Canada to Seek Solution of Fuel Problem

OTTAWA, Sept. 27.—A declaration of fuel independence is soon to be made by the Dominion Government. This year's serious shortage of coal as a result of the protracted strike in the United States has taught Canada a lesson which she is resolved to exploit to the fullest extent. Federal fuel authorities have made up their minds that no longer must Canadian industries and Canadian homes live at the mercy of coal strikes in this country. Instead at once seek a permanent solution of the steadily recurring winter's coal problem. The same officials have also come to the conclusion that with in a short time, a period not extending beyond ten years, the American coal market will be opened to Canada, that soon there will be no more coal mined in the United States than will supply the domestic needs.

One of the arguments used by Sweden's wets is the recent prohibition referendum in Sweden which resulted in a victory for the anti-prohibitionists, was that in case Sweden went dry there would be a heavy loss of revenue from liquor taxes, and that other commodities might have to be taxed to make up the deficit.

BLACK CAT ON WITNESS STAND SAVES MISTRESS FROM EVICTION

NEW YORK, Sept. 27.—For more years than it is pleasant for her to think about, Mrs. Matilda Peterson has lived in her three room flat at 152 Steuben St., Brooklyn and has made her living by doing house work for neighbors. But she was queer, they said and for some reason kept a lot of cats about the place. Instead of gas she burned candles. Recently Mrs. Mary Lockhart, the landlord started eviction proceedings against her in the Second District Municipal Court. The case came up Friday before Justice Doughty, who heard Frederick G. Rita attorney for Mrs. Peterson, explain that his client was self supporting and of sound mind though a trifle deaf. Then Mrs. Peterson hobnobbed to the stand with her big black cat, which she called Tom right behind her. "Tom's my pal," said Mrs. Peterson to the Court. "I've had him six years. I've been living alone longer than that, and Tom helps a lot to take care of me and keep me from getting lonesome. I picked him up out of the rain one night six years ago when he was nothing more than a kitten. You know I can't hear very well."
