Consolidated First Mortgage, 5 p c 30 year Bonds
SHERBROOKE RAILWAY & POWER CO.,
Carrying a bonus of 40 p c of Stock

The City of Sherbrooke is the third largest city of the Province of Quebec, and in addition to being the commercial centre of the Eastern townships, is an important manufacturing centre.

The Franchise under which the Company operates does not expire until 1910, and by its terms the street railway is exempt from municipal taxation for twenty years.

The Company recently purchased three water powers situated in the centre of the City, which are now developed. When this developement is completed the Company, after taking care of the requirements of the street railway, will have a large amount of power available for sale to the numerous industries in and about Sherbrooke.

Full Particulars on application.

Bonds for those e $100 to invest

The large majority of small investors are under the impression that Bonds are only for investors of large amount, such is not the case.

The time was, not so long ago, when most bonds were issued in denominations of $500 and $1,000 this has, no doubt, given small investors the impression that their $100, $200 or $300 were not of any service to the great Railways and Corporations issuing them. However, a great change has taken place in recent years and a number of high grade bonds are now issued in denominations of $100, the small investor is encouraged and is given the same opportunity to invest his savings in these bonds as investors having thousands of dollars to invest; the result is that bonds paying 5 to 6 per cent interest are increasing in favor with small investors.

The investor having $100 to invest has as much right to be given full particulars of the financial position of the Corporation issuing the bonds as the larger investor, and we make it a point to explain to them very fully every point which the most careful investor should know concerning the company, the bonds of which he intends buying.

Write for our list of Bonds issued in denominations of $100.

MAYOR GAYNOR AT THE EDEN MUSEE.

Immediately after the shooting of Mayor Gaynor, the artists of the Eden Musee of New York City began work upon a new wax figure of New York's great Mayor, and the man who attempted to assassinate him. These figures were placed on exhibition yesterday and are attracting much attention. The figure of Mayor Gaynor was made from actual measurements secured shortly after his election. It is perfect in detail, even to the clothes, and has been approved by his intimate friends. It occupies a prominent place, and on account of the great public interest in the tragedy, is the most popular figure at the Musee. The figure of James J. Gallagher, who shot him, was made from sketches and measurements secured in the Hoboken jail. It represents the prisoner in the cringing attitude and remorseful condition he has assumed since he realized the result of his act. Many other new figures and groups have been placed on exhibition at the Musee and the entire collection is thoroughly up-to-date. The figure of the King of Spain is attracting much attention to the group of "Rulers of the World." In the Winter Garden, new moving pictures are shown hourly afternoon and evenings, upon the largest screen and by the best projecting machine in the world. The flicker which usually accompanies moving pictures is so slight as to be scarcely noticeable. Among the new pictures received from abroad are many that will be shown at the Musee exclusively. They include reproductions of great historical events, important meetings of Kings, athletic contests and summer vacations in far-away lands. In addition, there are many humorous and mysterious pictures, which have seemingly impossible situations. Nowhere else can visitors see so many and so interesting pictures as at the Musee. The afternoon and evening concerts are attracting much attention.

STRANGER ASLEEP CREATED A SENSATION.

ST. JOHN, Aug. 16—The rumor that the body of an unknown man had been washed ashore on the rocks below the exhibition buildings last evening, about eight o'clock, caused considerable excitement among the hundreds of persons, the majority of whom were women and children in the neighborhood. There was a general desertion of the locality until upon some men investigating they discovered that the disposed drowned man was a very much alive but sleepy stranger who had been enjoying the cool sea breeze, and had fallen asleep, when the tide was out.

He was made to realize that his position was a somewhat dangerous one, especially as a place to sleep, as the tide was quickly coming in and in due time would have surrounded and covered the rock on which he was lying.

MAKING MOVING PICTURES SPEAK.

When the appropriate sounds are used to accompany the exhibit, behind the scenes at the moving-picture show is an interesting place, according to an illustrated article in the September number of Popular Mechanics. It says:

"Before it is possible to make the pictures speak, the most careful rehearsing has to be gone through. This is done by running the pictures slowly, with full explanations. Words, sentences, disjointed exclamations, imitations and mechanical noises are interspersed, and not until every person knows his part and can read the pictures from behind the screen is the film shown in public. For his cue, the moving picture actor must glue his eye to the rapidly-moving views on the screen, alert to manipulate the proper sound-producing device, or speak at exactly the right moment. Should he be a moment too soon or too late, the realistic effect would be spoiled.

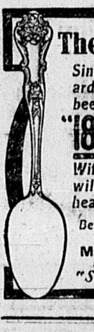
"Among the sound-producing devices used are motorcycles, an organ, wind and thunder machines, bells, whistles, drums, musical tubes and irons, etc."

ROOSEVELT IS DEFEATED.

NEW YORK, Aug 16--Colonel Theodore Roosevelt's name was presented for the temporary chairmanship of the republican state convention at the meeting of the republican state committee to-day, and he was defeated for that honor by a vote of 20 to 15. Vice-President, James S. Sherman was named as temporary chairman of the coming state convention by a unanimous vote following the defeat of the motion to make Colonel Roosevelt the temporary presiding officer. The first ballot gave Roosevelt 15 and Sherman 20, and then Sherman was elected unanimously.

The World's Standard

Since 1847, the world's standard of fine silverplate has been set by pieces marked "1847 ROGERS BROS."



With this name in mind you will be sure of getting the heaviest grade of silver plate.

"Cut Out" Coal Extravagance—

There's just as much room for economy in buying coal as any other necessity of life.

While Inverness Coal has more heat units to the ton than any other coal it costs no more than the common kind.

The use of a little judgment or "horse sense" will tell any person that the coal with the greatest amount of heat-producing qualities is the most economical coal to buy. Inverness is properly screened coal—every particle of foreign matter is extracted, leaving nothing but a good, uniform standard of clean, screened coal.

Buy the coal that will save you dollars.

DAN. J. CHISHOLM OF ST. FRANCIS XAVIER'S KILLED BY TRAIN.

SOMERVILLE, Mass., August 16—Dan J. Chisholm, aged twenty-two years, a student at St. Francis Xavier college, Antigonish, and a noted runner in the maritime provinces, was struck and killed by a train on the Southern Division of the Boston and Maine railroad here tonight. He had been employed as a switchman on the road for the summer and was to return to his studies in September.

KEITH & PROCTOR'S FIFTH AVENUE THEATRE, WEEK OF AUGUST 22, 1910.

More new blood is coming to the Fifth Avenue Theatre for the week of August 21nd. The success attending the presentation of so many new turns during the week of August 15th was most gratifying and vaudeville will be a big gainer by the daring methods employed by the Keith & Proctor forces. Each new act, thus far presented, has been a popular hit and those to come seem already assured of immense acclaim. The feature of the bill of August 22nd will be the joint appearance of that unctuous Hebrew comedian, Barney Bernard, and the well-known boulevardier, Lee Harrison. In combination, this happy duo will present an original sketch, based on facts, "Cohen from Bridgeport," in which the wily Harrison will attempt all sorts of tricks upon the unsophisticated Bernard. It will be Broadway against rural Connecticut and uch wisdom and more humor will be dispensed during the presence of the two comedians before the footlights. Incidentally, this will mark their first Broadway appearance since they were the big features of M'lle Genee's companies. More fresh talent will be disclosed when Elizabeth Brice, dainty singing soubrette, and Charles King, nimble dancer and classy dresser, attempt a bit of musical comedy, done in the vaudeville way. These young folk were recently the features of "The Jolly Bachelors" and "The Yankee Prince" and they claim to know their vaudeville better than their musical comedy. Next will come the celebrated Bird Millman Company in a sensational terpsi-chorean endeavor on the aerial wire. Many a hard-working dancer on ordinary stages or floors has become discouraged after witnessing the daring evolutions of the Bird Millman folk on the bounding wire. Such daring is little short of foolhardy while the skill is truly marvelous. George Austin Moore, perfect dialectician, excellent singer and original story-teller, returns with much new material farce, Moore has developed into one of the most entertaining monologists and he keeps gaining in his art. The real piece de resistance on the heavy program will be the appearance of Dr Herman, the man who tamed electricity, the genius who defies the powers of the deadly current. No one has yet guessed the secret of Dr. Herman's mysterious powers and on August 22nd, he will be at the Fifth Avenue to astound the spectators with his seeming ridicule of all nature's sternest laws. The remainder of the entertainment calls for demure Edna Phillips and her merry company in the now established vaudeville comic classic, "Lost-A-Kiss," while Vittorio and Georgette, the upside down boys, will make their first American appearances. These two agile Frenchmen walk, dance, box and then pull a carriage with their feet suspended in the air. Another new act will be that of George B. Reno & Co. in a hilarious acrobatic talk test and there will be an unusually interesting set of motion pictures.

GOOD TRIP FOR KING.

OTTAWA, Aug. 16—Hon. MacKenzie King sails tomorrow on the Royal George from Montreal to attend various European congresses. He will be at the international gathering on social insurance at the Hague, September 6th to 8th; congress on higher technical education at Brussels, September 9th to 12th; international conference on employment, Paris, September 18th to 21st; international association for labor legislation, Lugano, Switzerland, September 26th to 28th. All of these invitations came from the various governments concerned through the several British embassies and the colonial office.

ROYAL EDWARD WILL HAVE DISTINGUISHED PASSENGERS.

MONTREAL, August 16—Amongst the passengers booked to sail from Montreal on the Royal Edward Thursday morning are Sir Jame Whitney, Hon. Colin Campbell, attorney-general of Manitoba, and Hon Spencer Lyttleton, who came over with Lord Brassey. It is practically certain that Inspector Dew and his party will be on board also, taking Dr. Crippen and Miss Le Neve back to England.
