SINISTER POWER WORKS IN WEST ASSERTS CANON

Alien Spirit In Western Canada, Is Making For Disintegration, Canon Heenev Declares.

KINGSTON, Ont., Sept. 19.—A canon call to the Church of England in Canada, to put forth the utmost effort to meet the problems of the church in Western Canada was sounded at Saturday's session of the General Synod, by Rev. Canon D. Heenev, of Winnipeg.

The occasion was the presentation of a report of the National Laymen's Committee, by Archbishop Depencier, of New Westminster. The report of a national commission to make a survey of all the problems of the Church in the home and foreign fields in the light of the reports presented to the Synod.

"The hour of destiny has struck the Church of England in Canada," declared Canon Heenev. In the words of a Canadian poet he called upon the delegates to "awake, for the hour has greatly changed."

The opportunity for the church, in the west, is beyond all power of description," he continued. "I want to impress upon the Synod the absolute necessity of seizing it now."

He disagreed with the view that there was no alien spirit in the west. "I can show you influences that are most sinister, most silent and most potent, making for the disintegration of the British Empire," he said. Emphasizing the patriotic nature of the work, he declared that the strongest force of the maintenance of the British connection in Canada was the Church of England.

The Canadian church, he said,

should not wait for the English church to take every initiative. "There has never, in the history of the church, been anything like an adequate national call to the service of the church. Let us sound a canon call to the cities, our farm homes and our villages, to enlist in the church's mission."

Concluding, he called upon the members to pray for an outpouring of the Holy Spirit on the Canadian church. "We hold the golden threads of freedom and catholicity," he said. "Let us give thanks for that and pray that we may be able to give them to others."

An entertaining incident took place at the opening of yesterday's session with regard to the procedure of the Synod. Dean Liwyd, of Halifax, had just uttered a protest against the bishops coming, uninvited, into the Lower House for a joint session yesterday, had begun to present a report, when the purple clad bishops once more appeared on the scene.

"Who summoned the Bishops?" asked the Dean. "On two occasions the business of this House has been broken in upon by the Bishops without warning. How comes it to pass that things are done in this irregular manner?"

Bishop Richardson, of Fredericton, gently pointed out that the word "summon" was scarcely an appropriate one for the lower House to use to the upper.

The Primate then explained that the Bishops had been invited to come at 10.15, and had come at 10.17.

Western Indian To Hold Pow-wow

PENTICTON, B. C., Sept. 19.—Indian chiefs from tribes of the British Columbia interior and the adjacent state of Washington will meet here at the end of September in a pow-wow as they did before the days of the white man.

Not only the chiefs, but their squaws and hundreds of tribesmen and their women and children will attend the conclave. The Indians will pitch their tents in a huge circle around the recreation grounds outside the city. They will hold their conference and games in the inclosure and many of the Indian games which are now little more than a tradition, will be revived.

A friendly rivalry between the tribes of British Columbia and Washington in athletics is expected to develop as a result of the assembly, which, it is hoped, will be the first of a series of annual gatherings.

HUMBLER HATS WILL HIDE THEIR TAGS SO COSTLIER CREATIONS GET A CHANCE

TORONTO, Sept. 19.—The flowers bloom in the "hat trade," are not going to appeal so greatly to mally from the millinery store windows if the retailers can be convinced by the new Canadian Millinery Guild that price tags under \$3.95 are to be taboo. From March 15 to June 15 and from August 15 to November 15, will be the "better hat" seasons, with the "spit-bit" chapeaus probably present among their betters, but minus tags.

The move is to effect a psychological boost in the prices of feminine sky-pieces, although the old prices will be retained. As explained by one manufacturer, the constant repetition from shop windows of one, two and three dollars, with fractions attached, suggests to the milliner a windowshopper, that this price is enough for a hat.

To offset this impression, the Canadian Millinery Guild, comprising ladies' hat manufacturers, have established a membership condition of trading and dealing with persons under no goods are sold to persons who do not exhibit in their windows during the two periods price tickets marking, advertising or offering for sale any hat for a price of less than three dollars and ninety-five cents.

Poincare Presides At Dinner To American Legion

(Special to The Guardian)
PARIS, Sept. 19.—"I rise to say to you, the American army of peace, declared Marshal Foch, striking the keynote of the public dinner tonight which the French government welcomed the American Legion.

The French hero was answering national commander Howard Savage's speech that "the American Legion has returned to its birth place," and to General Pershing's "the soul of the A. E. F. is in the American Legion."

Both Americans laid insistent emphasis on the claim that the legion is a body devoted to peace at home and abroad. Premier Poincare, who presided devoted almost all his address of welcome to a recital of the history of America's entrance into the war. The effect was to emphasize President Wilson's efforts for peace and to help Europe back to peace without bringing America in.

The Premier ended on Mr. Wilson's last word to him as he left France in June, 1919. "The destruction caused by this war was enormous, but it has waked the world to the great moral necessity of bringing about union among men so it can never happen again." "Let us," said M. Poincare, "work together with a single heart for this unity."

Hitch-Hiking Trail Condemned

TORONTO, Ont., Sept. 19.—It is often a very mistaken kindness to give that wandering boy or girl a lift in your car when you meet him, or her, along the highway, according to a recent bulletin issued from the national headquarters of the American Automobile Association. The American Motorist, which is the official publication of the A. A. A., has just completed a survey which shows that more than 70 per cent. of the youthful and down-and-outers, who become a burden on charitable organizations in large cities, have arrived at destitution via the "hitch-hiking" trail. Nine times out of ten, according to the American Motorist, these boys and girls have simply succumbed to the age-old wanderlust, have left home without preparation or equipment and without a definite idea as to destination or as to what they want to do to support themselves.

Birth and Death Rate Lowered

LONDON, Sept. 19.—Although there were more births in England and Wales in the second quarter of this year than in the preceding three months, the figure was several thousands less than the corresponding quarter of 1926. In the quarterly return of births and deaths, issued as a White Paper, these and many other interesting facts are given.

For instance, the birth-rate for the quarter was the lowest recorded in any second quarter except that of 1919, the general death-rate was the lowest recorded in any second quarter; and there were over 3,000 more marriages in the first quarter of the year than in the first quarter of last year.

Influenza was stated to be either a primary or contributory cause of deaths in 1,795 cases or 1.67 per cent of the total deaths.

Bible Only True Prophecy

TORONTO, Ont., Sept. 19.—"This is the only book ever published containing prophecy that 'turned out to be true,' declared Rev. George McGinnis, LL. B., President of the American Anglo-Saxon movement in the United States, in an address on "The Supremacy of the Bible" at the session of the Toronto Branch of the British Israel World Federation Congress here.

Describing the Bible as the book of all humanity, he enlarged upon the spiritual, literary, scientific, historical and poetical value, and also emphasized the "business maxims" contained in the Book of Proverbs and the fact that the common law of England and the United States was based on the Ten Commandments. Mr. McGinnis affirmed his belief that the Anglo-Saxon races were the descendants of the lost 10 tribes of Israel. The resurrection of Christ and the fulfillment of prophecy differentiated the Bible from any other book, he asserted.

Rev. W. Pascoe Goard F. R. G. S., London, England, gave a comprehensive exposition of many books of the Old and New Testaments and demonstrated that events and happenings therein recorded coincided with the great indisputable facts of world history.
