CANON SCOTT'S BULL. — The instigators of a little joke an Canon Scott at the rifle range during the provincial match last week are now ruefully admitting that their genial guest turned the tables in a most unexpected manner. They had insisted on him taking a crack at the targets while he was visiting them. After futile struggles on his part to escape, he found himself fairly in for it, with a rifle in his hands and a little bit of target five hundred yards away which he was supposed vaguely to aim at with some dim idea of hitting. There was a tense moment. Canon Scott shut one eye carefully took his aim, and pulled the trigger. Down went the target and when it came up registered a bull's eye. Loud were the exclamations of surprise and congratulations—but they didn't fool the visitor. The target man had been instructed to register a bull for Canon Scott's shot and he knew it. And then the real surprise came. Up came word from the targets wanting to know when Canon Scott was going to shoot. The last shot had been a genuine bull! No Canon Scott did'nt shoot any more. The thing was too good to spoil with an anti-climax.

CITY COUNCIL— At the monthly meeting of the City Council held Monday evening, it was decided to place a three foot concrete sidewalk on the north side of Richmond Street between Weymouth and Cumberland, another of the same on the east side of Park Street and an incandescent light on Longworth Avenue at or near the head of Esher Street. The tender of McLellan Bros., for supplying the policemen caps was accepted. A letter from City Enginner Nicholson was read, calling attention to the need of immediately repairing part of the Park breast-work for a distance of 300 feet. A report from City Engineer Nicholson on the progress of the street work showed that the total cost of permanent work to date was $32,975.61 and on street maintenance $8,663.44. Councillor Smith, Chairman of the Market Committee said that the market house had recently been broken in, and the fire extinguishers removed from their racks and the contents poured over the floors. He intimated that measures are to be taken for the better protection of the building. Complaint had been made about the smell from the fish market. This was a matter which also requires attention. A delegation consisting of Captain Malcolm McEachern, and Mr. Charles S. McDonald was then heard with respect to the supplying of the city with gravel from the pit in Surrey. The proposition was discussed by the Mayor, and almost all the Councillors. Samples of the gravel were ordered to be sent to the Milton Hersey Co., of Montreal for examination and the whole matter referred to the Public Property Committee, who are to report later at a special meeting.

STENCILED DRESS LATEST STYLES

LONDON, Aug. 6—The stencilled dress has come to town for a long visit. So far there are only two stencillers, and they are beseiged with orders.

Carlo Norway, a London artist, experimented for a long time with stencilled designs in oils and applied the experiment to a frock. Robert Fox a brother artist, suggested swelling his exchequer by marketing stencilled dresses.

The two combined, and in Norway's studio conceived the designs, cut them in thin brass and put them onto samples of dress material—everything from silk to velvet. All sorts of designs were tried—birds, animals, ordinary geometric designs.

—LAID TO REST— The funeral of the late Mrs. Elizabeth Clarkin, took place Monday afternoon and was largely attended. The pall-bearers were S. A. Hicks, John Grady, T. D. Ramsay, J. A. Brace, Nathan McFarlane and J. S. Allen. Interment to the Peoples Cemetery, Rev. Mr. Mitchell officiating.

—ICE HOUSE BROKEN INTO— The ice house of the Summerside Ice Exchange at the western end of the town was broken into Sunday night and about half a ton of ice removed. The track of a truck wagon was seen the following morning. It is said the owners know the identity of the thief and action may be taken.

—DANGEROUS BRIDGE— The bridge over Hall's brook just to the east of Summerside on the Borden-Summerside highway has been reported in very poor condition and for the past ten days or so, dangerous. Someday, possibly the government will learn that it would pay to make necessary repairs promptly before a menace is created.

—FIXING THINGS UP— A new entrance gate and a renovated fence are among the improvements that have been made to the New Annan race track, under the direction of hustling Jim Pendergast. Big Jim is staging a race meet there on August 17 and is sparing no effort to make it a time to remember.

Fire Situation Serious In Westfield Area

AMHERT, Aug. 8.—After more or less heavy rains today, forest fires in this immediate vicinity were reported tonight to be out. Colonel C. E. Bent, has announced that the assistance of the Provincial Red Cross will be offered to any sufferers by the fires.

General Manager Cumberland of the Maritime Railway Coal and Power Co., put out an all-night guard last night. It was well that he did for at midnight the breeze sprung up and fanned the smouldering woods into a mass of flames. The fire-fighters from Chignecto once more renewed the attack. With shovels they made ferocious onslaughts beating out the advance portions of the fire. The fire crossed the track and advanced a hundred yard but got not further as the villagers fought it like mad men. Besides using the shovels to pound out the flames crews of men working like trojans rushed barrels of water from Little River up to the scene of the fire.

The fight was kept up all night. At 7 o'clock this morning the worn-out villagers had their reward as the all-out was sounded. Very welcome showers of rain began to fall about 9.30 this morning.

HALIFAX, Aug. 8.— General rains sweeping over the flames, scarred districts of Nova Scotia forest, today and tonight prevented further spread of the disastrously extensive conflagrations and allowed thousands of fire-fighters, who have been desperately defending farmsteads and scattered settlements, to stand easy for the first time in many hours. Scores of square miles of valuable forest and farm lands were devastated, hundreds of thousands of dollars worth of property were destroyed, before the welcome showers relieved the nerve-racking anxiety of the settlers in Cumberland and Cape Breton counties.

Forest fires throughout Cape Breton, which died down somewhat during the night revived again this morning under a strong south westerly breeze. Reports from Georges' River, Point Edward Edwardsville, North Sydney, Florence, Reserve, New Waterford and Glace May indicate that the fires are not yet out.

"THE INSIDE OF THE CUP," BIG PICTURE, EXPOSES HYPOCRISY

Specially Supervised by Albert Capellani Photoplay is Based on Winston Churchill's Great Novel

Said to be one of the most remarkable picture productions of the current season ."The Inside of the Cup," a Paramount-Cosmopolitan picturization of Winston Churchill's famous novel, will be shown at the Prince Edward Theatre for two days beginning today. ....

.....When this book was published in 1913, its exposure of hypocrisy among wealthy churchgoers, provoked bitter criticism by the clergy of England and this country. The hero of the story, as in the picture is the Rector of a fashionable church, who disgusted with certain elements of his flock and severely arraigns them for their shame and hypocrisies.

Director Albert Capellani, however, has paid more attention to the dramatic features of the story than to the philosophy which makes the book almost unforgettable. The scenes are thrilling and the heart appeal culminating in the fruition of a love romance, is irresistable. The cast, headed by William P. Carleton and Edith Hallor, is unusually large and artistic.

Quebec Administration Is Severly Criticised

ST. BARNABE, Que., Aug. 7.— "A cynical farce" was the manner in which Mr. Arthur Sauve, leader of the Quebec Oppostionn termed the present administration of the Province of Quebec in addressing a meeting this afternoon at this village in St. Maurice county. The members of the Legislature who were supposed to gather yearly for the purpose of examining what had happened to the public funds never took the trouble to even look at the public accounts, and mocked at the Opposition when information was demanded. Was it not time to change a government which favored its friends, and to which the words of Hon. W. L. MacKenzie King towards the federal Government could be applied? Mr. Sauve quoted Mr. King's attack on the federal Government to the effect that the political, industrial and social life of Canadian was in servitude malicious and hidden influences, and asked whether these words could not be properly applied to the provincial Government.
