One of the principal industries in Minnesota is the fattening of live stock for market. And in that State today, the most envied children are 16 juvenile farmers who, because of their proficiency in the art of feeding live stock, were the guests last fall of the Great Northern railroad on a six-day tour of Minnesota and North Dakota in a special "de luxe" train. Each of these youthful farmers was accompanied by his or her prize-winning head of fat live stock.

Ten years ago, far-sighted business men and educators of Minnesota organized an annual Junior Live Stock show at South St. Paul—a live stock exposition in which exhibits may be entered only by the farmers of tomorrow, the farm boys and girls of today. The project was an immediate success and last November, at the most successful show in ten years, more than 500 Minnesota boys and girls exhibited live stock. Since only exhibitors who won prizes at their county fairs may show at the Junior Live Stock show, these more than 500 animals were the very best picked from the finest in the State.

When the judging was concluded, the entries were placed on the auction block and St. Paul and Minneapolis business men purchased the prize animals at unheard-of prices. The champion steer was sold at 80 cents a pound for a total of \$777. Another steer, exhibited by a 14-year-old girl, was sold for \$859, or 71 cents a pound. The champion hog, brought by a youthful farmer \$438 for his summer's work. When the auction was concluded, virtually every large business house in St. Paul had purchased one or more of the entries.

Then Louis W. Hill, chairman of the board of the Great Northern railroad, and son of James J. Hill, "The Empire Builder," had an idea. "These prize-winning children," he said, "are heroes and heroines in the eyes of all the other farm children in the State. Why not send them out with their prize animals to show other children what they can do and to tell them how to do it."

The plan was enthusiastically endorsed. Four days later, every one of the 16 children left St. Paul on a special train which included a sleeping car, a diner, and a palace horse car for the animal nobility. And what a time they had! Many of the young farmers had never slept in a sleeping car or eaten in a dining car. From every indication, they were the happiest 16 young farmers in the United States.

The six-day itinerary of the tour included 21 cities and towns in Minnesota and North Dakota and at every one of these stops the special train received as warm reception as the spectacle operated by Messrs. Ringling. In every community visited, schools were dismissed so that every child for miles around might attend the show and from the size of the crowd that greeted these barnstorming agriculturists in every town one judged that every child for miles around took advantage of the opportunity.

Brass bands turned out in full gala. Local talent participated in entertainment programs. The traveling farmettes did their share by pointing out the fine points of their exhibits and explaining in detail how valuable beef, pork or mutton may be grown. They advised their young auditors to "come on in." And the admiring auditors replied in chorus, "We'll be with you next year."

Viewed from any angle, the first annual tour of the Junior Live Stock show exhibitors was a complete success and a similar demonstration tour, Mr. Hill has announced, will be conducted by the Great Northern railroad as a grand finale to every Junior Live Stock show of the future.

The tour, however, was simply one of many lines of endeavor to make the boys and girls of today into men and women, better farmers and farmers' wives, in the future. In December of each year a National Boys' and Girls' Farm Club Congress is held in Chicago in connection with the International Live Stock Exposition. Last December, President Coolidge sent a message to the 1600 boys and girls assembled, representing clubs with a total membership of over 700,000.

Minnesota was one of the first northern States to organize for this work and the Minnesota clubs now have an enrollment of 23,000 boys and girls. T. A. Erickson.

Col. De Pinedo, Italian airman, who is now in the midst of his audacious plan of flying over four continents. Leaving Europe he will fly to Africa, then across the Southern Atlantic to South America. His latest leap has been as far south as Sao Paulo and he plans to proceed to Buenos Aires. Later he intends flying to the United States west coast and across the continent, visiting also the eastern part of Canada. He is here shown with Hon. P. E. Baldo, Italian air minister at Cagliari, Sardinia, just before starting on his flight.

General Sun Chuan-Fang, dictator of Shanghai, who had made himself so powerful, with Chang Tsung-Chang, Shantung's Mussolini. The latter, who is one of the most hated and feared men in China, well as one of the most picturesque, will undertake its defense against the Cantonese.

Builders Of A New Empire

MORSES TEAS
ALWAYS PLEASE

They have done so for 56 Years

Hon. Rodolphe Lemieux, Speaker of the Canadian House of Commons, from a recent photograph.

Each club has a regular plan of organization, officers, plan of work, meetings with each member carrying a definite home or farm enterprise and endeavoring to use the better methods of agriculture and home economics in developing his or her project. Each club has an adult leader or adviser who works with the local committee. The committee is a part of the county extension service, working directly with the State Extension Service of the College of Agriculture, which in turn cooperates with the U. S. Department of Agriculture in promoting this work as a very important part of the educational program for better agriculture and more happy, prosperous homes.

"We have ten fundamental projects which our club members use as their club projects. In live stock, each member raises a baby pig or a dairy calf, or some lambs, pigs or poultry. In the crop line, each one grows from one to five acres of corn or one to eight acres of potatoes or a good sized home garden or an alfalfa plot. In the home work the girls learn how to bake, sew and can."

"It is interesting to note that almost as many girls join the stock clubs and feed calves, lambs or hogs as join the home economics clubs. This means that in the future many farmers' wives will be real partners in the business, able to discuss intelligently farm problems."

"Each member keeps careful records of all operations, including cost of feed, labor and profits. These records are very important in presenting results to the community."

"The state program for Minnesota includes: 1—Club short courses at the Agricultural colleges at St. Paul, Crookston and Morris; 2—Club Department with exhibits at the State Fair which gives 1100 county club winners free trips to the Fair; 3—The Junior Live Stock show; 4—Club department in connection with the annual meeting of the state horticultural society when county and district winners in the garden, potato and canning clubs come to St. Paul as the guests of the society; 5—Inter-state club meeting at Sioux City, Ia., when winning teams from 12 states compete; 6—National Dairy Exposition at which, in 1924, Minnesota had 47 dairy club members out of 200 club winners representing 25 states.

"Last year, we had 2100 dairy club members, each with a high-grade or pure bred dairy heifer. Many of these were of farms where it was the only good animal. For countless generations, agricultural training has been too much on the order of "Ask Dad—he knows." And too often, Dad didn't know. The result, in many cases, was that Son farmed exactly as his great-great-grandfather or left the farm. Times changed but farming didn't."

Some epigrammatist has observed that the boy is father to the man. And it is on that unquestionably true premise that club leaders are working out the salvation of agriculture in America.

GREAT OPTIMISM SHOWN BY STURDY CENTENARIAN

LONDON, March 18.—The man who on his 100th birthday ordered a new suit with two pairs of breeches has been described as a super-optimist. On his 101st birthday today, John Fitzpatrick of Bermuda, walked to church in a new blue suit, which with boots and cap, was a birthday gift from his son and daughter-in-law. Despite a bitterly cold wind, Fitzpatrick kept up the lifelong practice of wearing no overcoat.

WEAK MEN

Take Our Herbal Remedies Book on Skin Diseases. New Treatise on Chronic Diseases by Herbal Remedies. Pamphlets on Loss of Manhood and diseases of men. Booklet on Female Health and Advice, free by mail. 50 years' experience. (Without criticizing or disparaging your doctor, write us before losing hope.) Treatment by mail our specialty. English Herbal Dispensary Limited. 1320 Davis, Vancouver, B. C. Canada's Oldest Herbarium.

Messrs J. A. McDonald, South Lake, and Victor Beaton, South Point were among last week's visitors to town.

Mr. Bernard Creamer of Souris, was a visitor to the City, Wednesday having his brother William of Melville Road, conveyed by ambulance to the City Hospital. Mr. William Creamer has been in poor health for some time, however good hopes are held out for him with proper treatment.

Messrs James Condon, Souris, and Albert Kearney, Souris, were on a vacation last week renewing old acquaintances in Murray Harbor, Murray River, Sturgeon, Panmure Island, etc.

Messrs C. C. Thompson, J. J. Johnstone, W. Boulter were visitors to Souris last week.

Friday, the 11th, was a "big" day in Souris; an exceptionally large number of persons being in town. Business on all lines was brisk.

The Rollo Bay Dramatic Club staged their play, "A Country Kid" in Annandale Hall last week. This week the Little Pond Dramatic Club put on "Fineman's Fortune" in Rollo Bay Hall. St. Patrick's Night in Souris the play "Gilded Youth" will be presented. Play lovers are right in clover this season.

Mrs. Etta McDonald, Souris, and her brother George were week end visitors to Little Pond.

B. Creamer and wife were among the visitors to Fortune Saturday evening.

Mr. Russell Poole, Souris, was in Rollo Bay this week.

Mr. and Mrs. E. Frances passed through Souris, Friday en route to Bothwell.

Mr. and Mrs. George Wood, Rollo Bay West were recent visitors to Bay Fortune.

Miss E. Johnstone, Teacher at Kingsboro was a visitor to Fortune Bridge, Saturday.

Mr. Ernest Dingwell, Souris, was on a business trip to Fortune last week.

Mr. Lorne Keefe, Little River, spent Sunday with friends in Marie.

Friends of Mrs. John Turner, Souris, who has been in the Hospital for some time will be pleased to hear that she is sufficiently recovered to return to her home.

Bevy of Beauties on C.P.R. Trip

Here they are all piled up on the gangway after their 29-day voyage to the West Indies and the northern countries of South America on the C.P.S.S. Montroyal which has just docked in New York. On their voyage they touched at thirteen countries and fourteen ports and the weather was perfect during the whole trip. They left New York in the height of the northern winter and within twenty-four hours were within the summer zone of the Bermudas and they enjoyed the amenities of summer for four full weeks until they got back to a climate which was then beginning to show some signs of spring. Those that accompanied them must have had a good time, irrespective of climate, judging by this photograph.

buy
McLaughlin-Buick
for
power

GRADES far steeper than any found in ordinary driving offer no obstacles to the resistless power of McLaughlin-Buick's Valve-in-Head Engine.

Seventy-five actual horsepower is beneath the hood of the Greatest McLaughlin-Buick—yet so flexible, so easily controlled, so responsive, so vibrationless, that you are unaware of the presence of an engine and realize only that a tireless force is working to your will.

How little the McLaughlin-Buick owner is concerned with this masterful engine may be judged by the facts that he need change the oil only *once a season*—that troubles due to crankcase dilution, the presence of dust, grit or water are eliminated by the Crankcase Ventilation system, the Sealed Chassis and the Triple Sealed Engine—a combined protection found in no other car at any price.

So, for power—abundant—untiring—dependable—flexible—smooth—buy McLaughlin-Buick.

SAINT JOHN - HALIFAX

VERY HARD LARGE PIMPLES

Spread Over Face and Hands. Cuticura Heals.

"My trouble began with a few pimples on my face and hands and soon spread all over them. The pimples were very hard, large and red, and festered and scaled over. They itched and burned so that I scratched them, which caused eruptions. My face was disfigured, and I could not put my hands in water and could hardly do my work.

"A friend advised me to try Cuticura Soap and Ointment so I purchased some, and in about two months I was completely healed."

(Signed) Miss Jennie Ducharme, 481 Giroux St., Newwood, Man.

Cuticura Soap, Ointment and Talcum are all you need for everyday toilet and nursery purposes.

Sample Each Free by Mail. Address Canadian Depot: "Shastona, Ltd., Montreal." Price, Soap 25c, Ointment 25c and Talcum 50c. Cuticura Shaving Stick 25c.

HOBBY SHOW AT THE Y

Entries for the rabbit show are coming in thick and fast, already there are over 12000 entered with quite a few not yet heard from.

Rabbits must be in place before six o'clock.

They can be taken away any time after nine thirty.

Judging commences at eight o'clock sharp.

Crates are being provided. If you are interested drop in and see the pens.

Only "Y" members allowed to exhibit.

Lose a Pound a Day This New Easy Way

It's last an absolutely safe and easy way to reduce.

No drugs—no diet—no exercises—no thyroid extracts—no baths—no rubber garments—no salves, ointments or lotions—no trouble, inconvenience or danger.

Makes you feel better and look better. Gives strength, energy and vitality. Write to-day for FREE booklet and guaranteed trial offer.
