SIR ROBERT BORDEN LEAVES FOR CANADA

Important Political Developments Expected on His Arrival.

(From our own Correspondent.)
OTTAWA, Aug. 27.—Sir Robert Borden sailed from Liverpool on Wednesday and is returning by way of New York. While no advice has been received, from the date of his sailing it is presumed that he is returning by the White Star liner, Adriatic, the ship upon which he crossed over. He should therefore be back in Ottawa Friday or Saturday.

(From our own Correspondent.)
Premier Borden and Sir Sam Hughes are expected to be back in Ottawa by the end of next week. No reception to the Prime Minister is being planned by the Government in accordance, it is understood, with Sir Robert's own wish. It is expected, however, that local Conservatives will provide some sort of celebration in honor of the Premier's return both here and in Montreal. No information is available here as to the nature of the proposals which will be made in regard to the raising of troops and the output of munitions as a result of Sir Robert's visit to England. The Premier has already conferred with officials of the War Office and the Munitions Minister. On his return to Ottawa he will have a further conference with Mr. D. A. Thomas, the British representative who has been studying the munitions question in Canada.

Most interest in political circles here centres in the probability of important political developments following Sir Robert's return. The chances seem, however, to be against the taking of any very sensational step in view of the weight of business still to be transacted in connection with the war. The general desire in this country is to avoid disturbing existing conditions and the practical certanty that a prolongaton of the Parliament will be agreed to. Public sentiment is known to favor an extension and a majority of Liberal members are said to support the proposals. This course, if followed, will confirm the wishes of men in both parties.

An effort to organize some sort of Liberal caucus to be held in Montreal yesterday with Sir Wilfrid Laurier, came to grief. Sir Wilfrid, it was announced, was ill with sciatica, but he was well and at his office in the Parliament Buildings to-day.

QUIET PREVAILS ON OTTOMAN BATTLE FRONTS.

LONDON, Aug. 26.—A Turkish official communication issued to-day says there was nothing fresh to report on the various Ottoman fronts, according to a despach to the Central News Agency from Constantinople, by way of Amsterdam.

COLONIAL OFFICERS SUFFER HEAVILY AT DARDANELLES

LONDON, Aug. 27.—The severity of the recent fighting on the Gallipoli peninsula is shown by the fact that in the past eight days there have been nearly 800 casualties among the officers of the British forces, the Australians and New Zealanders bearing the brunt of the losses.

The casualty list issued yesterday contained the names of 122 officers and 1,350 men.

UNCLE SAM HAS BROUGHT THE HUN DOWN.

WASHINGTON, Aug. 26.—Two important developments to-day in the relations between the United States and Germany further reduced the intensity of the situation and were taken to foreshadow a declaration from Berlin on the subject of submarine warfare which would eliminate that source of discord between the two countries.

Count Von Bernstorff, the German Ambassador, called upon Secretary Lansing and informed him that the statement presented Tuesday by direction of the Berlin Foreign Office, saying there was no intent to cause loss of American lives when the White Star liner Arabic was destroyed, was intended to imply that German submarine commanders had been ordered to attack no more merchantmen without warning.

Ambassador Gerard, reporting from Berlin, the substance of a conference with Foreign Minister Von Jagow, confirmed the Associated Press despatches of earlier in the day that Germany, even before the sinking of the Arabic, had adopted a policy designed to settle completely whole submarine problem. The State Department did not make public Ambassador Gerard's despatch, but the optimism immediately reflected at the State Department and the White House was taken as convincing proof that the situation, once threatening a break in the friendly relations between the two countries, was on the way to a settlement.

One fact was outstanding in the whole situation. It was that a further communication is coming from Germany outlining a policy, which it is said, is expected to be satisfactory to the United States. It is understood that Germany will announce a suspension of her submarine warfare on passenger-carrying ships, and that German submarine commanders will be instructed not to sink any merchantmen without warning, pending a diplomatic discussion of appeal for a modus vivendi for relaxations of the British blockade against neutral commerce.

LOOKING UP GREEK RESERVISTS IN CANADA.

OTTAWA, August 26.—Two officers of the Greek regular army, Captain Ropis Costoveos and Captain Christ Hungis, both of Athens, are in the capital preparing the three hundred Greek reservists here for a call to the colors. According to the officers, feeling against Germany runs high throughout their country and isolated skirmishes are even now taking place with Turkish troops, so hard is it to restrain the Grecian soldiers. The officers say that whenever they have visited they have found the Greeks ready and more than willing to respond to a call to fight against the Teutonic Allies and Turkey.

LINER BALTIC ARRIVES IN ENGLAND

(Special to the Guardian.)
NEW YORK, Aug. 27.—The liner Baltic arrived in Liverpool at 4 p.m. to-day, according to a message received here by the White Star Line. The Baltic sailed from New York on Aug. 18, carrying a 16,000 ton cargo.

NEW ZEALAND TAXES ENEMY IMPORTATIONS

(Special to the Guardian.)
WELLINGTON, New Zealand, Aug. 27.—A super tax of fifty per cent. on all importations from countries hostile to Britain was announced to-day by the Minister of Finance, Sir Joseph Ward, when introducing the Budget in parliament. A number of tariff schedules are to be raised. Autos and chaises are to pay ten per cent. ad valorem, kerosene and petrol eight cents per gallon.

FIGHTING ON WESTERN FRONT

(Special to the Guardian.)
PARIS, Aug. 27.—Official—On a great many points at the front our artillery concentrated on the German positions a very efficatious fire. To north of Arras German trenches have been upset and a munition depot destroyed. Between the Somme and the Oise, German encampments have been shelled. The enemy fired at long range shells on the city of Compigne, causing some damage, killing a nurse and seriously wounding another nurse. Germans violently shelled the village of Blenod, and the city of Thann Vieuz Thann. In the region of Mertzvillier our shells started many fires.

DRIED HEADS OF PERUVIAN INCAS.

NEW YORK, Aug., 25.— When the Vasari of the Lamport & Holt Line from South America docked in New York some one spread the report that there were two travelers on board who had brought to this country the heads of two Peruvian bandits. They had been travelling on the west coast of Peru, it was said, and had been attacked by a band of robbers. After successfully defending themselves two of the bandits were killed. The travelers cut off their heads and brought them home for souvenirs.

A half dozen reporters began a hurried search through the ship for the two mysterious individuals and their investigations finally narrowed down to Dr. S. A. Davis, the ships surgeon. He admitted that he had three such heads and produced them in evidence. They were the dried heads of Incas, probably 500 years old. Dr. Davis said, and were seized as trophies by their enemies. The heads because of the tanning process to which they had been subjected, were sunk to the size of a man's closed fist, but were perfectly preserved with locks of black hair a foot long on them.

Dr. Davis explained that he had owned the heads for seven or eight years, and had acquired them when serving as surgeon for a Peruvian railroad. He had left them in Peru until the present trip, when a friend sent them to him at Buenos Ayres. He values them at $500 each.

GERMANS NO LONGER SEEK CALAIS, PARIS.

BERNE, Aug. 24.— A neutral diplomatist friendly to the Allies, who has just returned from Germany, where he had got opportunities coming in touch with different classes of people, thinks that the German armies are not likely to attempt to go beyond Dvinsk on the Dvina, or the Baranowyeh Junction on the Brest-Litovsk line.

After occupying Riga, they are, he thinks, likely to entrench themselves send to the Serbian frontier as many of their troops as t hey can spare, and attempt to march through Serbia and Bulgaria to Turkey and thence to Constantinople. All the available Austrian troops are to be released to attack the Italians in Trentino.

As for the western front, he is of the opinion that t he Germans will not waste any number of men in endeavoring to continue the famous "vormarschnach Calais" and still less, the equally famous "vormarsch Nach Paris."

Germany's goal is now not Paris or Calais, but Mesopotamin. What chiefly troubles the Germans at present is the possibility of Great Britain's introducing compulsory military service, for if the war should last another year, then they fear that with this innoation they might be obliged to meet a formidable army next spring and summer.

FIFTY-EIGHT WORKMEN ACCIDENTALLY KILLED IN CANADA LAST MONTH.

OTTAWA, Aug. 25.—During July 58 workmen were accidentally killed in Canada and 254 others were injured.

These fatalites included 9 in mines, 7 in agriculture, 5 on steam railways, 5 in metal trades. The injured included 63 on steam railways, 45 in metal trades, 30 in mines, 20 in navigation.

ENTIRE CONFIDENCE IN THE FUTURE

Joint Telegram from Pres. Poincare and Joffre to Grand Duke Nicholas.

Confidence in Future Expressed by French Ministers Reciprocated by Russian General.

(Special to the Guardian.)
PARIS, Aug. 27.—A joint telegram expressing entire confidence in the future, has been sent to Grand Duke Nicholas, Commander-in-Chief of the Russians, by President Poincare, Minister of War, and General Joffre, French Commander-in-Chief. The text of the message follows:—

"Our thoughts turn toward your troops who at the present moment merit the confidence of the whole world by reason of the struggle they are making. With complete confidence in the final victory of your armies, we beg you to accept our respectful homage and fervent good wishes together with the assurance that, more than ever before, our armies are happy and proud to cooperate with your highness and your valiant soldiers."

The Grand Duke replied:—

"The sentiments you express towards the Russian army are reciprocated. The close relations and common accord existing between the commanders of all the Allied armies is a certain omen of a glorious end, in which, with God's aid, we will participate."

SUMMARY OF WAR SITUATION

(Special to the Guardian.)
LONDON, Aug. 27.—The Germans, in full possession of the entire Brest-Litovsk line, have resumed the offensive in the Baltic provinces and are pressing the Russians both in the districts south-east of Mitau and east of Kovno, in an effort to reach the main line of railway which passes through Vilna and Dvinsk to Petrograd. This may in time prove most important of German operations, although at present they are using more troops in pursuit of the Russians, who are retiring from Brest-Litovsk and the line on either side of the fortress. It is expected, however, that with the fall of Brest-Litovsk, which has been followed by that of Olita, south of Kovno, the armies of Field Marshal Von Hindenburg will be reinforced and make another effort to cut off the retreat of the Russians. It is believed here, however, that it is now too late to accomplish this purpose. The Russians apparently had evacuated both Brest-Litovsk and Olita before the Germans arrived, as the latter make no claim to capture. An Austrian official report states that Archduke Joseph Ferdinand found the town of Kamieniez, Litovsk, in flames when he arrived. There were indications, therefore, that the Russians still are carrying to the rear everything moveable that might prove of use to the invaders and burning what they are unable to take with them. Intimation that the Russians have fortified another front pending an opportunity for a renewed offensive, has received some confirmation. It is stated that the new line is being strengthened, the Allies methods being known to the military engineers. The Russian armies are still intact with virtually their guns and prospects of more plentiful supplies of ammunition. For this reason military writers are of the opinion that Grand Duke Nicholas now should be able to make a stand as the Austro-German losses must have been very heavy, especially during the three weeks which intervened between the fall of Warsaw and the occupation of Brest-Litovsk.

The capture of several German trenches in the Vosges is reported by Paris this evening, but what is considered more significant is the continued activity of the air squadron, which has been bombarding German positions in France as well as munition factories across the German border. There has been nothing further from the Dardanelles or Balkans, but it is now certain that Serbia is pressed to make necessary sacrifices to satisfy Bulgaria and gain her co-operation in behalf of the Allies. It may be several days, however, before the Serbian reply to representations of the Entente Powers is received. A vote of the Serbian parliament was only upon the principle involved, and negotiations are now proceeding between Serbia, Greece and Roumania regarding the exact nature of the concessions to be made to Bulgaria.

10,000 MINERS STRIKE IN WELSH COAL FIELDS

(Special to the Guardian.)
LONDON, Aug. 27.—Nearly 10,000 miners struck to-day in the South Wales coal fields, according to a despatch from Newport, Wales, to the Exchange Telegraph Company.

TO REINFORCE PRINCESS PATS

MONTREAL, Aug. 26.—Ten thousand people gathered on McGill University campus this evening when His Royal Highness the Duke of Connaught reviewed and addressed the 333 men who comprise No. 3 Company, McGill University Battalion, going to the front to reinforce the sadly decimated numbers of the Princess Pats Regiment. Eight hundred members of the McGill Auxiliary Battalion Training Corps turned out with No. 3 Company.

ATTEMPT TO WRECK BIG DRYDOCK

NEW YORK, Aug. 27.—A despatch from Philadelphia says:—

"As the cruiser Tennessee was weighing anchor yesterday to take the artillery battalion of the marine corps to Hayti it became known that three sticks of dynamite had been found in the League Island navy yards big drydocks in which the auxiliary cruiser Prairie is now being overhauled.

At the commandant's office no information could be obtained but bluejackets marine and workmen told of what apparently was an attempt to wreck the huge drydock. Had the dynamite exploded both docks and the Prairie would have suffered serious damage.

Extra precautions had been taken to guard the yard and bluejackets with revolvers tucked in holsters at their belts, instead of the customary rifle kept all visitors from the docks. The guards kept a close watch on all visitors.

TIME TO STOP MURDEROUS WAR

BERLIN, August 26, via London August 27. —The Reichstag today indulged in a military debate for the first time during the war. Only one member, Daniel Stuecklen, voiced any criticisms of the Government, and these were of minor character and carried no complaints and expressed no desire regarding the conduct of the war.

On the contrary, Herr Steucklen paid a tribute to the strategic genius of the leaders and the bravery of the troops. He suggested that furloughs, with free transportation, be granted oftener to the soldiers, and that the ration allowances for convalescent soldiers be increased. The speaker said that the barrack language occasionally used by non-commissioned instructors was humiliating to the older men who had been called to the colors. He said, however, that he must admit that the Ministry of War had worked with energy to remedy this.

"May the day soon come," Herr Stuecklen said, in concluding, "when this murderous war will cease."

"While the Parliaments of hostile states are continually and severely attacking their army administrations, we have no cause to critcize ours. The entire people appreciate the strategy of Von Hinderburg, von Mackensen and von Linsingen who, supported by the devoted sacrifice of our troops, succeeded in liberating Germany from Russian invasion. In the hour of danger we proved that we would not leave the Fatherland in the lurch. The deeds of the troops under von Linsingen in the Carpathians are unparalleled in the war history of all time."

GERMAN COULDN'T STAND THE STRAIN.

NEW YORK, August 25.— Christopher Brenner, a native of Germany, watchman of the plant of the National Conduit & Cable Company at Hastings, where munitions of war are being made for the allies, committed suicide yesterday morning by jumping off the pier into the Hudson river. He was the successor as night watchman of Gustav Groch, also a German, who committed suicide last Monday by shooting himself.

Workmen at the plant say that both watchmen brooded over the shipping from the plant of instruments of war with which the allies hope to kill their brothers across the ocean.

THE FOREIGN POLICY OF GREECE NOT YET DISCUSSED IN PARLIAMENT.

LONDON, Aug. 26.—To-day's sitting of the Greek Parliament was devoted to the election of a vice-president and clerks, according to a despatch to Reuter's Telegram Company from Athens. There was no interpellations, the opposition and independents deciding that it would be inadvisable to press Premier Venizelos to make a statement regarding his foreign policy while negotiations of vital importance were in progress. Parliament adjourned until August 30.

HAS BULGARIA SIGNED TURKISH AGREEMENT?

Stated that Greece Purposes to Remain Neutral.

(Special to the Guardian.)
WASHINGTON, Aug. 27.—Unofficial advices from representatives of Balkan nations here say Bulgaria has signed an agreement with Turkey, which includes provisions that she will remain neutral, and that the attempt to form a Balkan League has failed. News of the formation of a new cabinet by Minister Venizelos reached the Greek Legation last night. It is said here that the demands of the Allies upon Greece are unsatisfactory, and the Hellenic Government announced its intention of remaining neutral for the present at least.

JAPAN PREPARES TO MANUFACTURE WAR MUNITIONS

(Special to the Guardian.)
TOKIO, Aug. 27.—The decision of the Government to utilise all available means for increasing the production of war munitions for the Allies, particularly Russia, has aroused the greatest enthusiasm. Army officers of high rank are arranging details with manufacturers preparatory to enlarging arsenals and factories. It is understood France and England have guaranteed payment of these supplies.

1,000,000 BUSHELS WHEAT IN STORE FOR NEW ZEALAND

(From our own correspondent)
OTTAWA, Aug. 27.—The million bushels of wheat purchased by the Trade and Commerce Department for the Government of New Zealand is practically all in store at Montreal, according to an announcement to-day. The New Zealand Government provides for the transportation of the grain from Montreal to the Antipodes. Fifty thousand bushels have been shipped already and another fifty thousand will be sent early next month.

HUNS SENDING MEN TO ALSACE.

BASLE, Switzerland, Aug. 26.—The German authorities are making preparations to send troops and supplies to fortifications in Alsace. Having recently completed a second railway line between Strassburg and Duddleheim, they have begun the construction of a double track road from Duddleheim to Monlsheim. Over this line it will be possible to move much more quickly than at present troops and supplies for the fortifications at Molsheim and Mutzig.

AN UNWORN CROWN.

The King of Bulgaria, who is claiming Macedonia as the price of joining the Allies, has a crown that he has never worn. In 1902 Prince Ferdinand though the time was ripe for proclaiming himself King, and ordered a diadem from Brussels. The "concert of Europe," however, thought his wish inexpedient, and the crown was relegated to a cupboard until 1908, when the long-desired elevation to kingship was granted. Once again disappointment. Austria practically prohibited the coronation Ferdinand had planned, and the crown has never yet adorned his brows in public.

THE WEATHER, TEMPERATURE, TIDE, MOON, ETC.

(Special to The Guardian)
TORONTO, August 28.—Maritime: Light to moderate winds; fine and warm.

THE WEATHER.—Yesterday was fine, warm and breezy.

The highest temperature recorded yesterday was 62 deg. above zero. At 9 o'clock yesterday morning it registered 56 deg. above; at 9 last night 49 deg. above. The coldest the previous night was 51 deg. above zero.

The tide will be high this afternoon at 1.01 and tomorrow at 1.45 and Monday at 2.28; it will be high tomorrow morning at 1.19, Monday at 1.41 and Tuesday at 2.08.

The sun sets this evening at 6.46, tomorrow at 6.44 and Monday at 6.42; it rises tomorrow morning at 5.16, Monday at 5.18 and Tuesday at 5.19.

The moon rises this evening at 8.02 and tomorrow at 8.24.

There was a new moon on Tuesday Aug. 24th at 5.40 p. m.

The last quarter of the moon will be on Wednesday, Sept. 1st at 10.57 a. m.

The length of today will be thirteen hours and thirty-three minutes and of tomorrow thirteen hours and twenty-eight minutes.

WAR LORDS MEET IN NORTHERN FRANCE

(Special to the Guardian.)
PARIS, Aug. 27.—Field Marshal Joffre, Lord Kitchener and General Foch, and several other army chiefs held an important military conference on Monday at Shantilly, close behind the lines in Northern France. Great significance is attached to the council.

MANITOBA GRAFTERS TO BE PUNISHED

(Special to the Guardian.)
WINNIPEG, Aug. 27.—There will be no delay, said Hon. A. B. Hudson, Attorney-General, when asked as he stepped from train to-day, how soon warrants would be issued for arrests in connection with the Parliament buildings contract. Hudson said he had not seen full the text of the Mathers Commission report. He intended to review this carefully before outlining his plans. He stated, however, that there would be no hedging. The guilty would be punished irrespective of person, rank or former power. The task, he said, would be somewhat unpleasant. It was not a pleasing duty to prosecute to the full extent of the law those who had once sat in high places, but although the ordeal was bitter it would be carried on to the end.

DROWNING ACCIDENT AT NORTH LAKE

A sad drowning accident occurred yesterday morning at North Lake when James Jarvis lost his life. About 6 o'clock in the morning the deceased, accompanied by Joseph O'Hanley, went out to bring in their boat, which was lying at anchor about twenty-five yards from the shore. There was a heavy sea on and one heavy wave struck the boat and turned it over, throwing both of the occupants into the water. They succeeded in righting the boat and getting on board. The boat was almost full of water, another sea struck her and turned her over the second time. O'Hanley succeeded in getting into the boat, but Jarvis was never afterwards seen alive. The unfortunate man's body was recovered about eleven o'clock. The deceased was 26 years of age and leaves to mourn his wife and one child, also his father and mother, the former being at present employed at Trenton, N.S., his mother at her home in Baltic. The sad occurrence has cast a gloom over the whole community, and the heartfelt sympaty of all goes out to the bereaved wife and child and to the parents.

WIFE AND CHILDREN KILLED BY TURKS; HE GOES TO FIGHT

LONDON, Ont., Aug. 26.—Gus Moswen an Armenian, was advised today that his wife and two small children had been killed recently by Turks. He at once resigned his position and enlisted, vowing vengeance.
