Mr. Meredith Rountree of Sydney Manager of the Sydney Real Estate Co. Limited, who has been here for the past few days was seen on Saturday by a representative of THE GUARDIAN. In answer to a question regarding the scope of his company he said: "Of course as you know, everything depends on the success of the Dominion Iron and Steel Co. but the success of that Company has already been proven without the shadow of a doubt. The fact of the Nova Scotia Steel Co. having decided to move to North Sydney is sufficient proof of that. And there is present a sufficient number of hands employed by the Steel Co., to warrant a city of 25,000 inhabitants, but it is not going to end there. There is hardly a week passes that the head of some shipping, shipbuilding, or large metal company does not visit the place with some important object, no doubt. I know of no other place in Canada that has the same opportunity that Sydney has for a Company like ours.

We have secured nearly all the principal blocks of land in the town, and they have been purchased at the right figure, and they will bring a handsome profit even at present selling prices, and I might say here, I am of opinion that Real Estate in Sydney is not dearer than that in your own City.

The loaning side of the Company is also certain to pay under good management, as there are no other companies doing business there at present with headquarters nearer than Halifax, and most of them are located in Ontario.

You will therefore readily see that outside companies cannot compete with the local Company so far as that district is concerned, and we will have all the business we can do in Cape Breton for many years to come.

Mr. Rountree has been connected with the Birbeck Co. of Toronto from its inception until recently as its official Inspector. That Co. is one of the most successful loaning companies doing business in Canada.

Dodd's Kidney Pills continue to make remarkable cures of hopeless cases.

St. JOSEPH DE HOMME, Que., Dec. 2 (Special).—Mademoiselle Eugenie Dube, a very popular young lady of this place, has been ill for a long time. Her trouble commenced some three years ago, and was gradually grown worse, till she was very much worn down by the constant pain and weakness.

Her friends were very anxious, and everything that could be thought of was employed to bring about her recovery; but nothing came of it till someone suggested Dodd's Kidney Pills.

From the first two boxes an improvement was noticed, and when six boxes had been used the young lady was well as ever she had nothing of her old trouble or pain left.

Dodd's Kidney Pills are without doubt proving themselves to be suffering woman's very best friend, as very many women have testified.
