### AN HONORABLE SUCCESS.

It is a trite and much abused word, and one used probably more often than any other, in describing various folks of the stage world, referring to that good old standby, that every ready noun of all press agents—Magnetic—yet it is the dominant note, the thing you are most conscious of, the moment Miss Paige appears before the footlights. There is an interesting quality about her personality that is unmistakable, a certain temperamental sympathy in her acting which is far above the average actor's equipment, and you are bound to carry away from the theatre the feeling of having seen an actress whose work you will always pleasantly recall.

Miss Paige, added to her personal charms, is so thoroughly earnest and sincere, apparently so eager to interpret the meaning of the dramatist, that small wonder she has placed herself, within a short space of time, to be one of the best known of the leading stars.

Naturally enough Miss Paige began at the bottom of the ladder, playing only the small roles in Richard Mansfield's Company, in which company she began her career, and no greater tribute could be paid to her ability than the fact that she was playing all the leading parts in the repertoire when Mr. Mansfield's final season closed—this, mind you, after but two years of actual stage experience, and the Mansfield School was not one of the indolent ease and pleasant pastime. I can tell you among the various roles she played in support of this famous artist may be mentioned Camille, in the play of that name, and Lady Gray in "The Lady."

If the voice of rumor be true, she displays more genuine versatility in

Rose Garland than any of her former parts. Miss Paige will be seen at the Opera House, Charlottetown, on Friday and Saturday, June 17th and 18th.

WILL TAKE OFFICE IN SPRING.

LONDON, June 13—The Canadian Associated Press has every reason to believe that it is intended that the Duke of Connaught shall be the next governor-general of Canada, in accordance with King Edward's expressed wish. It is not likely that an official announcement will be made yet for the Duke of Connaught will open the South African parliament at the end of the year.

It is improbable he will go to Canada in mid-winter. Therefore, it is proposed that Earl Grey should remain in office till the spring of 1911. The Chronicle says there are obvious difficulties in the way, but there will be general satisfaction if the king and his ministers do not deem them insuperable.

## STILL IN FRONT

"I have used the bicycle to quite an extent during the past fifteen or sixteen years and still use it almost daily. I consider it not only a great convenience from a business standpoint, but appreciate very much the stimulus of the exercise derived from its use."

HERBERT OSBORN, M.Sc., Director of the Laboratory, Sandusky Professor, Zoology and Entomology, Ohio State University, Columbus, Ohio; Author.

"Nor rural sights alone, but rural sounds, exhilarate the spirit and restore the tone of languid nature."—Cowper.

"What was true in Cowper's time is still more true to-day, and the bicycle has made it possible for all of us to go into God's country and refresh both body and soul."

DR. LOUIS KLOPSCHE, Editor, "Christian Herald," New York City.

This is a black and white copy of the old-time poster of the "Cleveland" It was the herald of the "Bicycle Age" and to-day it is a leader in the big "Bicycle Revival."

The "Cleveland" has always been the leader. Apart from the splendid quality of the material used in its construction, Cleveland has all the new inventions that have helped to bring bicycling back as the popular means of healthy exercise.

If you get all the exercise and fresh air that nature demands every day of your life, you are going to be a very young-old man. And it's great to feel "young" when you are "old"

Bicycling will do more for you in this respect than any other form of pleasurable exercise. And a good bicycle gives you outing "Pullman comfort."

THE HYGIENIC CUSHION FRAME—If there is one invention more than another in the bicycle line that has helped to popularize wheeling, it's the Hygienic Cushion Frame. "Makes all roads smooth," is the slogan that carries it to popularity, and it has lived up to the advance notice. The Cushion Frame gives "Pullman Comfort" to bicycling.
