

One of the most significant signs

of the times in the investment business is the great increase in the number of reputable and high-class dealers and bankers who are offering bonds in units of \$100. Up to very recent times it was practically impossible to find in the purely investment lists, bonds that came in pieces of less than \$1,000. Nowadays, however, the small investors scattered all over the country is being eagerly sought by the investment bankers.

For several years past we have paid special attention to the requirements of investors of small amounts. If you are such an investor, drop us a line and we shall be very glad indeed to send you our latest investment offering list.
