

To Day The Fat Man is keeping His Face young

No Face Should Smart After Shaving

The daily shave should leave the face feeling thoroughly refreshed—smooth as velvet to the touch. This means a freshly stropped, super blade which will remove the beard once over "lick and clean." The dull unstropped, scraping blade causes smarting, injures the skin and soon brings premature indications of age.

The Valet AutoStrop Razors its fine, sharp blade to super keenness in a moment, just as a razor should be for the most tender face, the toughest beard and for the quickest shave. No taking apart for stropping, shaving or cleansing.

This Valuable Book is Yours WRITE TODAY for your copy

GUARANTEE

We are anxious that every user of a Valet AutoStrop Razor be constantly enthusiastic. Should anything happen to your razor affecting its perfect service, just send it to us and we will restore it to a new-like condition without charge.

Shaves Tender Faces without Injuring the Skin

Central Guardian

HIGHEST PRICES paid for live poultry. Harris Abattoir Co. 8969-9-6-11.

WE WILL BE LOADING LIVE Hogs at St. Peter's on Wednesday October 5th. Signed C. E. Pratt & Son, St. Peter's. 9469-10-13-11

NORTH WILTSHIRE SHIPPING CLUB—Markets ending September 20 H. Power heavy duty Bruce Smooth, 9 cents per lb. Heavies, 9 cents per lb. Sows, 7 cents per lb.

FOR SEPTEMBER WE ARE offering for every yearly new or renewal subscription received choice of a Lady's Shopping Bag or an Auto Strop Razor and Utility Knife. Don't miss this opportunity.

CHURCH OF SCOTLAND—Rev. Ewen MacDougall, B.D., will preach Thursday, 6th, at Argyle Shore, at 7 p.m., and Friday, 7th, at Bangor, at 7 p.m.

USEFUL PREMIUMS are now being offered by the Guardian "Lady's Shopping Bag" or Auto Strop Razor and Utility Knife free and post paid to any address in Canada. Send in your yearly subscription today and get your choice.

MURRAY HARBOR Presbyterian Church services will be held next Sabbath as follows:—Murray Harbor North 10.30 a.m.; Cape Bear 2.30 p.m.; Peter's Road, 7.30 p.m. Rev. D. T. O'Meara, Minister.

HARD COAL FOR BASEBURNERS—The schooner "Esthonia" sailed from New York on the 26th with a cargo of D. M. & W. Chestnut Coal for A. Pickard & Co. Household users using hard coal will save money by buying now.

THEFT AT NORTH WILTSHIRE—On Tuesday night last, the home of a respectable aged couple, brother and sister, at North Wiltshire, was broken into and a sum of money, \$22.50 stolen. The money had been carefully saved out of scant earnings during the summer, to purchase supplies for the coming winter. Strong suspicion points in a certain direction and the neighbors insist that steps should be taken to trace the theft to its source.

ATTENDED W. M. S.—Mrs. Edward Henderson of Murray Harbor North, has returned home, after attending the annual meeting of the Woman's Missionary Society, held at St. John, N.B. She was a guest at the Royal Hotel. She was accompanied by Miss Reta Sharam of Murray Harbor, who attended the Millinery Opening in St. John. She was a guest of Mrs. N. Macleod of the Dufferin Apartments.

EXHIBITION NOTES—At the Provincial Exhibition, held last week, the Ayrshires made the largest display of any of the dairy breeds with 150 entries, winning all the specials but two, and the silver shield donated by Prowse Bros. Rev. R. W. Lindsay, and was large, all the breeds competing being entered the third time the Ayrshires have won this trophy.

KINROSS—Mr. and Mrs. Ollie Shreanan, Kinross, Mr. and Mrs. John M. McKenna, Emerald, and Miss Doris McKenna, Kinkora Mr. and Mrs. Doris McKenna, Emerald motored to Charlottetown Thursday. While in the City they attended the Exhibition. Miss Anne McKenna, R.N., was a visitor to the City on Tuesday. Miss Mary Harold, nurse in Training, Charlottetown Hospital, spent a very pleasant holiday visiting her friend, Miss Anne McKenna, R.N., Kinkora. The stork paid a visit to Parnell and Mrs. McCarville, and left them a bouncing boy. Congratulations.

NEW BOAT LAUNCHED—The writer had the pleasure to be present on the 15th of September to witness the launching of the Ethel L., designed and built by that master builder, Mr. P. A. Rooney of Souris, for Mr. Daniel Taylor the potato king of Nine Mile Creek.

Touchy Corns Relieved By Marvel Liquid

Instantly the ache stops—the pain goes away,—that is the immediate effect of Putnam's Corn Extractor. Paint the corn or callous with "Putnam's" and the corn will shrivel up. After a new application of "Putnam's" the corn will drop out. No pain, or disappointment. Putnam's does the work—a sure pop corn remover. Get a bottle from any druggist. Refuse a substitute.

SWAT THE FLY

Is a good slogan but we have something better. You will get rid of them sure by using

FLY TOX

It will kill many times more flies than any other fly-killer for the money. Harmless to everything but deadly to the flies.

Try a bottle once and you will use no other.

Harold L. Worthy
Sole Agent for Dr. Allan's Fly Remedies

PLAIN MR. YORK OF YORK, YORKS, is bringing you Something

The dimensions of the Ethel L., are 46 ft over all, 12 ft beam of shoal draft type. She is powered by a Selects 9 1/2 cents per lb. Thick Stewart engine, installed forward in the wheel house, which leaves the clutch lever and the controls within easy reach of the man at the wheel, so she can be easily maneuvered by one man. All aft of the wheel house will be used for freight. The writer understands that Mr. Taylor intends to use her on the Bonshaw-Charlotta ferry service, two days of the week, the balance of the week freighting seed potatoes for the farmers along his route. This outfit is a credit to both owner and builder, and his friends wish Mr. Taylor every success with his new boat and his undertakings, and feel the Ethel L. will prove all that is asked and looked for in a boat of that type.

PERSONALS

Misses Jennie Cousins, and Doris MacPherson, students at C. B. C. spent the week end in Kensington.

Rev. W. Bruce Muir, left for Moncton yesterday afternoon en route to attend the Maritimes Synod at St. John, N.B.

Rev. D. V. O'Meara of Murray Harbor North, left yesterday for St. John, N.B., to attend the meeting of the Maritime Synod.

Mr. and Mrs. Robert Reeves, and daughters, Misses Videssa and Elva, Freetown, and Mrs. Wm. M. Graham, Bradalbane motored to the City yesterday.

Mr. L. D. McLean of Sydney has returned home from P. E. I., where he spent a pleasant vacation visiting relatives and friends at his former home.

Hazelbrook And Vicinity

Mr. and Mrs. Ford and family, of Moncton, are spending a pleasant vacation here, the guests of Mr. and Mrs. H. A. Jenkins.

Mr. G. H. Carver and Mr. George Jenkins, made a business trip to Bethel last week.

Mr. George Smith, Milliview, was a visitor to Lake Verde recently.

Mrs. Charles Hamm and daughter, Jean, and Mrs. Mellett, City, were visitors here Sunday.

Service here at the Baptist Church on Sunday evening, Sept. 25th, was conducted by the pastor, Harold Carver, and was large, all the brethren were present. The speaker delivered a most inspiring and helpful sermon which left a very lasting impression upon those who had the pleasure of listening.

PERSONALS

Miss Isabel Conroy, Tignish, returned home Saturday after spending the week in Charlottetown, V.

Miss Mary Morrissey who spent the last month in Tignish, left Thursday on return to Boston, V.

Mr. and Mrs. J. A. Bernard, Tignish, was a visitor to Charlottetown, attending the Exhibition, V.

Miss Edna McInnis, Tignish, left Thursday for New York, V.

Mr. Elmer Roberts, principal of Albany school, made a short visit to Charlottetown, on Sunday.

On Sunday, Mr. and Mrs. Aloysius Roberts, Miss Alice Sherry and Mr. Damian Shreanan of Kinkora, motored to the City where they spent a pleasant afternoon with their sister, Miss Pearl Sherry.

Mr. Phil Noonan, Manager of the Provincial Bank, Charlottetown, spent Sunday in Tignish, V.

Mr. and Mrs. J. B. Myrick and family, Tignish, arrived home Saturday after spending their holiday days in Boston and other cities, V.

THE TANNER'S SUIT.

A good example of genuine humility is that of President Faure, at one time the head of the Republic of France. He had been a tanner and when he rose to his exalted position, he kept his old tanner's suit in a cabinet to remind him of the time when he was a poor man and an obscure worker with his hands. If he had been ashamed of his earlier calling, and desirous of hiding it, he would probably never have had the manliness to become chief of one of the world's greatest nations.

Those that are poor in spirit are rich in good sense, and wealthy in human brotherhood. They realize that the only genuine wealth is character. They know that "rank is but the guinea stamp; the man's the gold, for a' that." They do not think less of a man for being rich, or for being poor; they think of men in terms of manhood, not in terms of money.

Christ promised the Kingdom of Heaven to those that are poor in spirit.

AUSTRIANS LIKE OUR FLOUR

"Austrian bakers have discovered that with the use of Canadian flour they can make more and better bread. The prohibition of night baking also favors the employment of fast-baking flour," says the Commercial Intelligence Journal.

EYES TESTED

That Car Of Yours

By WILLIAM ULLMAN
How to-Heart Talks With Automobile Owners and Drivers on How to Get the Most Out of Their Cars at the Least Expense.

OLD PREJUDICES COSTLY

When buying a new motor car many individuals automatically eliminate certain makes because of prejudices built upon weaknesses the car was known or rumored to have had at one time. These prejudices lose sight of the fact that the tendency in motor car manufacture is to convert former weaknesses into the greatest strength. It pays to look into the changes that have been made in such cars, for failure to do so often leads one away from the car most ideally suited to one's needs.

FRICITION TAPE MAY HELP

Try friction tape the next time a stubborn lens refuses to budge when it becomes necessary to change a bulb or clean a reflection. Lenses that have not been removed for some time may rust fast to the lamp. Wrap the tape around the rim and give it a sharp pull. It will be found one of the easiest ways to turn the trick.

LEAVE ELECTROLYTE ALONE

The temptation to treat the battery to a new dose of electrolyte becomes strong at times. The motorist who is interested in preserving the life of a good one, however, will find it is especially familiar with what he is doing, there is strong likelihood of making the mixture too strong, with the result that the life of the plates will be considerably shortened.

WEDDING BELLS.—A very pretty wedding took place at 224 Sydney St., on Monday morning, Oct. 3rd, at 5.30 o'clock, when the pastor, Rev. Hammond Johnstone, united in marriage, Vera M., youngest daughter of Mr. and Mrs. L. J. Worthing, and Mr. Edward A., youngest son of Mr. and Mrs. Neil MacNevin, Stewart St. The bride, who was given in marriage by her father, looked charming in a gown of beige crepe and carried a shower bouquet of pink roses. The bride's maid was Miss Marion Goudin who carried a bouquet of pink roses. The bride and groom were accompanied by the bride's father and mother, and the groom's father and mother. The ceremony was performed in the presence of a large number of guests.

AVOID DRIVING EXTREMES

Many motorists make the mistake of allowing the car to struggle in high gear when climbing a steep grade. Others go to the other extreme and climb up in low gear with the engine racing. A happy medium, which does not mean second gear in all cases, is more to be desired. Always use the combination in which the engine pulls with the least effort. It may be anyone of the three, and the motorist's judgment will decide which it is to be.

COAST OVER LOOSE STONE

Loose, crushed stone is about as hard a driving surface as automobile tires are called upon to traverse. There is a way to cross, however, with a minimum of damage. When approaching such a stretch, pick up enough speed to permit coasting across. This will save the motorist the normal wear and tear of the tires when the car is pulling. If the stretch of stone is too long to permit coasting, cross at a moderate speed.

SUSPECT THE SPLASHERS

Mysterious rumbles in the side of the car that occur only at certain speeds are hard to locate. In such a case, the splash pan may be suspected. Working loose from the running board, vibration sets up an annoying rumbling noise. The obvious remedy is to fasten the pan again to the board. It probably will require longer screws than originally were used.

LET VALVE BE A GUIDE

The valve stem can be excellent assistant when the front wheel bearings are being tightened. The wheel should be left sufficient free so that the valve stem will cause it to rotate until the valve is at the bottom. The adjustment should be made so that no more than a suspicion of side-play is visible.

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

GENERAL

Practically all wheat in the Prairie Provinces has been cut and good weather is now required for threshing. In Alberta the yields and grades are coming up to expectation, but in Saskatchewan while the yields are average there will be more of the lower grades than usual. The crop in Manitoba is poor. In Quebec harvesting and threshing operations are rapidly approaching completion and crops in general are satisfactory. In Ontario, threshing operations have been well advanced under favorable weather conditions and yields of the principal crops are good. In New Brunswick and Prince Edward Island good weather for harvesting has improved the crop outlook but in Nova Scotia adverse conditions have prevailed over a large area. In British Columbia improved weather conditions have greatly benefited crops and the threatened heavy loss has largely been offset.

PRAIRIE PROVINCES

ALBERTA WESTERN AREA—Wheat all cut except in a district south of Lethbridge where cutting is now progressing favorably. Threshing not sufficiently advanced to determine generally the grades and yields but reports to date are satisfactory. **ALBERTA NORTHEASTERN AREA**—Wheat is all cut. Threshing will not be general until the first week in October but from threshing reports received the yields are reported favorable.

MONEY FROM "MAD" LITIGANTS

A Marseilles lawyer bequeathed 1,500 pounds to a lunatic asylum. In a codicil he made the following explanation: "I have earned this money from madmen who pass their lives quibbling and fighting lawsuits. I consider, therefore, this legacy a restitution."

Clearing Film from Teeth Whitens Surprisingly

Restores cloudy teeth to clearness

Please accept full 10-day tube of this new dental achievement, urged by world's authorities. Note the difference in the color of your teeth and health of your gums when film is cleared off.

and gum troubles. Ordinary pastes and dentifices will not successfully remove it. That is why, in old days, so many smiles were ruined by ugly teeth and toneless gums. Now, thanks to modern science, there is a way to combat that film.

Just obtain a tube of the dentifrice called Pepsodent at your druggist's. Clear off that film tonight; clear white teeth are beautiful. Note the amazing difference in your smile. You'll be thankful for the suggestion. For thus you can change your whole appearance.

FREE Mail Coupon for 10-Day Tube to THE PEPSODENT COMPANY Sec. AC-2405, 191 George St. Toronto 2, Ont., Canada

MARITIME PROVINCES

Oats will be an average crop. The damage to potatoes due to prolonged wet weather cannot yet be ascertained but the marketable crop will be under average. Nova Scotia apples are coloring well and are growing to a large size. Suitable weather to mature the fruit has prevailed for several days. The yield will be over 60% of a 5 year average and the market appears to be satisfactory.

PROVINCE OF BRITISH COLUMBIA

Threshing is practically completed. The yield is still estimated to be below average. Roots and other vegetables are making a good showing. Apples are unchanged at 75% of an average crop, prunes 55% and hops 110%. Pasturage is excellent.

MUST LIVE MODEL LIFE THREE YEARS OR GO TO PRISON

SCHENECTDY, N. Y., Oct. 3.—Fred Greenwood must be home each day for the next three years at 9 o'clock. He must not get drunk. Pastures are in good condition and feed plentiful.

THE KAIETEUR FALLS

The Kaieteur Falls are the highest in the world, being more than five times the height of Niagara. They are situated 250 miles from Georgetown, the capital of British Guiana, our only South American colony, known for its Demerara sugar all over the world.

PROVINCE OF QUEBEC

Throughout the Province grain crops are on the average satisfactory both as to yield and grade. Root, vegetable and fodder crops are also generally good with the exception of corn and potatoes. Apples and other tree fruits are below average. Cutting of tobacco has been practically completed and night for the next three years at 9 o'clock. He must not get drunk. Pastures are in good condition and feed plentiful.

PROVINCE OF ONTARIO

The yield from fall wheat is somewhat lower than was expected but oats and barley are fully up to average. A light crop of second growth alfalfa is now being cut. Good weather in September improved the ensilage corn and silos are now being filled. Winter apples and pears are light and grapes are about 80% or average crop. Potatoes, turnips and sugar beets are good and beans are an average crop of good quality. From 80% to 90% of a splendid tobacco crop is under cover in good condition.
