

Consult Your Doctor

If you have serious kidney trouble, such as Bright's Disease or Diabetes—consult your physician at once.

But if you have a mere functional derangement of the kidneys or bladder, indicated by pain in the back, inflammation, etc., you will find Penslar Buchu and Palmetto Compound a very satisfactory remedy.

The formula is on the label—exact quantities and ingredients. It is a fine prescription for kidney and bladder troubles and the makers are proud of it.

Two sizes, 50c. and \$1. sold only at our store. It gives great satisfaction.

PICNIC AND PRESENTATION

On Monday afternoon of this week the young ladies Philathea Class of the Charlottetown Baptist Sabbath School held a picnic at Rocky Point.

When the tables were ready and the members of the class seated, the President, Miss Jessie Bruce, requested two of the girls to stand while she read the following address:—

To the Misses Annie Ruth and Eleanor Mays:—

We, the members of the Charlottetown Baptist Philathea Class, desire to express to you on this occasion our sincere regret that you are about to leave us.

We ask you to accept this Class pin and that you will wear it as a small expression of our goodwill towards you both.

Signed on behalf of the Class, (Miss) JESSIE BRUCE, President.

Miss Annie Acorn presented the pins, after which the Misses Mays gave a fitting reply.

The party returned on the 7 o'clock boat, all declaring themselves pleased with the pleasant afternoon at this favourite resort.

INVESTIGATION OF WAR PURCHASES

(From our own Correspondent.)

OTTAWA, July 7.—The purchase of mechanical transport for the first contingent, through Mr T. A. Russell, general manager of the Russel Motor Car Company, of Toronto, was the subject of evidence taken at to-day's sessions of the inquiry into war contracts before Sir Charles Davidson.

Sir Charles Davidson asked the witness why he had not charged for the services he had rendered, and Mr Russell replied that he wondered now himself why he had not done so.

Minard's Liniment Co., Limited.

Gentlemen.—Last Winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of inflammation.

AN ENGLISHMAN'S DISCOVERY MAY REVOLUTIONISE SUBMARINE WARFARE.

NEW YORK, July 8.—A London cable to the Tribune says, according to a famous British scientist, an Englishman has just made a discovery which will revolutionise submarine warfare. He states that the

inventor is one of the members of the committee appointed by the Royal Society to deliberate on scientific problems arising from the war.

The invention is an apparatus whereby a submarine can locate another submarine within a radius of twenty miles and keep in touch with it while within the radius.

henceforth British submarines will be able to run down and fight German undersea craft.

The scientist gave the story as an instance of what scientific men are able to do when attention is concentrated on war problems, predicting that within a few months, as the result of Lord Fisher's appointment as chairman of the naval inventions board, which will include

the cream of British scientists, new discoveries will be made which will astonish the world.

This body is intended not merely to investigate inventions submitted from without, but will devote the greater part of its time to seeing what constructive thought on its part science is able to produce.

GERMAN PRINCE IS GOING TO CONSTANTINOPLE.

BERLIN, via London, July 8.—Baron Wagenheim, the German Ambassador at Constantinople, is returning to Germany on sick leave. The Constantinople post will be filled by Prince Hohenloe-Langenburg, who is related to the King of Roumania.
