Injuries May Decide '40 Pennant Race

By Judson Bailey, Associated Press Sports Writer
NEW YORK, Sept. 9.—(AP)—Injuries which wrecked the National League's pennant competition this year, now are liable to decide the frenzied fight in the American League.

Where Is He Now?

In that very Chancellery in which Dollfuss perished we met Schuschnigg, the gentlemanly, quiet, courteous new Chancellor of Austria. He told us of the menace of Hitler plotting against his government and of the fact that constantly he had to be on the alert because these agents were slipping across the border from Germany.

When one reads Mien Kampf it is nothing short of amazing to see how step by step Adolf Hitler and his minions have put into effect the plans there outlined, but careful reader will notice that there is one outstanding omission, the notable deviation from the program. In Mien Kampf Hitler says that Imperial Germany's first mistake was in falling out with the world. He said, to back up his point, that at our backs is the tremendous industrial capacity of this great nation—five times greater than that of the whole European continent. We have just read of the transfer of fifty destroyers to the British Navy, and of the agreement whereby the United States Government will take over certain naval and air bases on British possessions. This is by all odds the most momentous event that has happened since the declaration of war, and there is no one in this room who can estimate the final consequences of this transfer of the transfer of fifty destroyers to the British Navy, and of the agreement whereby the United States Government will take over certain naval and air bases on British possessions.

Worth Any Sacrifice

This cause is worth any sacrifice of possessions or property, or life itself. The British people all around the world have meant to the challenge of the democratic nations have grown and fat and pleasure-loving is a measure of truth in his life. There is not the slightest doubt that an element of decadence had crept into our democracy. We had become too much concerned with creature comforts and profit and too little concerned with the well being of the people. Today the democracies are being purged in the fire of a quality of character is fasted which was all the while in latent form.
