

A WOMAN'S BACK WAS NOT MADE TO ACHE.

Thousands of Women Suffer Un-told Misery Every Day With Aching Backs That Really Have No Business To Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life.

It is hard to do housework with an aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Mrs. O. Warren, Radisson, Sask., writes: "I was troubled with very severe pains in my back for years. I tried everything I could think of but they did me no good. A friend told me about Doan's Kidney Pills and after taking two boxes, I have not been troubled since."

Price 50 cents per box, or 4 for \$1.35, all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

Boils and Pimples

Are caused entirely by the blood being in an impure condition, and the quickest and simplest way to get rid of them is to take a few bottles of Burdock Blood Bitters.

This purely vegetable remedy has cured thousands of cases of these painful and unsightly troubles during the past thirty years.

Mr. S. J. Weir, River-View, Ont., writes: "Last summer I had sixteen boils on my neck and back. I was off work for over two weeks. I took everything I could think of but to no effect. I got a bottle of Burdock Blood Bitters and before I had used half the bottle the boils were gone. I took the rest of it, however, and I have not had a boil since."

Mrs. W. J. Cran- don, St. Mary's, Ont., writes: "I was troubled with pimples on my face for several years and tried a good deal of patent medicine, but they were not of much use. Finally I used four bottles of Burdock Blood Bitters and am now entirely cured."

For sale by all dealers.

NEW USES FOR AIRSHIPS ON LAND AND ON SEA

LONDON, January 23.—Although the airship has hitherto been almost entirely restricted to military and sporting purposes says a leading writer, it is now generally felt that many other wonderful and useful applications of dirigible balloons and aeroplanes will probably be made, whilst as inevitably happens with all new devices, many foibard and reprehensible feats will also be attempted by their aid.

The airship—by which term I mean both aeroplane and steerable balloon—moves in a medium which is to be found over land and water, and thus the aerial vessel is unique amongst locomotive agents. By land and sea we must accordingly seek for those applications to the airship, the main limiting factor being the condition of the aerial sea. At present all airships are fair-weather instruments in high winds, but as their power and speed increase, and as experience gives us "better and more wind-worthy" machines, there will be a greater number of days in each year during which the vessels can be employed.

REVOLUTIONIZE WARFARE. So much has been written of the military possibilities of the airship that I need not go fully into the matter here. Suffice it to say that in the opinion of many experts the aerial ship will revolutionize warfare. This will at first be effected not so much perhaps by the airship being a vessel of attack as by the new pow- ers of observation which it gives.

Warfare is based to a considerable extent on strategy, this being largely the art of deceiving an enemy and making secret moves. An airship gives such a commanding view in all direc- tions that in the wars of the future no such secrecy can be maintained. The higher the vessel rises the greater is the range of vision of its crew, so that at a height of 2,000 feet a distance of more than forty miles can be swept by the glasses of the obser- vers; and by the aid of wireless tele- graphy and cameras fitted with tele- photo or long-distance lenses they can rapidly report and record every movement of the enemy. Under con- ditions such as these strategic move- ments will hardly be possible save at night, and even then the powerful searchlights that can be carried by the airship will discover any secret move.

VENGEANCE FROM THE HEAVENS. For destructive raids by land and sea, surprise and attacks on harbors, on naval and military bases, and lines of communication, the airship also has vast possibilities. To the British nation in particular it will be invaluable in those highly expensive frontier and punitive expeditions which are necessary from time to time in remote parts of the Empire. The usual expedition on the Indian frontiers or in various parts of Africa, can move along at the rate of a few miles a day and there is enormous wastage of life long before the objec- tive is reached.

DON'T BLAME HER

For she cannot help it. Women are often cross, irritable, hysterical, and declare they are driven to distraction at the slightest provocation.

Men cannot understand why this should be so. To them it is a mystery because in nine times out of ten this condition is caused by a serious feminine derangement.

A remedy is necessary which acts directly upon the organs afflicted, restoring a healthy normal condition to the feminine system, which will quickly dispel all hysterical, nervous and irritable conditions. Such is **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**.

Mrs. Henry Clark, Glandford Station, Ont., writes to Mrs. Pinkham: "I have taken Lydia E. Pinkham's Vegetable Compound for years, and never found any medicine to compare with it for sick women."

"I had ulcers and a displacement of the female organs, and doctors did me no good. I suffered dreadfully until I began taking Lydia E. Pinkham's Vegetable Compound, which has cured me."

SPORTING INSTRUMENT. It is to be devoutly hoped that one before a great war will test the possibilities of the airship this vessel will be employed in many other useful ways. Probably its first principal employment will be as a sporting instrument, and in the free air races and contests innumerable can be held without creating the prejudice which motor-car racing, for instance, stir- ring. Wealthy amateurs will tour from place to place in their airships, and aeroplanes will possibly become cheaper than motor cars.

When a number of people have become adepts in the use of flying machines and dirigible balloons we can reasonably expect that the instru- ments will find many new uses, and I still confidently believe that the airship will first enable us to reach the Pole. Indeed, every nook and cranny of the earth will be surveyed by its aid.
