The trap was only down about five minutes after which the large lobster was landed and was judged to be the largest caught in Summerside harbor for a long time.

Concerts broadcasted by various musical organizations in New Jersey, New York, Pittsburg and other centres, were heard by even the casual pedestrian on the street, the power of the receiving station even superceding the roar of motor and other traffic, incident to the usual Saturday night bustle of this hustling island town. In the tonsorial parlor owned and operated by Charles Lafferty, the oldest active barber in the province, customers had the unique pleasure of having their beards and mustaches trimmed by that venerable artist, while hearing stellar musical performances by the stars of the principal radio centres of the United States. The aerials of the new Gaudet receiving station are more than 110 feet above the street level and the complete equipment is one of the most modern and up-to-date in the Maritime Provinces.
