

WHAT'S IN A NAME.

That resourceful citizen who stopped a New York Central express at his obscure way station by remarking, "I'm Vanderbilt," seems to have answered the query as to what's in a name.

THE MOST EXPENSIVE INSTRUMENT

The most expensive thermometer in use at the Johns Hopkins University at Baltimore, and is known as Professor Rowland's thermometer, and is valued at \$50,000.

The Women's Missionary Aid Society of the Baptist Churches of the Province will convene at Marshfield to-morrow afternoon.

The S. S. Coban, arrived in port on Saturday night with a cargo of Sydney Reserve run of mine coal for Peake Bros. & Co.

Mr. E. MacDUGALL sells to-day (Monday) at 11 o'clock in front of his Sales Room, on Great George St., 50 bbls. choice apples.

The sch. Malabar, loaded with potatoes and other products by Carvell Bros., sailed Saturday for Demerara. Mr. Wesley Snow went as mate.

The Baptist Conference of P. E. Island meets to-day with the Baptist Church at Marshfield. The sessions will be continued to-morrow afternoon and evening.

Boys' Brigade, No. 3 Co. (St. Paul's Church).—The entertainment in St. Paul's School Rooms, on Tuesday evening, the 11th inst., will be first-class in every particular. Give the boys a good house. See programme.

FIRST of the Season.—Mr. John McEachern, agent for the Royal Insurance Company, has sent THE GUARDIAN an excellent calendar, on which are four lions representing Great Britain, Canada, Australia, South Africa. The background is tinted and represents the flag of the Empire.

The remains of Mr. Patrick McCarey were brought to Charlottetown from Halifax for interment Saturday morning. The funeral was held in the afternoon at half-past two. The pall-bearers were William Batt, John Caven, Theo. Moore, Alexander McDonald, Donald Nicholson and William Murray. The services in St. Dunstan's Cathedral and at the grave were conducted by Rev. Dr. Morrison. Among the floral offerings was a handsome wreath from the officials of the Charlottetown post office.

WITH the addition of modern machinery to their mine this winter, the Nova Scotia Steel Co. will endeavor next season to raise at the lowest 300,000 tons of coal, which will be the largest output in the history of Sydney Mines. The output this year would probably have reached the 300,000 mark if the Company could have secured all the labor they desired. They want at least two hundred more men to work in the pits this winter. Some of the coal cutters at present working seven hours per day at Sydney Mines net \$120 per month, and an ordinary coal cutter can easily make from \$50 to \$75 per month all the year round.

A MONTREAL despatch Dec. 6th says:—Mr. S. H. Jones, Vice President of the East Richelieu Valley Railway and Mayor of Sabrevois is in the City and announces that for the last two weeks he has been in Prince Edward Island buying all the live products he could see for the Boston market. Mr. Jones is the Canadian representative of an important New England commercial institution, which does a large business in farm products with the Eastern Townships, and he was deputed to exploit the Island. While there he bought and shipped to Boston 12,000 lambs, 7,000 live geese besides large quantities of turkey and fowl. "I paid for these by cheque through the Summerside Bank and the total amount of it was \$40,000."

AROUSÉ AT LAST
To the terrible ravages of consumption in Ontario, the Government is petitioned to establish hospitals for consumptives. As a preventative to consumption there is no treatment to be compared to Dr. Chase's Syrup of Linseed and Turpentine which promptly and effectually cures every cough and cold. It has by far the largest sale of any remedy for throat and lung troubles 25 cents a bottle. Family size 60 cents. All dealers.

Mr. John Wheatley returned Saturday from a trip to Halifax.

The death of Mr. John King, has removed another of Charlottetown's most respected citizens. The death took place on Saturday morning after a long illness.

Mr. G. O. Black of this town has informed us that he has taken the contract to supply one and a half million feet of hemlock, lumber for the large government bridge, which will soon be constructed over the Hillsboro River, P. E. Island.—Oxford Journal.

THE constant turning of the calendar's pages has ushered the Christmas World into the borderland of Christmastide and perhaps none are more persistent reminders of the fact than the little ones in the homes. The excellent sleighing in the city on Saturday had a tendency to prevent at least one feature of the approaching season. Within the next fortnight the store windows will be clothed in the latest features of fairyland and on the streets will gather those imbued with the Xmas spirit, their number increased as the days of the future take rank. The tread of the masses along the business centres remind the onlooker that but a few days must elapse before the last Christmas tide of the present century has passed into history. While many of the more sober look on, the children will be much in evidence. With faces glued to the transparent barriers of plate glass, they feast eyes and imagination on sights within, that rival the creations of the fairy's enchanted wand. Our merchants do not consider the eagerness of the populace with any degree of annoyance and as the blockade will increase, an embryo smile of pleasurable anticipation will be plainly visible as it overcomes the weariness and overwork which attends increased trade. Preparation for the Christmas trade has occupied Messrs. Jas. Paton & Co's minds for months past and decorators have been at work for some time tastefully arranging and placing just where experience has directed. Buyers have also been busily engaged for the past week supplying the Christmas needs of Santa Claus' young constituents and their older relatives. Those who are in the habit of visiting Messrs. Paton & Co's Store during the Christmas season will remember the dolls, how they could bow, waltz, open eyes, talk and even grimly smile, do everything in fact but grow naughty and refuse to reform. Readers are asked to look over the display on Thursday next—opening day—and be impressed with the faculty displayed by the firm, remembering the display is made to satisfy the juvenile yearnings. Parents should call and avoid the disgruntled wail of the child who knows that only 15 days more and Christmas morn will dawn.

THE GUARDIAN has received the following resolution of condolence published in the Rossland Miner of a recent date.

Rossland, B. C., Nov. 19, 1900.
To the Carpenters and Joiners' Union:
Whereas, Almighty God, the creator and sustainer of the universe, on November 14, 1900, between the hours of 8 and 9 in the morning, has seen fit to enter the earth at a depth of 800 feet and take from its bowels our beloved brother, Norman T. McDonald, while we bow in submission to the will of the Almighty, we nevertheless feel that he could not have taken from our ranks a more fearless energetic, untiring, determined worker in the promotion of our organization, its eternal principle of which is to unite for the common good of all mankind. Being young in years, having not even reached the prime of life and being the very emblem of health and strength makes the loss more severely felt. He being like the flower of the field blooming and bright today while on tomorrow he had fallen crushed and withered, into the bosom of our Mother Earth.

Whereas, While we feel the loss irreparable, we know that the mother, sisters and brothers who survive him must feel the loss more keenly. Be it therefore.

Resolved, That we extend our heartfelt sympathy to the bereaved mother and relatives, and trust that God in His wisdom in taking to Himself a beloved son and brother, will give them strength to bear their loss with fortitude. Be it further.

Resolved, That a copy of these resolutions be spread upon the minutes of our union, a copy forwarded to the press for publication and that a copy be forwarded to the bereaved relatives.

W. H. CREMTZ,
W. H. WOOLEY,
JOHN M'LAREN
Committee.

It will be remembered that the deceased came to his death in the Le Roy mines, Rossland, B. C. He was a carpenter and a member of the Carpenters' and Joiners' Union, was 25 years of age and was unmarried. He went to Rossland from Montana some 13 months ago and worked for Mr. Lawn, the contractor, on Hon. T. Maynes Daly's residence. He afterwards returned to Montana and only returned to Rossland about a month and a half previous to his death and was a well-known figure about the labor committee rooms. He was a son of the late Donald H. McDonald, Kinross, P. E. I., and left his Island home four and a half years ago. He leaves a widowed mother, two brothers and four sisters and a number of friends to mourn their loss.

Mr. Harry White, who lately returned to the city from Bermuda has been in O'Leary visiting his parents. On Saturday morning he returned to Charlottetown and tomorrow morning he leaves by the Princess en route to Sydney, C. B. where he will conduct a jewelry business. Mr. White who is well known throughout the province was for a number of years in the employ of Mr. E. W. Taylor, where by his prompt attention to customers and his courteous manner he made many friends. It will be remembered that later on he went to Bermuda where he continued his chosen occupation. His friends bespeak for him an extension of the confidence of the citizens of Sydney and that the degree of success already attained by him elsewhere may be his in the city at front door of Canada.

For Dandruff rub the head well with Bentley's Liniment.

A MEETING of the Executive of the Y. M. C. A., will be held on Tuesday evening.

"The Union Jack" will be sung at the Crusaders concert to-night. "There is a tavern in the town," at the concert this evening. Dialogue, "Curing a drunkard" at the Crusaders concert in Wright's Hall.

THE winter like weather of the past few days has turned the attention of skaters to the Hillsboro Rink. They will be pleased to learn that the "icy arena" is already a realization. Messrs. Prowse and McMillan certainly deserve praise for the prompt manner they are taking hold of the rink and by the time Xmas season is upon us skaters may look for excellent skating.

BART Duffy who gave an exhibition of speed in Hillsborough Rink, Charlottetown, last winter has abandoned his work with the Street Railway company and is fast getting into shape. He feels fine physically in spirits and is confident of establishing beyond a shadow of a doubt his claim to the local championship before the season is far advanced. He wants to be a world beater, and the citizens applaud his ambition.—St. John Star.

AS ANNOUNCED in Saturday's papers, Rev. D. B. McLeod of Zion Church occupied the pulpit of the First Methodist Church yesterday morning and as usual preached very acceptably. The music of the invocations and anthems and some of the hymns were from the pen of the late lamented Sir Arthur Sullivan, notably "The Homeland" invocation and the offertory "The Son of God goes forth to bear." The music of the third hymn, "Onward Christian Soldiers" was also composed by the same author. The prelude to the evening service, the "Lost Chord," the solo of which was beautifully sung by Mrs. Watts. The invocation, "Turn thy face from my sins" and by special request, the Homeland at the collection. At the close of the service the organ voluntaries were very solemn marches.
