

"SOWING THE WIND"

In offering to the Charlottetown theatre-goers "Sowing the Wind," from the pen of that ever fluent writer, Sydney Grundy, and considered by many his greatest effort, the management of the Colonial Stock Company feel that they are living up to their often made promise to produce only the best. This play deals with that ever-pleasing theme—love, and, as the author himself says, "Out of love have I sinned, out of love forgive me." This is the keynote which holds together four of the most beautiful acts that have yet been written.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right. CARTER'S LITTLE LIVER PILLS gently but firmly compel a lazy liver to do its duty. Cure Constipation, Indigestion, Sick Headache, and Distress after Eating. Small Pill, Small Dose, Small Price. Genuine with Signature.

During this company's engagement in St. John a relative of Sydney Grundy witnessed a performance of "Sowing the Wind," and it is with great pleasure that the management of the Colonial Stock Company quote him as follows: "I have seen 'Sowing the Wind' produced a number of times and the exceptions where it has been done better are rare. Never have I seen a performance of this piece where an organization handled the delicate situations as cleverly as your company does."

The financial position of the Acadia Sugar Refining Company is very strong.

Few of our large local industrial concerns have made as much improvement in their financial position as has the Acadia Refining Company. Looking over a period of five years, 1904 to 1909, we find that the Reserve Fund to meet depreciation has increased \$100,000 to \$200,000. The Contingent Account has more than doubled, \$50,000 to \$100,000 and one half of the bonds have been redeemed effecting a saving of \$1,000,000 in interest.

THE PRINCE COUNTY GUARDIAN

Offices in Summerside, Miss Amy G. Burrows, Agent, Summer Street, and J. F. Lafferty, Water Street, News Correspondent; and in Alberton, Herbert Clark, Agent.

The latest news, first of all.

Regular meeting Prince Edward Lodge, I. O. O. F. in their Hall at Summerside tonight. Initiation, degree practice and other important business. All members requested to be present.

W. G. Schurman, agent of the Quebec Steamship Co., Summerside, received word yesterday that the new steamer the Cascapedia will sail from Montreal on her first trip about Monday April 25th.

Collingwood Yeo, Port Hill, met with a serious accident a few days ago while working in the woods, resulting in the breaking of his leg a little above the knee, caused by a heavy log falling across it.

The fine imposed for breach of the prohibition, in the Police Court in Summerside on Tuesday, against Clement Arsenault, was for a first offence with a fine of \$100 and not a second offence as stated yesterday.

The regular monthly Evangelical meeting of the W. M. C. A. U. will be held in the Y. M. C. A. Rooms, Summerside, this afternoon at 3 o'clock. Subject will be "Lights" by Miss Muirhead. All are cordially invited to attend.

At the Police Court at Summerside yesterday Frank Wedge, an old offender, on the charge of drunkenness and disorderly conduct on the streets on Tuesday night last was fined \$20 and costs or two months in jail. He paid up. Geo. Clements, a lad of 17 was fined \$2 or 5 days on the same charge. He took the days.

During the last few days the Summerside police have been investigating a series of petty robberies from different stores which have evidently been going on for some time. Officer Phillips has located quite a lot of the goods, said to have been stolen, which include rubber boots, skates, revolvers, a shot gun and other smaller articles. Several boys are under suspicion and further developments may be expected shortly.

The concert held at Egmont Bay on Thursday March 31st, in aid of the school, was a decided success. Notwithstanding the almost impassable state of the roads it was largely attended. The difficult drills were excellently performed by the school children. The music and recitations were very creditable for children so young. Special mention might be made of the well rendered recitations by the little children of Clara Gaudet and Peter McNally. A neat sum was realized in aid of the school. Much credit is due the enterprising teacher Miss Evangeline Arsenault.

Of Miss Grace Mallett, daughter of Joseph Mallett, Summerside, to Archibald Sharp, also of Summerside. Both bride and groom were unattended. The Guardian joins with their many friends in extending best wishes to the happy couple.

STOCK MARKET CONTINUES DULL

NEW YORK, April 6.—There was very little life in the speculation in stocks today and no sign of transactions of a more substantial kind. The stock market element held fast to its conviction that the supreme court was likely to hand down a decision in the American Tobacco case on Monday and is more inclined to reduce commitments than to entertain them, pending the clearing up of that important matter. The buying of stocks during the first hour was attributed to covering up of outstanding shorts rather than to any initiative in the speculation. The gains were mostly lost in the second hour.

Foreign exchange was firm in tone and further gold exports are looked for next week, with the additional inducement offered by the premium on American cables paid by the Bank of England.

The furious speculation in rubber shares in the London market helped to keep up the money rate here. Discounts also hardened again today. The enormous changes shown in the weekly statement of the Imperial Bank of Germany represent the strain of the April settlement and past, and conditions are expected to relax there. The London money market, however, has to face some important Government financing during the coming week.

Yesterday's 6 1/2 per cent. call loan rate here is moderate, compared with the usual rate for that period, and disbursements coming back into the money market are likely to relax the rate next week unless the gold exports shall affect the tone. Stock market demand for loans is insignificant. The mercantile agencies report that high prices and industrial unrest are having some effect on general business, and, in consequence, on the demand for credits. The advance in wages announced by the New York Central called fresh attention to the prevailing tendency. Estimates of the quarterly earnings of the U. S. Steel Corporation were of a very favorable showing to be made by the forthcoming report.

The bank statement was unexpectedly weak. The loss of upwards of \$10,000,000 in the actual cash holdings of the banks finds no explanation in the known movements of money and leaves the \$2,000,000,000 exported today still to be counted in next week's return. Without that allowance, the actual surplus of the clearing house banks stood at only \$5,345,700 on Friday night.

Bonds were firmer; total sales, par value, \$1,272,000. U. S. three coupon have advanced 1 per cent. on call this week.

A FINE HORSE.

Having noticed a magnificent looking stallion, driven by Ronald J. Steel, during the past winter, I found on enquiry he was by "Parkwood" a horse that should never have been allowed to leave this country. I was also pleased to learn that he was imported here to fill the want made vacant by Parkwood and came to the conclusion that the Island was in a fair way of replenishing its carriage horses. Later I learned that he was to be shipped to New York where his sire went, but was pleased on reading your paper of the 4th inst. to know that Mr. Handrahan had decided to offer this stallion for sale here.

It would be a great shame for the breeders of this province to allow such a horse as him, with a beautiful carriage appearance, high action, and breezy look to leave this province, especially when such a horse as he is required for stock purposes. I was always a great admirer of Parkwood and no Islander or horseman, was more pleased when I learned that this horse a few weeks after arriving at New York, went into Madison Square Gardens and won his prize in competition with the cream of the world. His name had been changed to the "Duke of Kent" "Perfection" to my mind has more finished appearance than "Parkwood," which he gets from his dam "Perfect Belle," as she is descended from a family of equine beauties.

As I am an admirer of a pretty horse and knowing Perfection's ancestral breeding, I trust that for the interest of the country in general and for the advancement of the carriage horse in our Island home, that Perfection's future home shall not be other than Prince Edward Island.

Yours truly, Horse Admirer: Ch'town, April 6-10.

MacLellan Bros. High Class Tailors. New Store Bank of Commerce Building. We'll Give You Style with Quality in This Suit at \$23.50. When you come to consider it, isn't it pretty much a matter of style that leads you to prefer one make of clothes to another? This is perfectly justifiable because style is a wonderfully fine thing to have in your clothes. But it is well in choosing style, not to forget that that real style is emphasized and made perfect by exact tailoring, and exceptional fitting qualities. We want to show you this special line of new suitings, that we have marked for quick selling. Fine English worsted, good weight, in a variety of stripes and checks, in Browns, Greens and Greys. We think that you will agree with us that they are exceptional values at \$23.50 per suit.

A Plant Food—English Fertilizers. Superphosphate, Nitrate of Soda, Kainit, Muriate of Potash, Sulphate of Potash, Bone Meal. Thee contain the highest percentage of soluble and available plant foods known to the agricultural science—the result of years of experimenting—these manures are applicable to any soil. With these fertilizers, farmers can almost double their yields without practically any more labor. Its a real scientific plant food that protects and nourishes the plants in their delicate form and then supplies the nutritious substances as the plant continues to grow. A Profitable Investment for the Farmers of P. E. Island. A Fertilizer that can be mixed to suit any soil. Each ingredient is sold separately and unmixed, giving you a clear saving of 25 p. c. to start, and at the same time, you can buy the properties of nourishment which your particular land lacks, without wasting the ingredients which are unnecessary for your land, such as you would have to do with ready mixed fertilizers; that means another big saving. Let us show you why you as an industrious farmer can't afford to ignore this fertilizer—let us show you how you can increase your yield to enormous proportions. We can make the whole matter so plain that you can immediately see the results. Mail us a card for the pamphlets entitled—"The Potato Crop of Canada" and "Food for Plants"—two interestingly written books of inestimable worth to the farmers of this Province. A card will bring them—they're free. Address a card to AULD BROS Charlottetown P. E. Island 4-7ttdrSwks
