RETURNING TO CANADA

Sir Edward Kemp Has Finished His Work in London.

(Special to The Guardian.) LONDON, April 29.—Sir Edward Kemp, overseas Minister of Millia, has left London to sail for Canada on the Mauretania. It is understood he desires to return before prorogation of Parliament and will not return to England as his duties are practically finished here. Sir Edward has just returned from France where he visited the battlefields. He will probably reply in parliament to some of the criticism of the military administration made in Canada. Sir Arthur Currie will remain in England until all the troops are home.

WAX WORKS IN WESTMINSTER ABBEY

LONDON, April 29.—After four years of hiding during the period of the war, the waxworks which used to be in Westminster Abbey have now been put on show again. These waxworks are full-sized wax effigies of certain kings and queens and other famous people, dressed in the actual garments they used to wear in real life. Queen Elizabeth, Queen Anne, Charles II., and William and Mary are among the most famous of these wax figures which are on view free of charge to all visitors to the Abbey.

ONTARIO MAN CUTS OFF SON WHO USES WEED.

LONDON, Ont., April 29.—Because he uses tobacco, which says the testator "I despise," Frank Atwood, son of Squire Adolphus Atwood, who died recently at his home in the township of Lobo, is disinherited. Squire Atwood's original will, which has been entered here for probate gave the son named an equal division with other sons and daughters. A codicil, however, calls attention to the objectionable use of the weed, and supplants the son by a grandson, Charles Robb, as beneficiary.

The squire, in addition to dividing his estate of \$17,250, gives to the legatee the following advice: "I desire to leave my legatee four words which I have proved myself to be the key to success; Wisdom, perseverance, justice and economy, and in addition I give this advice; Never buy what you do not want and never buy on credit unless you have reasonable grounds for knowing you will be able to honor the obligation when due."

PRESENTATION BY DUKE OF CONNAUGHT

LONDON, April 29.—The Duke of Connaught in the presence of several thousand Canadian soldiers presented at Witley Camp, Saturday the King's colors to the 18th, 20th and 24th battalions. The 20th also received regimental colors.

The Duke was accompanied by Prince Arthur and was received by General Currie and Burstall. The religious ceremony was performed by Col. Almond.

Addressing the parade, the Duke said:—"These colors are the symbol of loyalty to king and country. May you ever carry them to the honor and glory of Canada. You three battalions represent three units of the great second division that fought so splendidly in France. I should weary you were I to attempt to repeat the names of the different engagements in which you took so prominent a part, but perhaps the great attack on Vimy Ridge, where the second division fought with such bravery, will recall to you the names of the many who fell on that bloody field. My son who is here to-day saw the second division go into action at Vimy and says he will never forget it as long as he lives. I do not suppose I will have an opportunity of seeing you again; certainly not in the old country, but I am proud to think of the splendid way you have maintained the good name of Canada in France and Belgium.

"You carry back to the dominion the gratitude and respect of us, your fellow-countrymen. You leave England with the respect and affection of the whole British empire and nation."

SCHEDULE TRIAL OF NAVAL SEAPLANE.

ROCKAWAY, N. Y., April 29.—The big naval seaplane, N. C. 3, which completed a schedule trial at the naval air station here, Sunday, may "jump-off" any time now for Newfoundland on the first leg of its trip overseas, according to a statement, Sunday night, by Commander John E. Towers, in charge of the navy department's plan for trans-Atlantic flight.

CHRISTIANS MASSACRED

SEOUL, KOREA, April 29.—Governor General Hasagawa to-day received a delegation of missionaries, who had visited the burned villages in Korea, including the hamlet forty-five miles southeast of Seoul, where it was stated recently that the male Christians of the village were summoned and shot or bayoneted.

Governor Hasagawa regretted that the facts of the massacre were as stated, but that those responsible for them would be punished. He added that foreigners might be assured there would be no repetition of such incidents.

TRAGEDY IN THE AMERICAN NAVY

NEW YORK, April 28.—Thirteen sailors returning in a navy launch to the battleship Nevada were reported by the police to have been drowned when the launch sank in the Hudson River off 138 street early today.

The police said that in the absence of an official statement by the naval authorities they based their report on information from persons who said they witnessed the sinking and heard the cries of drowning sailors.

Sailors from the battleship Mississippi said the launch struck a submerged log, that they rescued one man and that a crew from the Nevada rescued another. Four men were reported saved by other crews.

It was learned the launch was from the destroyer Bell. Naval officials promised to issue a statement as soon as an inquiry had been completed. Unofficially it was declared eight men were missing.

HOW THE FIGURE EIGHT HAS BROUGHT DISASTER.

BERLIN, April 29.—A student of history has discovered that the figure eight has played a dramatic role in the lives of the Hohenzollerns. Two German Emperors died in 1888, two attempts were made on the Kaiser's life in 1878. The year 1848 brought revolutions and a terrible humiliation for the King, Frederick the Great suffered his severest defeat in 1758 at Hochkirk. The thirty years war began in 1618 and brought unspeakable misery to the lands of the Hohenzollerns. The crowning disaster came in 1918.

Soldiers and the Battlefields

Battlefield touring curiously enough, seems to be becoming popular among the troops in France, as a means of passing the time until general demobilization is ordered. The soldiers are invariably interested in the sectors of the front other than those which were scenes of their own exploits. A system of short leaves has been authorized, and lories detailed for the tours. Ypres, Messines, Arras, and Albert, are easily first as sight-seeing centres, but places of lesser fame, such as Boesinghe and Wood 15, Bois Grenier Combles and La Prie Farm, Epehriem and Bousies, are all claiming through crowds.

O-Cedar Polish

the Wonder Polish for your Motor Car

Why should you let your car deteriorate in appearance. It is so easy to keep an auto body practically like new. It only requires a slight expenditure of money and effort, if you use the right polish.

With the O-Cedar Duster, you can dust your car in a few minutes, every day, and keep it looking bright.

Use O-Cedar Polish in the house as well as in the garage—use it for your furniture, your floors and your linoleum.

O-Cedar Polish is sold in various sized packages, from 25c. to \$3.00. The O-Cedar Duster 75c. You will find O-Cedar Products at any Grocery or Hardware Shop.

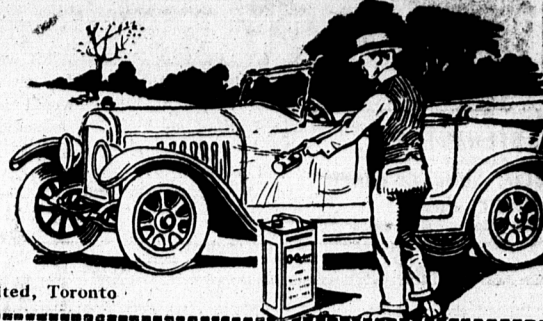

Channell Chemical Company, Limited, Toronto

O-Cedar Polish used the right way, has been found by thousands of motorists to be the correct treatment for any car.

Follow these directions carefully:—

Wet a piece of cheese-cloth with water. Wring out the surplus water. Pour on as much O-Cedar as the cloth contains water. This combination forms a soft, harmless lather that removes dust, scum and grime. Polish with a dry cloth. If there is mud on the car wash it off first—then follow directions as above.

Another way, is to mix half water and half O-Cedar in a sprayer. Before using shake the sprayer, to mix O-Cedar with the water. Then light brisk rubbing with a dry cloth produces a hard, dry lustre.

KINDNESS

Kindness implies a certain permanence of human quality a general abiding spiritual atmosphere rather than an impetuous, impulsive act, or a series of such acts.

Frankish generosity is not kindness at all, nor is the mere bestowal of material gifts from one who can afford it to another who needs them.

Kindness is imprinted on the serene brow, stamped with the seal of unselfishness. It is the touch of the divine in the gentle hand.

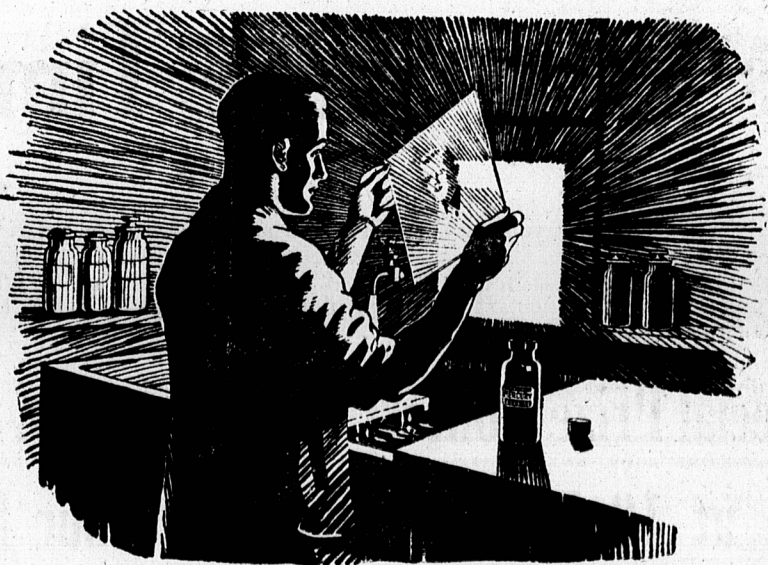

You will find it in the soothing cadences of the low pitched voice, in the soft glance of an understanding eye.

Kindness can be passive as well as active.

AN EXCITING MOMENT

ROME, April 29.—Great enthusiasm was aroused at a meeting here yesterday when it was announced that the National council of Fiume had handed over all the powers of the state and municipality to a representative of the Italian government to be exercised in the name of King Victor Emmanuel.

Workers in Chemicals and Metals Are Often Subject to Anaemia

THE breathing of poisonous chemical fumes or of the fine dust which arises from the grinding of metals is most injurious to the blood.

natural functions and strength is restored to the weakened body. With strength comes new courage and energy, new confidence and good health.

As a natural result the quality of the blood deteriorates and an anaemic condition is developed.

Mr. Robert Blaind, painter, 26 Wharf St., Belleville, Ont., writes:

Once the blood fails to supply an abundance of nourishment the nerves become exhausted and then there is weakness of the heart's action, inability of the stomach and other organs of digestion to perform their functions and general lassitude of the whole body.

"About three years ago my nerves were so bad that I couldn't work at my occupation, as I felt so weak and nervous and couldn't get any sleep at night. I went to a doctor and doctored for fourteen weeks, and did not feel altogether right until a friend advised me to try Dr. Chase's Nerve Food. I did so, and after taking the first box I could see good results, a continuation of this treatment restored my nervous system and I have been feeling better ever since. I would recommend it to anybody suffering from nerve trouble, as I have found it to be a grand medicine."

A complete change to open air employment is the most desirable treatment, but, unfortunately, in this day of the high cost of living, not many can afford to throw up their means of subsistence and start all over again at a new occupation.

Everybody whose occupation exposes him to the breathing of poisonous fumes, or the fine dust from metals or mineral drugs will find in Dr. Chase's Nerve Food a splendid means of enriching the blood and counteracting the bad effects. Dr. Chase's Nerve Food, 50c a box, 6 for \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. The portrait and signature of A. W. Chase, M.D., are on every box of his medicines.

For all such there is Dr. Chase's Nerve Food as the best known means of enriching the blood and thereby nourishing and invigorating the whole human system. The appetite is sharpened, digestion is improved, the vital organs resume their
