

## LIFE A BURDEN.

The Condition of Mr. Gardiner, Smith's Falls.

He Spent Miserable Days and Sleepless Nights—Hands, Feet and Limbs Stiff and Swollen.

From the Record, Smith's Falls, Ont.

"There is wonderful talk about Dr. Williams' Pink Pills, why don't you try them?"

These words were addressed to Mr. Andrew Gardiner, of Smith's Falls, by a friend when he was in the depths of despondency regarding his physical condition. For three years he had suffered so much that life had become a burden to him and often times he says, he almost wished that he might die. Then he spent miserable days and sleepless nights, now he is enjoying life. Then his feet, hands and limbs were stiff and swollen and he was tormented with a constant stinging, creepy sensation in his body which gave him no rest day nor night, now he is as supple as ever he was, with the stiffness, the swelling and the creepy sensation all gone. He attributes it all to the use of Dr. Williams' Pink Pills.

Mr. Gardiner is a man of about 65 years, an old and highly respected resident of Smith's Falls. Having heard a good deal of talk about the improvement effected in his health by Dr. Williams' Pink Pills the Record sent a reporter to ascertain the exact truth and Mr. Gardiner told him substantially what is related above. He said that he tried a number of doctors—good doctors as there were in the country—but got no relief. He was given to understand that the trouble was caused by bad circulation of the blood, but nothing did him any good. He could not wear boots his feet were so swollen and when he tried to walk his legs felt like sticks. Finally he was induced to give Dr. Williams' Pink Pills a trial. He took six boxes, he said, but did not see that he was much better. He determined to quit taking them but was persuaded to continue them for a little while longer. When he had taken ten boxes he was greatly improved and when he had taken twelve boxes he was so well that he did not need any more. It is several months since he has taken them and he has had no return of the trouble. When the reporter saw him he was wearing his ordinary boots and he said he could get into and out of a buggy as well as any man of his years in the country.

Dr. Williams' Pink Pills are the friend of the weak and ailing. They surpass all other medicines in their tonic, strengthening qualities, and make weak and despondent people bright, active and healthy. These pills are sold by dealers in medicine, or can be had, post paid, at 50 cents, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville Ont.

## EASTERN CROP REPORTS.

(Compiled specially for THE GUARDIAN.)

The dry weather which we experienced in common with the rest of the Maritime Provinces seriously affected the feed supply for the coming winter. While there was a probability of a shortage last spring, and the local Shylocks were beginning to put on the big prices an overruling Providence gave us a remarkably early spring, and much of the feed laid on the Shylock's hands. The seeding was done early but the dry weather matured the crop at a remarkably early period at the expense of the straw. Harvesting was generally completed in August, the earliest ever known in this part of the country. The showers which visited Queen's and the eastern part of King's counties did not come this way, hence the shortage in the hay crop. Potatoes were a fair crop but nothing like the average of former years was planted on

account of the ravages of the bug. A scarcity of paris green again at a critical stage injured the quality and reduced the quantity. Turnips are a fair crop but not a very large acreage was planted. Corn is a good crop, as the hot dry weather suited, but not many planted it on account of the failure of other seasons. On the other hand farmers were increasing their herds, and carrying all the stock possibly but this fall they are shortening their herds at a sacrifice. But at present it looks as if he who tempests the wind to the shorn lamb is going to favor the country. We are now in the last week of November; the weather is nearly as fine as mid-summer, sheep are still grazing in the fields, the cattle are chiefly housed, but still provide the larger part of their own living, hence a large quantity of fodder is saved for the colder season, but however fine the weather keeps there will be no hay or straw to spare here.

## ONE MILLION EMIGRANTS.

LONDON, November 27.—from the latest reports it seems that the emigration of Russian emigrants to Siberia—their Colonial Empire—is being carried on with great success and on model lines.

During the last five years the Siberian railroad has enabled Russia to successfully help 1,000,000 peasants over the Urals and establish them as small farmers in Western Siberia. The government's method has been to select suitable persons from each locality and send them as pioneers into Siberia to choose such land as would be fitted for the pastoral or agricultural occupations of their family and friends. These pioneers have then returned to their villages and have escorted whole families eastward—the railway fare being roughly a shilling for every hundred miles. All along the route medical attendance is

provided free, and for children, the aged, and the sick food is issued gratis at the chief stations. Some 13,000,000 acres have already been allotted to these emigrants, together with grain and meal to tide them over the first winter, and seed and implements for their first year's harvest.

Nearly 200 churches and 129 schools have been built in the last three years. The capital required for the first years work has been advanced to all in need of it, and no interest has been charged. Moreover, no taxes are or will be imposed on the new arrivals until they have completed three years residence. All furniture and agricultural implements required have been sold by the government to the emigrants on "easy repayment" terms.

The population of Siberia is increasing at the rate of 1,000,000 a year.

### The Boys Caught On.

CHICAGO, Nov. 24.—Any boy over ten years of age who is spanked by parent or teacher has a remedy at law in the form of an injunction. In a decision Friday Judge R.S. Tuttle said boys over ten years should not be spanked. It doesn't do a boy any good after that, said the court, "and I fear does him much harm."

These remarks incidental to the decision did not escape the notice of some thousand of small boys. They began looking up injunction practices, bought newspapers, and with the words of the court heavily underscored gave the paper to teachers and parents.

Principal James E. Armstrong, of the Hyde Park High School thus outlines the situation. His boy was late for breakfast, and was threatened. A few minutes later he walked into the dining room and pronounced the following manifesto: "You may as well throw away that paddle father. The opinion of the Court says" here he referred to the paper "that boys over ten must not be spanked. I'm going to get one of these things they call a 'conjunction,' and when you get out the paddle all I have to do is read the conjunction."

## Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, insert in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. One box, at all dealers or EDWARDS, BATES & CO., Toronto.

### EDITOR'S MAIL.

#### Politics and the Rum Power.

SIR,—I congratulate you upon the fearless manner in which you uphold the cause of Temperance and Prohibition. Unfettered by friendship or party prejudices you attack evil wherever it exists. Such action on your part must merit the favor and gratitude of all right thinking men. The scenes of bribery and corruption that have been prevalent at our elections have sullied the fair name of our Province. Our statesmen who make laws against corruption are the chief instruments in breaking them. Our prohibition leaders fling their principles to the wind at every election. The sacred rights of the franchise are demoralized by filthy lucre, and bartered for rum. People are taught to believe that the glorious privilege of the franchise for which our fathers fought should not be used without some demoralizing compensation. The old theory that a government should be of the people, for the people and by the people has lost its significance and it is now too often a government of rum, for rum and by rum. It is no longer the voice of the people that rules. Every means of what ever nature it may be is considered right if only votes are obtained.

To see the laws of our country trampled upon, to see an electorate debauched with strong drink, to see our people drifting into the slough of corruption with apparently no concern, are things well calculated to sadden the heart and call forth our strongest condemnation and disapprobation.

In the name of God to whom we owe our first allegiance, in the name of our country which we all love and is the pride of every patriotic heart, in the name of our sons who are becoming addicted to the use of the intoxicating cup and in the name of humanity itself, I call upon the politicians and statesmen of this country to have respect for the laws of the land and stop this foul stream of corruption which acts like a night-mare around every election, destroying the free use of the franchise, degrading the honor of our young men, sapping the vitals of society and even striking a blow at the fundamental principles of our constitution.

If this evil is persisted in, responsible government will be a fact only in name, and the people will have to rise in their might and see that no man is elected to positions of power and authority who does not merit their fullest confidence and implicit trust.

GEO. E. GOFF.

Woodville Mills, Nov. 28th, 1901.

DON'T SUFFER WITH PAIN, when you can get relief for a quarter of a dollar by using Kendrick's Liniment. Kendrick's is useful in many ways in household and stable.

#### EXPRESS TRAFFIC S. AND L. R.

# Whooping Cough

Don't you dread it? There's not a sensible, well-read person in the world who isn't afraid of whooping-cough. It's a most distressing disease and a very dangerous one, too. The child is so liable to have convulsions, pneumonia or bronchitis as a complication.

The cause of the disease is a germ which rests in the back part of the throat and upper air-passages. How can these germs be destroyed. Certainly not by taking medicine into the stomach. Then why not breathe something into the throat that will destroy them.

That is just what Vapo-Cresolene does. You breathe-in the vapor; it passes right over the germs, destroying every one of them. All inflammation quickly subsides, healing rapidly takes place and recovery is prompt and perfect.

P. C. BAKER, M.D., Physician in Chief, Morristown Memorial Hospital, Morristown, N.J.—"I have depended upon Vapo-Cresolene for years past in treating whooping-cough and bronchitis, especially in infants and young children. The beneficial effects of the vapor have been so evident, that some of my patients are in the habit of starting the lamp at night in their children's room for the relief of common colds."

## Vapo-Cresolene

CURES WHILE YOU SLEEP.

Vapo-Cresolene is sold by druggists everywhere, or will be forwarded, express and customs duty paid, upon receipt of regular price. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene complete, \$1.50; extra supplies of Cresolene, 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE CO., 180 Fulton St., New York, U.S.A.—117.

## REEFERS

For the boys \$1.25, 1.50, 1.75, 2.00 and up to \$5.20.
