SUMMERSIDE IS AGAIN VICTORIOUS

Defeating the Victorias Last Night 7 to 4—Intermediate Vics Win 6 to 3.

SUMMERSIDE, Jan. 23.—(Special)—The rink was crowded to night to witness the hockey match between the Victorias of Charlottetown and the Crystal Pioneers of this town.

The ice was too soft for the best playing but some good combination work was done by both teams.

After about 12 minutes of hard play the Victorias shot the first goal and in about twelve minutes more the Crystals shot another. A moment later a second goal was scored for the Summerside team.

A few minutes later an accident occurred. Rice of the Victorias fell on the ice hitting his head and was carried off by a number of the players.

The second half was faster than the first. The defeat did not appear to dampen the spirit of the Victorias. The puck was kept more in the Crystals' territory than in the first half and they were given harder work to do.

The Victorias were now to be heard from and after some fast playing succeeded in adding two more goals to their credit. The game now stood four to three and as there was considerable time left it looked as though there might be some chance of victory for the Charlottetonians.

The Crystals however shot three goals in succession making the score seven to three in their favor. One of the Victorias cut his hand and had to leave the ice and to even matters Baker of the Summerside's was retired.

Only six minutes now remained and the Charlottetown team started out to even the score, even if the prospects of winning the game were not bright.

Before the bell rang for the conclusion of the game they placed another goal to their credit leaving the score 7 to 4 in favor of the home team. The game was clean throughout and free from any ungentlemanly features on the part of the players.

The intermediate match was won by the Victorias by a score of 6 to 3. "Toby" McMillan referred both games very impartially.

The result of the games up to the present is as follows:

Table with 3 columns: Team, Won, Lost, To Play. Rows include Crystal-Pioneers, Abegweits, and Victorias.

A SUCCESSFUL HORSEMAN Never allows his horse to suffer pain. He always uses Nerviline which is known for curing stiffness, rheumatism, swellings and strains.

Bessie Walker, the five-year-old ward of Mrs. Strawbridge, who lived with Miss Allison, and who was the only one who saw the colored man robbing the house after he had killed the woman, was taken to various towns in the course of a day to try and identify suspects.

Never allows his horse to suffer pain. He always uses Nerviline which is known for curing stiffness, rheumatism, swellings and strains.

THREE SERVANTS KILLED BY GAS

From a Furnace in Quebec—Overcome while Attempting to Escape.

QUEBEC, Jan. 23.—(Special)—Three servants employed by Andrew Joseph were this morning asphyxiated by coal gas.

They had endeavored to escape being found on basement floor but were overcome.

BE GOOD THING FOR YORK LOAN

TORONTO, January 22.—There is something encouraging for the York Loan shareholders in the prospect of the Toronto Railway company extending their lines right through Roncesvalles avenue in the spring.

This will greatly enhance the value of the loan share holders' assets, and it is understood that President MacKenzie has walked over Manager Flemming's refusal to have the line built, and that he has agreed with the board of control that this shall be one of the extensions which are to be made as early as possible in the spring.

W. T. White, manager of the National Trust company, says the liquidators will very soon place a block of real estate on the market.

SEARCHING FOR NEGRO MURDERER

MOORESTOWN, N. J., January 22.—More than a dozen negroes have been arrested at different places on suspicion of knowing something about the murder of Miss Florence Allison, who was found dead yesterday in the stable on the farm of Mrs. Edward Strawbridge.

The negro, who is suspected of having committed the crime, is described as having worn when seen on the farm, a long coat and a slouch hat, and every colored man taken into custody to-day was so attired.

The arrest considered the most important is that of a colored man employed in the terra cotta works here, who was on duty yesterday, and who is alleged to have been in the vicinity of Miss Allison's home about an hour previous to the time the murder is supposed to have been committed.

Bessie Walker, the five-year-old ward of Mrs. Strawbridge, who lived with Miss Allison, and who was the only one who saw the colored man robbing the house after he had killed the woman, was taken to various towns in the course of a day to try and identify suspects.

She was brought to the jail here, but was unable to say whether William Smith, the negro arrested last night, was the man who she saw commit the robbery.

MORE SETTLERS FROM THE STATES

Coming this Year than Ever Before—Changes in the Army Medical Corps

OTTAWA, Jan. 23.—(Special)—The Militia Department has decided to reorganize the Army Medical Corps into field ambulance units, each composed of a bearer division, a tent division and an ambulance division.

The Department of Interior has received reports showing that immigration from the United States this year promises to be far greater than ever before.

The New England States are becoming deeply interested in Canada. Many Pennsylvania Dutch are preparing to move and scores of applications have been received from the State of New York, Idaho, Oregon, from Washington, Oklahoma and elsewhere, far more numerous than during any previous year.

The reason is that those who came across in the past two years have written friends praising the conditions existing in Canada.

SECURITIES OF STANFIELD'S LTD

HALIFAX, N. S., Jan. 22.—The securities of Stanfield's Ltd., which were publicly advertised for the first time on Tuesday last and the subscription lists for which were opened only for five days, have been doubly subscribed.

The lists closed Saturday at noon. The amount offered was \$450,000 and subscriptions are in the hands of the banks or brokers for about twice that amount. All the applications made to branches of the Bank of Nova Scotia and from brokers outside the maritime provinces have not yet been received.

The allotment will be made on Wednesday. This is said to have been the most successful flotation of securities yet made from Halifax.

The brokers were F. B. McCurdy & Co., J. C. McIntosh & Co., and J. M. Robinson.

Minard's Liniment Cures Dandruff.

PROHIBITION IN ONTARIO

Toronto, Jan. 22.—That local prohibition of liquor selling has now a large hold in Ontario is shown in the current issue of The Pioneer, which states that 139 Ontario municipalities are now free from bar rooms.

These include one hundred municipalities where abolition is the result of a vote, in 96 of them on local option and in four on the Dunkin Act. The remaining 39 are without licenses for various reasons such as failure of applicants to secure signature, too high license fees, over-whelming temperance sentiment, or the refusal of commissioners for various causes to grant licenses.

Contests are now proceeding in five more municipalities, in each of which there was a large majority for the liquor act at the referendum vote in 1902.

COL. M'PHERSON DIES IN OTTAWA

OTTAWA, Jan. 22.—Colonel John M'Pherson, veteran treasurer of the D.R.A., died suddenly at his residence yesterday afternoon. He had filled many important public positions in the military service, the last being that of director of the military stores. He was superannuated in 1897, and since then has devoted all his time to D.R.A. matters.

Colonel M'Pherson was born at Lancaster, Ontario, in January, 1830. He leaves a widow and several children.

WRAPPING APPLES IN TISSUE PAPER

(St. John Sun.) The apple shipments from Ontario and Nova Scotia points continue this winter in somewhat increased quantities to previous season and almost every steamer leaving St. John for London, Liverpool and Glasgow carries away several carloads, (about 180 barrels to the car.)

The packers in Ontario at this time of the year seem not to be much rushed and have leisure to wrap each apple in paper, and as they reserve the choice of their orchards for this style of shipping the goods prove very attractive when in nice clean boxes. One steamer left Halifax a few days ago with 10,000 barrels of Nova Scotia apples.

LIBERALS ARE STILL LEADING

Austin Chamberlain's Big Majority—How Parties Stood Yesterday.

LONDON, Jan. 23.—(Special)—Joseph Austin Chamberlain, Liberal Unionist, was re-elected today in Worcestershire by a large majority.

Otherwise the election returns continue to record Liberal successes. The totals known this afternoon are, Liberals 270; Unionists 124; Nationalists 79; Laborites 42; total 524.

Contests for 240 elections are yet to be held to make a complete House of 670 members.

DUELLING MUST GO KAISER DECLARES

BERLIN, Jan. 22.—"Duelling shall continue," the Kaiser declared to the Reichstag, using War Minister Von Einem as his mouthpiece.

"The custom of duelling exists in wide circles of the educated classes in Germany," said the minister of war. "So long as it is regarded as a means of restoring offended honor the Officers' Corps cannot tolerate the presence in its ranks of a member who is unwilling to re-establish his honor with a weapon in his hand.

The government, however, is considering the advisability of revising the penal code to prescribe penalties for persons who wantonly attack other persons' honor. Until this is done duelling is necessary."

The Kaiser had summarily dismissed from the service Lieutenant Ruhr, of the Landwehr, because he refused to fight a duel with Herr Feldhaus, a lawyer of Muehlheim, which a court of honor had declared necessary.

A GUARANTEED CURE FOR PILES

Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c. 12-15 dmw-6 m.

A LEGISLATURE NOW ON STRIKE

Manitoba Members Object to Being Called Hayseeds by Mayor of Winnipeg.

WINNIPEG, Jan. 13.—(Special)—There is a strike among the members of the Manitoba Legislature now in session.

Yesterday the country members held a meeting and discussed various statements made by Mayor Sharpe.

He is alleged to have spoken of the country members as hayseeds and they absolutely refuse to transact any civic business until he publicly apologizes.

NEW TYPE OF SIEGE GUNS

WASHINGTON, Jan. 22.—A new type of siege gun has been completed by the ordnance department of the Rock Island arsenal and has been shipped to the Sandy Hook proving grounds at New York for a test.

The new weapon has a calibre of 4.7, and throws a sixty pound projectile. This is five pounds heavier than the projectile now thrown from the five inch siege guns, which are to be replaced with the new models if the gun to be tested at Sandy Hook proves satisfactory in every way.

The chief characteristic of the new gun is its long recoil. It is said that this gives a steady carriage and that the carriage will not jump when the gun is fired, as is the case with the gun now in use, thus permitting a more rapid fire.

FLEET STEAMERS WILL BE SECURED

MONTREAL, Jan. 22.—The Canadian Northern Railway management has entered into a deal with the Quebec Transport Company to have the ships of the latter line handle the grain exports from Quebec to European ports, commencing next summer.

Mr. Thomas Harling, managing director of the Quebec Transport Company, who early went to Toronto to confer with Messrs. MacKenzie and Mann, a notices that the Canadian Northern Railway people have secured one half the entire stock in the new Quebec Steamship Company. He will leave for England in a couple of days to secure a line of first class ships, which will sail from Quebec, beginning in the month of May next.

LYING IN STATE IN CITY HALL

Mr. Prefontaine's Body Couch—ed in Flowers Viewed by Many Thousands.

MONTREAL, Jan. 23.—(Special)—Five miles more and the body of Hon. Raymond Prefontaine will have reached its last resting place in the cemetery of Cote des Neiges.

The special train from Halifax arrived here at eight o'clock tonight and the body now lies in state in the City Hall.

Immense crowds gathered at the station and on the streets and the police had great difficulty in keeping the people from completely blocking the passages.

Mr. Prefontaine was known to everyone from Maisonneuve to Hochelaga and all turned out to honor his memory.

Members of the Cabinet and deputations from many organizations met the body, which, with full military honors, was conveyed to the City Hall.

The Chamber was heavily draped and was a veritable bower of flowers. Thousands viewed the remains tonight and an opportunity will be afforded for this until tomorrow evening.

45,000 MEN TO TRAIN THIS YEAR

OTTAWA, Jan. 22.—The militia authorities will train about forty-five thousand men during the present year. The establishment will consist of 29,021 infantry of all ranks, 6,325 cavalry, 5,135 artillery, 780 engineers, 185 guides, 106 army service corps, 1,568 army medical corps and 90 engineers.

This makes a total of 44,801 of the volunteer militia who will constitute the training establishment for all the provinces of Canada. The number is slightly below what the force was last year on paper, though it is better balanced and more effective.

The reduction is due to placing on the reserve the supernumerary officers and non-commissioned officers who constituted what Lord Dufferin called the second line. It was found that a double set of officers for the various arms of the service did not give good results, so the officers and men have been fixed at proper relative proportions. The increased effectiveness of the militia as a whole is shown by the fact that while its number is slightly less owing to the reduction in the number of officers, the number of units is greater by 6 batteries of artillery, 2 regiments of infantry and 2 of cavalry.

There is an increase in permanent force from 1,000 to 4,077. This is for the purpose of providing garrisons for Halifax and Esquimaux.

BARGAINS IN FOOT-WEAR
