN THREE YEARS

Married fourteen times in three years, a deserter from both the army and navy, and now serving a term on the naval prison at Portsmouth, N. H., comprises the alleged war record of Harold Hammond 20 years of age. This was revealed in annulment proceedings brought by the first and second wives. The court was told that Hammond enlisted in the army in the fall of 1917, and shortly afterwards deserted from Fort Ethan Allen, Vt., and came to New York where he was married. The following day he was arrested and sent back to his command. Then he deserted the army and enlisted in the navy under an assumed name. Once in the navy, he lived up to the precepts of sailor and had a sweetheart in every port, a good many of them he subsequently wedded. Hammond's attorney said he "married girls all the way from Maine to Virginia," and he declared "married twice on the same day."

FORMER MILLIONAIRE FOUND DEAD IN HOME

Emil Rothschild, former millionaire grain dealer and president of the Rothschild Grain Company, was found dead from asphyxiation in his home. Gas was pouring from the burners of a stove. Mr. Rothschild had been suffering from a nervous breakdown following severe financial reverses. He is said to have lost heavily during the past eight months in grain speculations. He left several notes, but their contents were not made public.

THE DIFFERENCE

"I made up my mind our boy Josh should have a fine education," remarked Farmer Cornstossel. "And now he shows his superior knowledge." "No, Josh doesn't know much more than I do. The only difference is that he uses longer words."

NO TRUTH IN STORY

Henry Drayton, Finance Minister in the House of Commons stated that the information furnished by a New York bank to its Canadian correspondents that the Canadian Government would shortly increase its customs duties by placing an additional thirty per cent on all imports was the first he had heard of the matter. The question of a thirty per cent increase had never been considered, the Minister said.

CANADA TO PAY OFF

The Canadian Government will pay off \$25,000,000 bonds that mature on April 1, it was officially stated. Canada has rather large balances at the present time, but paying off of this maturity will involve shipment of a certain amount of Canadian gold to New York. It is estimated that about \$10,000,000 in gold will be sent.

POULTRY HINTS

The hopper of dry mash is a factor in keeping hens healthy during the winter. A properly balanced mash is best, but a hopper of bran alone is better than no mash. It helps every hen to have a chance at some feed during every hour to the day. And we find that hens or pullets that are too lazy or timid to get their share of the mash are not apt to amount anything and need culling out.

When a man gets beat at any kind of game he says that he is out of practice. The handwork of nature must be unsatisfactory to most women judging from the amount of coin they spend for cosmetics.

Grand Orange Session in Charlottetown

The reports of the Manager and Treasurer of the Protestant Orphanage submitted at the meeting of the Grand Orange Lodge on Wednesday showed this institution to be well managed and financially successful. During the year 114 acres have been added to the farm making a total of 248 acres. It is proposed to put on a drive for funds for the erection of a new building. Pledge cards and other literature is being prepared. Tenders will be called for the erection of the building very shortly.

The election of officers resulted as follows:
R. W. G. M.—Rev. Dr. W. H. MacEwen.
R. W. D. G. M.—L. B. Miller.
R. W. J. D. C. M.—J. Y. Phillips.
R. W. G. Secy.—N. D. MacLean.
R. W. G. Chap.—Rev. J. C. Martin.

R. W. G. Treas.—J. J. MacLeod.
R. W. D. of C.—A. E. Dollar.
R. W. G. Lecturer—M. Furness.
R. W. G. Auditors—D. P. Murdoch and C. E. MacKenzie.
R. W. Dept. G. Secy.—N. C. Stewart.

R. W. Dept. G. Chaps.—Revs. F. W. Sawdon, Geo. C. Taylor and D. MacVicar.
The officers were installed by Past Grand Master Murdoch MacLeod, who has the enviable record of having performed this ceremony every year for the past forty-nine years.

The Grand Master in his report referred to the Tremblay case as an event of interest and value to Protestantism. The Orange Association had made victory possible. The Treasurer's statement showed that the Orphanage farm had produced over four thousand dollars worth of produce.

A report of the Ladies Orange Lodge was read showing the good work they had done during the year.

GRAND ORGANIZER'S REPORT

In the Grand Organizer's Report, the Rev. Edward Morris stated that the Orange Association was doing a greater religious and patriotic service to Canada and the Empire today, than ever before. He reported that the Order was demanding the interest and sympathy of our best citizens because of the great national service it was doing in checking disloyalty and striving for the liberties of all classes. He stated that a better class of membership is entering the Order, and a great elimination of undesirable has taken place. The Order today is a credit to every liberty loving British citizen. Mr. Morris reported that he had held during the last six months, from September 1st, 1920, to March 1st, 1921, 114 public meetings, 105 Lodge meetings, had given 216 addresses and travelled 5,915 miles, besides carrying on an extensive newspaper correspondence, and had written 480 letters. He reported better lodges and better work in the lodge rooms, and stated that the forward movement had justified itself by its results.

Cuts showing the plan of the proposed new orphanage were shown, also pledge cards, etc.

It is hoped to put on the drive for funds for the erection of this building the latter part of this month. The objective of the drive will be about one hundred thousand dollars. It was decided to hold the 12th, of July celebration in Charlottetown this year.

RE-CREATE SOLDIER BOARD

It is understood that a resolution recreating the parliamentary committee on soldiers civil re-establishment will be introduced in the House of Commons Tuesday or Wednesday.

HOCKEY

The second game of hockey between the Daddas of Borden and the Clydes of Cape Traverse played in the Carleton Park was evenly contested. Both teams were evenly matched and afforded considerable amusement for a large number of spectators from the surrounding country. The line up was the same as given in the account of the first match with the exception of W. W. Lord who was substituted by Harry Crossman. Wilfred Higgins of Borden acted as referee while Norman Campbell of Cape Traverse was judge of play. The game started at 8 p. m. Borden shot the first goal two minutes play but before the end of the period Cape Traverse evened the score making 1-1. In the second period both teams rushed matters, but the score remained the same. The third period started with determination on both sides to make the winning goal and after strenuous efforts the Daddas scored a goal which was protested by the Clydes as an off side play. After considerable discussion the Borden team agreed to disallow the goal and play overtime to decide the game but the Cape Traverse team refused to play, much to the disappointment of the enthused hockey fans who would have liked to see a play-off finish. "Come again Daddas and Clydes."

You need not endure the pains of Rheumatism Neuralgia, Neuritis Sciatica, Lumbago

ALOYSIUS MURPHY
Seldom does the shadow of death cast such a gloom over a home as a locality as when on February 28th it entered the home of Mr. Peter Murphy, Morell, and claimed as its victim his fourth son Aloysius at the early age of 22 years and 8 months. The deceased who was a splendid specimen of manhood enjoyed the best of health until one week before his death when he was seized by an attack of pleuro-pneumonia and despite the best of medical care and kind nursing his young life was ended after a brief illness of eight days. He was attended during the last days of his illness by his pastor Rev. Joseph Rooney and strengthened by the last rites of the Catholic Church and resigned to the will of God his soul went forth to meet its maker. He leaves to mourn his irreparable loss an invalid mother, a sorrowing father, four brothers and four sisters, Temple of French Village, P. E. I., Charles of Portland, Maine, E. S. A., Tebbert, Harold, Violet, Melinda, Marie and Anna at home. Ish, as he was usually called, will be greatly missed by the Morell Hockey team, of which he was captain and star player for the past three or four years. He was a fast, respectable player and was a great respect to all. Tokens of his popularity were visible at his funeral in the form of beautiful wreaths by Morell Hockey Club, and St. Peter's Bay Sporting Club, a beautiful cross donated by Mr. and Mrs. W. W. Cox, floral contributions by Mrs. H. H. Cox and Mrs. B. W. McEwen as well as numerous Mass cards and spiritual bouquets by a host of friends and relatives. Notwithstanding the almost impassable condition of the roads, his funeral which was held on Thursday, March 3rd was largely attended. The funeral mass was sung by the Parish Priest, Rev. Joseph Rooney who also conducted the services at the grave. The pall-bearers were Messrs Eugene Rossiter, Victor Sanderson, Ralph McGuire, Claude McEwen, Bert McGrath and Layton Coffin. By his death the home has lost a loving, cheerful and obedient son and brother and the community an honest, upright and industrious citizen. R. I. P.

AT MARSHFIELD HALL

Another enjoyable evening was spent in Marshfield Hall on Saturday, the 6th inst. when the men and women of Marshfield, and vicinity gathered for a debate on "Women Suffrage." The Rural Entertainers in singing and reading and along with the debate made things move quite lively. On a vote being taken, it was seen that the men realize the side on which their ing Club gave some good selections.

Refreshments were served, and the singing of the National Anthem brought the institute meeting to a close. On Saturday the 12th inst. at 7.30 we shall have some able speakers on Farmers Organization. Everyone come, not excepting the ladies.
