**Mr. Painter!**

Capitalize on the present style trend with DURALITH, preferred by painters because of its greater ease of application and texturing possibilities. Duralith mixes in cold water. Has a nice slip and wonderful spread. Cannot injure woodwork—no sand, no colors.

**Mr. Plasterer!**

Recommends on your labor costs with DURALITH. Less expensive to apply than white plaster. No cracking, cannot crack or shrink. Works beautifully with trowel, ornaments, and other color. DURALITH has wonderful coverage for spread and is applied directly on brown plaster without sand.

**Mr. Builder!**

Popularize your buildings with DURALITH. Beautiful textured walls increase rental and sales value. Slightly higher in fact cost more than offset by saving on re-decorating costs. Let us give you comparative figures on DURALITH as against white plaster and paint. Ideal for wall board construction, eliminating all joints.

**Mr. Architect!**

Standardize on DURALITH for wall texturing. Leads itself perfectly to the execution of your ideas for interior decoration, insures lasting satisfaction of clients. It will pay you to investigate—the popularity of textured walls is more than a mere trend; it is firmly founded on their practicality and economy of upkeep.

**A Cordial Invitation.**  
is extended to all connected with the building trade, as well as the general public, to call for full information.

WE introduce: DURALITH—the modern note in interior decoration—the perfected wall-texturing material. As easy to apply as paint and scarcely more expensive, DURALITH opens a whole new range of beauty in wall treatments—for the home, the office, the store, the hotel, for every interior.

The colorful Spanish stipple, the rough early English finish, Modernistic, Colonial, Italian, Rustic and Peasant effects—these are a few of the interesting possibilities. You will be amazed at the beauty and variety of textures and colors—at the economy of cost!

And now, in your home, you may have the artistic charm of these lovely textured walls that grace the finest interiors, as the magnificent new Manor Richelieu at Murray Bay, Canada. For DURALITH is here—beautiful samples are on display—and a free color scheme, designed for your home by Cora W. Wilson, noted interior decorator, is yours for the asking. Come in and let us tell you how little it will cost to decorate your new home—or re-decorate your old—with DURALITH textured walls of life-time beauty.

We are fully equipped and anxious to co-operate with anyone who is building, decorating or re-decorating.
