MCNAMARAS ARE DENOUNCED AFTER THEIR CONFESSION

Labor Unions Pass Strong Resolutions. Want Death Penalty

ST. JOSEPH, Dec. 3.—(By wire)—At a meeting of the Central Labor Council of St. Joseph, representing nearly all the labor unions of the city, resolutions were adopted unanimously demanding a death penalty for the McNamaras.

Indignation is at high pitch among the union men on account of the affair.

NEW YORK, Dec. 3.—(By wire)—From all sections of the country come reports of resolutions passed by labor bodies relative to the McNamara case.

Unions everywhere are hastening to denounce these criminals and are endeavoring by this means to lessen the violence of the blow which this crime has brought on labor interests.

LOS ANGELES, Dec. 1.—James McNamara, pleaded guilty to "murder in the first degree" in connection with the death of Charles Haggarty, a victim of the Los Angeles Times explosion and fire.

His brother, John McNamara, jointly indicted with him, pleaded "guilty" to dynamiting the Llewellyn Iron Works.

They will be sentenced next Tuesday. James McNamara, probably will get life imprisonment, John McNamara will get 14 years.

Within fifteen minutes after the court opened, one of the greatest criminal trials of modern times ended so abruptly that many of the officials, supposedly in heat of matter, did not know it was going to happen.

EXTENDED WHARF ACCOMMODATIONS

WINDSOR, November 30.—Government engineers, Messrs. Russell and Freeman arrived here this week to look over the ground for proposed water-front of this port. For some years Windsor has been hampered in its shipping by inadequate shipping facilities. From time to time the matter has been brought to the attention of the late government but, with the exception of dredging, nothing has been done, except to extend the old government wharf a little but not enough to make accommodations for the heavy shipments from this port.

The proposed extension, if brought to a happy conclusion, will mean the erection of a railway track from the government wharf near D. A. R. station along the waterfront of the Avon river.

LINER BADLY BATTERED

RATS DESTROY WHEAT

MORRIS, Man., Dec. 2.—An entire field of wheat here, which had been left in the stook through the farmers inability to thresh, has been totally destroyed by rats.

In former years the rodents attacked the elevators, but this year, finding the stooked wheat much easier of access, they ravaged the whole field. Nothing was seen of them until the stooks were moved, when it was found that there was a nest of the pest in every stook, from which they knawed the sheaves, the centre sheaves in some places being bitten to pieces.

Prof. Broderick of Winnipeg, to whom one of the animals was sent for classification, describes it as the Norwegian brown rat, and a more dangerous species than the English black rat.

Statisticians claim that if the rats have carried on their operations in places, where like conditions prevail, the loss to the crop might easily reach \$2,000,000.

TO TELL WOMAN'S AGE

CAMBRIDGE, Mass., Nov. 29.—"Neither coyness, nor cosmetics, switches by the way of annex to her crowning glory," nor yet the thirty-third degree in the Ananias Order, will avail to hide a woman's real age from one bent on discovering that point. Her Archilles Heel is her wrist, and foe or friend, by secretly counting her pulse, on whatsoever pretext, can tell whether she be really young or not," was the contention today of Dr. Olanche Denig of this city.

Dr. Denig added: "The pulse of a young adult beats from 70 to 80 times a minute, a young woman's about eight times more than a young man's and the pulse of an adult past youth but not yet really old beat about 10 fewer a minute."

ELOQUENT DIVINES IN THIS CITY

At St. Peter's Cathedral yesterday morning the pulpit was occupied by Canon Gould General Secretary of the Missionary Society of the Canadian Church, who took for his text Isaiah, 33: 17—"Thine eyes shall see the King in his beauty: they shall behold, the land that is very far off," or "The land of far distances."

Canon Gould dealt chiefly with the work being done along missionary lines, in connection with the Church of England, in Palestine and the Holy Land, where he has been located for 12 years. He drew an eloquent word-picture of the grandeur and beauty of the scenery as viewed from the summit of the Mount of Olives, and the religious inspiration received by one beholding these historical far-distant lands, associated, as they are, with the beautiful story of the Man of Nazareth.

An instance of the work being accomplished by the Church of England is the fact that in the last year the attendance at the Mission Hospitals in Palestine numbered over 150,000 souls. He closed with a touching incident illustrating the wonderful power of the gospel upon the mind of a patient one of the hospitals, upon whom the relating of a simple story of the gospel worked a complete religious transformation.

In the evening the sermon was preached by Archdeacon Reinson, of Moose Port, from the 8th verse of Genesis, Chapter 12: "And Abraham pitched his tent and there he builded an altar unto the Lord." The Archdeacon said that he desired to speak briefly on the subject of Canada, her history, her future and her ideals. If the eighteenth century, he said, witnessed the imperial growth of England, the nineteenth century of the meteoric rise of the United States of America, surely Canada would seem to have the first claim on the twentieth century. Canada stands today in the morning of her destiny. The gospel of Jesus-Christ must be taken to the whole world, and Canada must do her share. Fertility of the soil, commercial supremacy, wealth of forest or mine, will not make Canada great, nor yet will a standing army, nor a navy triumphant upon the seven seas. But her true greatness will come when her wealth is that of God's Grace; her supremacy that of true Christianity.

The Minister of the Interior said he did not think the scheme could be undertaken by the Government, though it might make a grant for the purpose to some qualified body such as the Teachers' Empire League.

The church felt that owing to word that Mr. Herman gave to the Emmanuel church, of Truro they could not, but in all honor, accede to Mr. Herman's request, although with very great reluctance.

WEDS GIRL BARBER TO GET GOOD SHAVE

SEATTLE, Wash., Dec. 2.—"Shave please, and I'm in a little bit of a hurry" So said Chester O. French to the nearest barber he had ever seen, as he hastily took off his collar and climbed in the chair. Miss Florence Tarbell was the person addressed, she smiled and proceeded to show that she was quite as good at wielding a razor as any man.

She worked deftly, but so carefully that soon she had exceeded the time French had set for the task, but he never had had such a nice shave and didn't seem to mind. When Miss Tarbell had concluded French dared her to have him for life, and as she couldn't take a dare she took him. The Rev. E. F. Dunlap was summoned and they were married in the shop, which is conducted exclusively by women.
