POLICE COURT—In the Police Court yesterday a drunk and disorderly was fined \$10 and costs or 20 days. Another remanded drunk was dismissed after spending several days in jail.

PLANES GROUNDED—Adverse weather conditions forced the cancellation of the air service to and from the province yesterday. Planes of the Maritime Central Airways were grounded for the day but, weather permitting, they will be back on the job today carrying mail and passengers between here and the mainland.

ST. JAMES CHURCH—Tonight at the Midweek Service in St. James Church the Reverend T. H. Russell Somers resumes his course of studies on "Classics of Christian Literature." The lecture tonight is entitled "The Confession of Leo Tolstoy—a Transcript of Modern Moods," and the general public is invited to this service which lasts from 7:30 until 8:15.

LEGION DANCE—One of the most popular places in the city on Tuesday night is the Canadian Legion room where the weekly dance for men in uniform is staged. Again last evening a large number of sailors, soldiers and airmen turned out for this event. Several hours of dancing were enjoyed by these present. Music was supplied by Bill Moreside's orchestra and the dance was under the supervision of Mr. A. G. Bruce, entertainment officer of the Canadian Legion War Services.

ROAD STILL BLOCKED—Motor traffic between Charlottetown and Summerside is still suspended following a heavy snowfall several weeks ago. Despite the recent thaw, it is not thought to be advisable to put the Government snow plow on the road because of the remaining banks. However, motorists are being off better in the east as the Charlottetown-Montserrat highway has remained open to cars. Automobiles are also able to travel from the city to Mount Stewart. In the western part of the province, the plows are keeping the high-ways to the airports cleared.

their courses at operational training bases.

Cheered by Ralston's Visit

AN EAST COAST CANADIAN

PORT, Jan. 20 (CP)—Flight instructor in the east coast of the largest number ever to proceed overseas in one movement—and army reinforcements cheered by Defence Minister Ralston's farewell wish of "God speed and good luck" sailed from this port on a blizz January day. Their safe arrival was announced today.

Airmen crowded aboard a converted luxury liner made up the largest portion of the movement, though their ranks were swelled not by Canadian soldiers, but by several nurses, and reinforcements for the Czech-Slovak army.

Col. Ralston's visit to the troops turned what might have been a rather homesick affair into a gala event for the soldiers. Enthusiastically they cheered him as he urged them to "give your best in the service of Canada," and went about speaking to the men individually.

The purpose of his trip was to say private goodbye to his only son Stewart, an army lieutenant bound overseas with the rest. But most of his time was spent with the troops. He tramped the transport from stem to stern, held a sing-song and encouraged the men with his brief, fighting talk.

A Charlottetown Man

Marliners included Pte. H. J. Senner of Charlottetown. All parts of Canada were represented.

More than 100 United States troops aboard an army transport caused some speculation whether they were connected with President Roosevelt's recent statement that American armed forces would take battle stations in the British Isles.

The American soldiers, however, apparently were under strict orders not to talk for they refused to discuss their mission, their destination.

Planes operate From Carrier

MELBOURNE, Australia, Jan. 20 (CP)—Planes from a Japanese aircraft carrier took the war today to the island of New Britain, strategically situated nearly 500 miles northeast of the Australian mainland on the United Nations' route of supply from the east.

Both bombers and fighters struck in force at the air base of Rabaul, the main city on the Australian-mandated island. Air minister S. Drakeford, reporting the midday assault, said the meagre information available indicated that some military damage was caused.

I wish to express to the General Public my appreciation of their co-operation in making the Provincial Blackout so successful during the evening of January 19th.

H. H. COX,
Chairman,
Provincial Air Raids Precaution

NORWEGIAN AIRMAN KILLED

OAKVILLE, Ont., Jan. 20 (CP)—A member of the Royal Norwegian Air Force was instantly killed today when his training plane crashed on the farm of Frank Bagger north of here.

The pilot was not immediately announced and officials at "Little Norway" in Toronto began an investigation into the crash.

ORDER YOUR GARDEN SEEDS EARLY. A SERIOUS SHORTAGE EXISTS IN MANY VARIETIES

SUGAR TOMATO

12% to 14% Sugar Content

First of all Tomatoes to produce the Fruit. Think of it, a sweet tomato with many fruits exceeding 12% Sugar. Nothing like it ever before. Reveal Protestant Orphanage had Successful year

The first meeting of the Trustees of the Orphanage in the new year, was held on Tuesday January 20th. In the absence of the chairman, Mrs. H. S. Henderson, Vice Chairman, president.

There was a good attendance and out-of-town members from as far as Ellerslie were thanked for their faithfulness. Regular business was carried out, following which the report from the Nurse in Charge was read. This was most interesting and covered the School Closing Concert as well as the rest of the time enjoyed by all the children throughout the Christmas season.

The report of the Adoption Committee was brief but showed that many children had been adopted during 1941 and our usual average number maintained; one more child was being admitted this date.

The Finance report was given by Mrs. Henderson, the undated Chairman of the committee. Her report was a long detail of figures which must have taken an exceedingly long time to prepare but which she had assembled and summarized it all in no time at all. It was a report which must have taken an exceedingly long time to prepare but which she had assembled and summarized it all in no time at all.

Civilian Defence Committee meets

The matter of procuring sirens and other A. R. P. supplies was discussed at an enthusiastic meeting of the Civilian Defence Committee A. R. P. in the Provincial Building yesterday afternoon. Hon. H. H. Cox, chairman of the committee, presided.

It was decided that Charlottetown, Summerside and the other designated towns, villages in the province should be provided with sirens to be used for air raid signals. Murray Harbor and Cardigan were added to the list of villages already referred to as places where blackouts should be staged. A committee consisting of Major W. H. Poole, D. M. Gass and R. S. MacBeth was appointed to decide how the sirens would be apportioned.

The amount of fire equipment necessary for distribution to the various centres was also discussed and a requisition for the Dominion Government prepared. The same action was taken in the matter of medical supplies.

Those attending the meeting included: Hon. H. H. Cox, chairman; Maj. W. H. Poole, vice-chairman; Mr. Morton Dow, secretary; Inspector J. A. Wright, R. C. M. P., Director of Police Services; Mr. C. A. Beer, director of Fire Services; Dr. B. C. Keating, director of Medical Services; Mr. D. M. Gass, director of Public Utility Services; Mr. R. S. MacBeth, director of Transportation Services and Sgt. K. W. Engel of the R. C. M. P.

During the meeting a delegation from the Charlottetown sub-committee waited on the committee asking for certain supplies to carry on A. R. P. work.

City asks for A.R.P. supplies

A long list of requested equipment for the Fire Department, Police Department and city in general, ranging from trailer pumps to gas masks and sirens, was placed before the Civilian Defence Committee A. R. P. yesterday by the Charlottetown A. R. P. sub-committee. A delegation from the latter waited on the former in the Provincial Building.

The provincial committee was asked to requisition the Dominion Government for the following articles which the city would use for A. R. P. work: For the Fire Department—eight trailer pumps, 250 gallon capacity, equipped; one trailer pump, 8000 gallon capacity, equipped; 8000 feet of 1 1/2 inch rubber lined fire hose; 16 siamese wyes, 2 1/2 inch intake to two 1 1/2 inch outlets; 16 hose adaptors from 2 1/2 to 1 1/2 inch; 24 1 1/2 inch nozzles, eight with 3-8 inch tips and 16 with 1-2 inch tips; 130 rubber coats; 130 helmets; 130 gas masks; 24 fire extinguishers.

For the Police Department: 200 arm bands; 30 whistles; 30 flashlights; 150 tin hats and 900 gas masks.

For the city in general: 20 1-2-horse power sirens and one 5-horse power siren, with installation and maintenance provided. The approximate estimate of installation would be approximately \$1,000 and the yearly maintenance and service charge \$600. An amount of cash to promote certain essentials for auxiliary water supply, equivalent to the capacity of the same area and population.

The delegation spokesman was Mr. James A. Fullerton, vice-chairman of the sub-committee and other members were: Messrs H. A. Messervey and I. Y. Reddin.

After the delegation left it was decided, on motion of Mr. A. A. Fullerton, that the report be received and the sub-committee notified that it would be given consideration.

GERMANS FACED

(Continued from page 1)

armies which have driven the claws of a giant pincers to the rear of Moshalsk in the vicinity of Vyazna, 70 miles to the west. Some prisoners already have been taken, Moscow said.

Even if some of the Germans do get through the narrowing gap, there are no suitable defensive positions short of Smolensk, where Hitler supposedly had established his headquarters.

These the Draper curves southward, affording the most likely position for a German defensive stand.

The Russians announced that German casualties were heavy in the bitterly-contested battle for Moshalsk.

The Germans captured Moshalsk in mid-November and had been under heavy pressure since the Red Army counter-offensive started Dec. 6.

The stubborn German resistance at Moshalsk was described by the army organ Red Star early Monday (Russian Time) in a dispatch telling of hand-to-hand fighting ranging through streets crimson with flames started by the Nazis. Red Star said the entire city was alive.

Montague asks For snow plow

The need of a "centrally located" snow plow in the east section of the province to aid A.R.P. work in Montague, Cardigan, Georgetown, Murray River and Murray Harbor, was stressed at a largely attended citizens meeting held at Montague recently. A resolution requesting the Provincial Government to place this snow fighting equipment in this part of the province immediately was unanimously adopted.

The matter was brought up during a meeting held to make preliminary arrangements for practice blackouts. Information that the districts would be supplied with certain fire fighting equipment and first aid material, was given. It was then pointed out that to make these materials effective it would be necessary to have the roads connecting these centers kept open so that it would be possible to move fire fighters, doctors, nurses and casualties. This obligation was stressed by the Provincial Government, it was decided.

The need of establishing the snow plow in these parts, was endorsed by the King's County Board of Trade also.

The text of the resolution was as follows: "That the Provincial Government be asked to supply at once, the first prime necessity for the protection of our people in the above named districts, a snow plow which should be centrally located and the first duty of the plow to be the opening of the roads between the named towns and villages."

Five Pilots Lost In Big Air Crash

LONG BEACH, Calif., Jan. 20 (AP)—The ferry command of the air corps lost some of its finest pilots with the deaths of 15 officers and men in a transcontinental and western airlines transport crash near Las Vegas, Nev., Friday night.

"They might have been the honor roll of the command," a high official who asked that his name be withheld, said today. "They were doing a hell of a fine job."

The officer consented to be quoted after a reporter pointed out

BIRTHS

MACDONALD—At the P. E. I. Hospital, Jan. 20th, 1942, to Mr. and Mrs. Sterling Macdonald, a son.

DEATHS

MACDONALD—In Roxbury, on Jan. 16, 1942, James A., beloved husband of Elizabeth A. (Steele) Macdonald.

MACNEIL—At the Prince County Hospital, Jan. 20, 1942, Benjamin MacNeil of Wellington, age 65 years. Funeral Thursday morning at 9 o'clock from the Roman Catholic Church at Wellington.

In Memoriam

In loving memory of our dear daughter Elizabeth who passed away January 21st, 1940.

We loved her, yet no tongue can tell how deeply how dearly and how well Christ loved her too and thought it best

To take her home with Him to rest. Beautiful memories are all we have left.

Of one we loved and shall never forget.

A loving smile, a happy face
A broken link we can never replace.

Inserted by Her Father and Mother, Mr. and Mrs. Rennie, Darlington.

WEDNESDAY:— 7:30—Congregational meeting for election of elders, Heartz Hall.

Hear report On blackout

Citizens of Prince Edward Island should be prepared to meet a practice blackout that might extend from dusk to dawn by having at least one room properly covered so that they would be able to use lights in case of emergency, was the suggestion advanced by Inspector J. A. Wright, R.C.M.P., director of Police Services, in a report on Monday night's practice blackout to the Civilian Defence Committee A.R.P. yesterday.

The Royal Canadian Mounted Police had four automobile patrols out during the test held between 9:20 and 10 o'clock.

A patrol in the vicinity of Queens Arms by the Cross Roads reported that "the blackout appeared to be perfect." Inspector Wright told the Committee. In the Southport area to the Cross Roads leading to Keppoch, the patrol reported that no lights were visible. However, the same car reported seeing a light at Rocky Point which, although not a very large one, was distinctly visible. A patrol on the Malpeque Highway to St. Dunstan's University reported a "perfect blackout" in that area.

The fourth patrol was in the vicinity of Balvedere Filling Station on St. Peter's Road. "The blackout here was reported 'excellent,'" Inspector Wright said.

"In all these patrols cooperation with the wardens was excellent," he added, "and the wardens were very keen and interested in their duties."

From Summerside detachment of the R.C.M.P. came word that the blackout was "very satisfactory," the report revealed. Some lights were visible in fishermen's shacks on the ice and the C.N.R. yard lights were visible. However, the fire sirens gave the alarm "fairly satisfactory" in this area but the town "could do with added sirens."

Word from Borden also reported the blackout to have been "very satisfactory." All the wardens in this area heard the fire siren which gave the warning signal. However, the signal "might not have been heard" outside the town "unless it was being listened for." The pier and ferry lights were out. Tormentine, on the New Brunswick side of the Strait, also turned its lights out.

Nothing that wardens seemed to be wrong with flashlights during the first practice blackout and that they appeared to be under the impression that there should be no movement of traffic. Inspector Wright pointed out that actual air raid conditions necessitate the movement of transport by medical practitioners, ambulances, clergymen, fire engines, public utility vehicles, police, etc. He suggested that in future that there be a reasonable amount of traffic be reduced to people authorized to drive, also that flashlights be used. This is to reproduce conditions that might be expected to exist in the event of an air raid.

He pointed out, however, that instructions should be that lights of motor vehicles, which are permitted to be visible, should only be capable of being seen at a distance of not more than 500 yards. Lights from flashlights should be reduced to a circle of one inch in diameter, and so screened as to be invisible at a distance of 200 yards. There should be no restriction as to lights on any motor vehicle used by a member of the police, Navy or Air Force, in the course of his duties.

City asks for A.R.P. supplies

A long list of requested equipment for the Fire Department, Police Department and city in general, ranging from trailer pumps to gas masks and sirens, was placed before the Civilian Defence Committee A. R. P. yesterday by the Charlottetown A. R. P. sub-committee. A delegation from the latter waited on the former in the Provincial Building.

There should be no restriction as to lights on any motor vehicle used by a member of the police, Navy or Air Force, in the course of his duties.

City asks for A.R.P. supplies

A long list of requested equipment for the Fire Department, Police Department and city in general, ranging from trailer pumps to gas masks and sirens, was placed before the Civilian Defence Committee A. R. P. yesterday by the Charlottetown A. R. P. sub-committee. A delegation from the latter waited on the former in the Provincial Building.

The provincial committee was asked to requisition the Dominion Government for the following articles which the city would use for A. R. P. work: For the Fire Department—eight trailer pumps, 250 gallon capacity, equipped; one trailer pump, 8000 gallon capacity, equipped; 8000 feet of 1 1/2 inch rubber lined fire hose; 16 siamese wyes, 2 1/2 inch intake to two 1 1/2 inch outlets; 16 hose adaptors from 2 1/2 to 1 1/2 inch; 24 1 1/2 inch nozzles, eight with 3-8 inch tips and 16 with 1-2 inch tips; 130 rubber coats; 130 helmets; 130 gas masks; 24 fire extinguishers.

For the Police Department: 200 arm bands; 30 whistles; 30 flashlights; 150 tin hats and 900 gas masks.

For the city in general: 20 1-2-horse power sirens and one 5-horse power siren, with installation and maintenance provided. The approximate estimate of installation would be approximately \$1,000 and the yearly maintenance and service charge \$600. An amount of cash to promote certain essentials for auxiliary water supply, equivalent to the capacity of the same area and population.

The delegation spokesman was Mr. James A. Fullerton, vice-chairman of the sub-committee and other members were: Messrs H. A. Messervey and I. Y. Reddin.

After the delegation left it was decided, on motion of Mr. A. A. Fullerton, that the report be received and the sub-committee notified that it would be given consideration.

Planes operate From Carrier

MELBOURNE, Australia, Jan. 20 (CP)—Planes from a Japanese aircraft carrier took the war today to the island of New Britain, strategically situated nearly 500 miles northeast of the Australian mainland on the United Nations' route of supply from the east.

Both bombers and fighters struck in force at the air base of Rabaul, the main city on the Australian-mandated island. Air minister S. Drakeford, reporting the midday assault, said the meagre information available indicated that some military damage was caused.

Montague asks For snow plow

The need of a "centrally located" snow plow in the east section of the province to aid A.R.P. work in Montague, Cardigan, Georgetown, Murray River and Murray Harbor, was stressed at a largely attended citizens meeting held at Montague recently. A resolution requesting the Provincial Government to place this snow fighting equipment in this part of the province immediately was unanimously adopted.

The matter was brought up during a meeting held to make preliminary arrangements for practice blackouts. Information that the districts would be supplied with certain fire fighting equipment and first aid material, was given. It was then pointed out that to make these materials effective it would be necessary to have the roads connecting these centers kept open so that it would be possible to move fire fighters, doctors, nurses and casualties. This obligation was stressed by the Provincial Government, it was decided.

The need of establishing the snow plow in these parts, was endorsed by the King's County Board of Trade also.

The text of the resolution was as follows: "That the Provincial Government be asked to supply at once, the first prime necessity for the protection of our people in the above named districts, a snow plow which should be centrally located and the first duty of the plow to be the opening of the roads between the named towns and villages."

Five Pilots Lost In Big Air Crash

LONG BEACH, Calif., Jan. 20 (AP)—The ferry command of the air corps lost some of its finest pilots with the deaths of 15 officers and men in a transcontinental and western airlines transport crash near Las Vegas, Nev., Friday night.

"They might have been the honor roll of the command," a high official who asked that his name be withheld, said today. "They were doing a hell of a fine job."

The officer consented to be quoted after a reporter pointed out
