SUGAR FROM SAWDUST.
It Can Be Made, but It is Hardly Fit For Table Use.
During the middle ages the alchemists, who were the predecessors of the modern men of science, spent much time in making a so called "philosopher's stone" which should transform the baser metals into gold, and even nowadays science still has some problems that are almost as tempting to the imagination and probably quite as unlikely to be realized. To turn ordinary sawdust into table sugar is one of them. The table sugar part of it is generally considered an interesting chimera, but the question of economically reducing sawdust to the different variety known as grape sugar contains possibilities that greatly interest the modern chemist either in the laboratories of commercial plants or in such student workshops as the sugar laboratory of the Massachusetts Institute of Technology.

GERMANY'S NAVY.
The Kaiser's Policy For a Mighty Fleet of War Vessels.
The following is Germany's naval programme which was to be completed by 1916, but the work has been hastened that the maximum strength of the fleet will be reached before that year: Thirty-eight battle ships, fourteen large cruisers and thirty-eight small cruisers. In accordance with the emperor's scheme six more large cruisers and seven smaller ones were demanded for use on foreign stations; but this portion of the programme could not be carried through the reichstag, and for the present it has been dropped, but only for the time.

The Flour of the Family
Spring wheat makes strong flour suitable for bread only—lacks the delicacy and flavor of the Fall Wheat.
Beaver Flour
a blend of both, combines the best qualities of Manitoba Spring Wheat and Ontario Fall Wheat.
It is the best family flour. Makes light nutritious bread; delicious pastry.

TRICK AUTOMOBILISTS.
Although trick automobilists can be found in France and England, this country claims the lead. The accomplishment is peculiarly well adapted to American genius. Another reason for the supremacy of Americans is the greater lightness of the American machines, taken as a class, and their extreme sensitiveness and delicacy of control. It is of course possible to do more with a light car than with a heavy French racer. Another condition leading to the development of trick chauffeurs in America is the encouragement given them by the manufacturers, who favor trials of skill because they serve to exhibit machines and demonstrate to possible purchasers the lightness and facility with which automobiles may be controlled.
There are several tricks which may be classed as favorites among chauffeurs. They are all extremely difficult, but the one which more nearly borders on the marvelous is the watch trick. Only the most expert chauffeurs attempt it, as the cost of failure is the cost of a watch. To drive an automobile against an open watch, to back it and expect to stop the heavy machine just in time to spare the watch, seems impossible, but the feat has often been performed.

CORDITE EATERS.
Quite an original species of narcomania is noted by the British Medical Journal as having been discovered by Major Jennings, D. S. O., during the recent operations in South Africa. It consists in the eating of cordite, with which the Lee-Metford cartridges are charged. The existence of the vice first became known to Major Jennings from the suggestion of a regimental non-commissioned officer that a certain man had possibly been taking cordite in order to escape service, but in concluding his notes Major Jennings suggests that the effects are so exceedingly unpleasant that none but the most depraved would ordinarily resort to it as a stimulant and that no man could escape service through its means except by the exchange of service for incarceration as a hopeless lunatic or for death by suicide.

BOSTON AND NEW YORK ADS.

SLOT MACHINES IN SPAIN.
Shortly after the Spanish-American war, says the World's Work, among the first American novelties sent to Spain were the nickel in the slot machines, the musical kind. Unluckily the first machines played American airs. They were quickly demolished. When the next lot of machines were imported it was carefully advertised in advance that these contrivances would play Spanish airs only. This was taken as a sort of national compliment, and the American slot machines jumped into sudden favor, especially the gambling varieties, as the Spaniards are very fond of all games of chance. In a place like Malaga there are now more than forty such machines, each earning \$3.50 daily on the average.

HOW TO ENJOY YOUR CHRISTMAS
Use Dodd's Dyspepsia Tablets—They will Enable You to Enjoy the Round of Feasting Instead of Holding it in Terror.
The holiday season is at hand. It carries in its train dinners and feasting. It is a season of joy to the young, but as you grow older you regard it with feelings akin to fear. Why, because you've been abusing your stomach for years and it is no longer able to do its work.
Your stomach needs rest! If you give it the rest it needs now it will be prepared for its Christmas work and its holiday season will be riddled of its terrors. Give 1. Dodd's Dyspepsia Tablets.
Dodd's Dyspepsia Tablets are a natural aid to the stomach. They digest the food and the stomach rests. During that rest it recovers its natural powers and is able to furnish the energy which it needs for the digesting.
Thousands of people in Canada will enjoy the festive season this year who held it in terror a year ago. They have used Dodd's Dyspepsia Tablets.
Carry a few in your pocket and take one after eating. They are a safeguard against discomfort.

JOSEPH A. RICH & Co.

THE CHRISTMAS DINNER.
In spite of the fact that the word dyspepsia means literally bad cook it will not be fair for many to lay the blame on the cook if they begin the Christmas Dinner with little appetite and end it with distress or nausea. It may not be fair for any to do that—let us hope so for the sake of the cook! The disease dyspepsia indicates a bad stomach, that is a weak stomach, rather than a bad cook, and for a weak stomach there is nothing else equal to Dodd's Dyspepsia Tablets. It gives the stomach vigor and tone, cures dyspepsia, creates appetite, and makes eating the pleasure it should be.

FOUR CHILDREN PERISHED.
MANCHESTER, CONN., Dec. 9.—A message received from North Dec. 9, a small village about sixty miles from here, states that while Fred Oles a farmer, and his wife were visiting friends tonight, his house caught fire and his four children who had been left in bed were burned to death.

A CLAIM AGAINST THE SHAH.
The French architect Philippe Merlat was commissioned by the shah of Persia to build a pavilion for his majesty on the exposition grounds in 1900, but he has, it is said, never been able to collect a franc in payment. The French courts being unable to aid him, he has appealed to The Hague peace tribunal to help him in obtaining a settlement of his claim.
