

**Dr. Morse's Indian Root Pills**  
owe their singular effectiveness in curing Rheumatism, Lumbago and Sciatica to their power of stimulating and strengthening the kidneys. They enable these organs to thoroughly filter from the blood the uric acid (the product of waste matter) which gets into the joints and muscles and causes these painful diseases. Over half a century of constant use has proved conclusively that Dr. Morse's Indian Root Pills strengthen weak kidneys and

**M.D.'S IN CABINET.**  
Roche and Reid Are M. J. Cos Who Have Done Well in Politics.  
In spacious offices in the Parliament Buildings at Ottawa, sit two doctors of medicine. Both have the prefix "Honorable" before their names; for these medical gentlemen Mr. Borden has called into his Cabinet. Among those following in the House, the Prime Minister has found two practitioners possessing sufficient business acumen to justify him in placing them in command of two of the chief Departments of State. Behind a big desk on which daily pour a drift of important documents red with seals, is an erect, decisive man, who, six months ago, was a prairie doctor and, incidentally, a Manitoba representative in the House of Commons. He is Hon. Dr. W. J. Roche, Secretary of State. At another desk, sits a fellow doctor, who is now general to an army of clerks on the Hill; from him a host of Government officials in the different towns of the Dominion will take their orders in the future. This dignitary is Hon. Dr. J. D. Reid, Minister of Customs. These two Hon. Doctors, assisted by the lawyers and business men comprising the rest of Mr. Borden's Cabinet, the other day, nominated another medicine man for Speaker of the House of Commons—Hon. Dr. T. S. Sproule. So there are now really three Hon. Doctors on the Treasury benches.  
It appears rather phenomenal that three practitioners should all at once attain to such high positions in the sphere of government. The legislative field would seem far enough remote from the strictly scientific vocation of an M.D. as to preclude the most versatile-minded doctor thinking of competing with lawyers and business men for the coveted honors of political life. But doctors, whose conceptions, it would be imagined, naturally related largely to the problems of the human body, have shown before this that they were also extremely familiar with the body politic. The doctor in Parliament is a tradition in Canada. Is not that hale, old chieftain, of former days, Sir Charles Tupper, a Bluenose minister to human life?  
The present instance only emphasizes the active, healthy interest in public affairs shown always by the medical profession of the Dominion. The doctor with a taste for politics makes an exceedingly useful party man, and usually a capable Parliamentarian. His standing, as a physician, gives him social prestige in the community. His professional work brings him more intimately in touch with citizens than ordinary men. He gets to know the idiosyncrasies of individuals, as he enters houses after houses; and the needs of the community are rather vividly impressed upon him. When he gets to Ottawa, with the knowledge of human nature gained at first hand, back home, assists him in his new sphere, where he must diagnose national weaknesses and prescribe legislative medicine. But the ordinary medical M.P., most of whose life has been spent healing the sick, performs a real feat in adaptability, when, by close study, he becomes a Cabinet Minister, a finished product of a business man, capable of administering all the detail which passes through a Departmental office on Parliament Hill.—Canadian Courier.

**Nasal Discharge Proves Catarrh is Active**  
The pure Balsamic Essences of Catarrhozone Afford Surest and Quickest Cure.  
Catarrhozone is certain to cure because its healing vapor is carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucus, soothes and stimulates the mucous and bronchial tubes. The marvel of the cure in curing winter ills—that's what thousands say about Catarrhozone. There is nothing so sure to cure, and to those in fear of changeable weather—those who easily catch cold—those who work among lung-chilling surroundings, or where dust, impure air, fog, or damp can effect them—let them try Catarrhozone and use it several times daily—it will cure every time.  
**BAD CASE CURED IN TWO DAYS!**  
"I was unfortunate enough to catch a bad cold from sitting in a draught in my bare head," writes Miss Nora E. Jemleson, well known in Sanare Grande, N. B. "An acute condition of catarrh developed in my nostrils, and for three days my eyes and nose ran most copiously. The usual remedies entirely failed to relieve. I read in the Mirror newspaper about Catarrhozone, and sent to Smith Bros.' drug store for a dollar outfit. In two days Catarrhozone cleared out my nostrils, cured the sneezing, coughing, and all traces of catarrh."  
Large size Catarrhozone, sufficient for two months' use, warranted, price \$1.00; smaller sizes 25c and 50c. Beware of imitations, and substitute, and insist on getting "Catarrhozone" only. By mail from the Catarrhozone Company, Buffalo, N. Y., and Kingston, Ont.

**S. A. McDonald's Card**  
To the Elector of Charlottetown, Ladies and Gentlemen:—  
At the solicitation of a large number of citizens I have consented to become a candidate for Mayor at the forthcoming elections.  
I am in favor of a progressive Civic policy. With a ferry to the Mainland, and a reduction in our freight rates, the chief obstacle to making Charlottetown a manufacturing city is removed.  
I elected, I will endeavor to get industries located here, by making such concessions, from time to time, as are prudent and in the interests of our city.  
Situating, as we are, in close touch with the coal fields of Nova Scotia, with excellent shipping facilities by rail and water, Charlottetown, the fifth largest city in the Maritime Provinces, will then have as many inducements to offer investors as any other city. Think what it will mean to our working men, instead of going abroad, they will remain at home and help to build a greater Charlottetown.  
I am in favor of improved sanitary laws as well as all measures having for their object the advancement of our city and province.  
I am opposed to any further increase in civic taxation.  
I take this opportunity of soliciting your support and of thanking the electors of Ward Five, for electing me to represent that large and representative body of citizens, in 1906, 1908 and 1910, and trust that I may receive from them their hearty support for the Mayoralty.  
I Beg To Remain,  
Yours Most Respectfully,  
S. A. McDONALD

**FUR ADS**  
**TRAPPERS GET BUSY BIG MONEY IN FURS**  
Over two million dollars will be paid to trappers of fur bearing animals during the coming winter. Any man or boy living in the country can add a goodly sum to his earnings by trapping during spare moments. We have a special book, "The Complete Trapper's Guide" which tells you the size of trap and kind of animal to trap, and how to handle them. We also furnish the skins and prepare them for market. We also furnish the traps and baits at lowest prices. We receive more furs direct from trapping grounds than any other house in the world. You can pay the highest prices for them. Our price lists, shipping lists, etc., are also FREE for the asking. You are a trapper or want to become one, write to us today. We will help you.

Life's Long Journeys.  
A travelling ticket-collector on the Great Western Railway between Paddington and Exeter (Eng.) makes the double trip six days a week. In other words, he covers no fewer than 2,085 miles per week, or 108,420 miles in the round year. Every third Sunday or so he works a trip, but then there are his holidays, so these runs need not be added to his total.  
The traveling staffs on the Scotch trains from London cover an even greater annual distance, and, as for the crews of Atlantic liners, they aggregate a larger total still.  
Approximately the distance from England to New York is 3,000 miles, and putting the number of actual crossings at forty, this gives a total of 120,000 miles a year.  
There are many business men holding season-tickets between London and Glasgow, who make the double journey twice or three times a week. British members of Parliament are great travelers, and many who represent Irish constituencies journey home every week-end.  
**Just Succotash.**  
No man living ever said a word against succotash, says a western paper. He may discard chicken, peas, sweet potatoes, tomato bisque, or clam chowder, but succotash he never turns from. There is a romance in the name. It dwells in the smile of the Great Spirit, and is, too, the lovey-lye of Indian life. A man who eats succotash revels in the chase and the sunlit joys of the prairie. Succotash is made up of beans and good things—beans and corn romping together and teasing you with a banter to join the melee. Of course, you will.

**World's Largest Nursery.**  
From the Fisheries Department of the Canadian Government, whose duty it is to replenish the Canadian rivers with the commercial varieties of fish, come some interesting facts concerning fish-hatching. The work is carried out by a series of hatcheries established throughout the country at points both on the Atlantic and Pacific coasts and on the Great Lakes.  
The largest of these—indeed, it is said to be the largest of its kind in the world—is the hatchery at Harrison Lake, drained by the Fraser River in British Columbia, which deals exclusively with the hatching of salmon. There are always 10,000,000 fish in the building—7,000,000 sockeye salmon eggs and fry (the fish principally used for canning purposes), and 3,000,000 spring salmon.  
The building contains 160 hatching troughs, each averaging 90,000 fish. During September and October the eggs of the female are expressed into a pan and the fertilizing "milt" of the male thoroughly mixed with them. When ready to be liberated the fish are placed in a specially-constructed semi-submerged boat. This is towed to a chosen spot, and when in proper position is allowed to sink below the water.

**NULIFE WILL SUPPLY YOUR VEINS WITH MORE AND BETTER BLOOD**  
The enjoyment of life that all beings should have is an impossibility unless pure blood runs in your veins.  
Rich, red pure blood is the foundation of good health—the stepping stones to happiness in life.  
Nulife will fight the way for you by making every drop of blood in your body better, purer, stronger—disease resisting. Good health is an assured fact for you if you will only use Nulife regularly and intelligently. Start on the cure today. Nulife will do its share of the work, you do yours and you will soon be able to walk with that springy step, have clear sparkling eyes and ruddy cheeks that will tell the world you are in perfect health.  
Nulife costs 50c. a box and is sold by the following dealers:

**Get an Imperial in Your Boat**  
You do not know what real enjoyment is until your boat is equipped with the Imperial. It is the motor that has eliminated all the disagreeable features of boating, it does not back fire, requires little attention, starts with one turn of the fly wheel and runs so smoothly, silently and satisfactorily that a youngster can manage it and for power producing qualities there is no motor in Canada that is its superior.  
The Imperial is hailed from coast to coast as Canada's best marine motor—There's a reason. Made in 2 1/2 h. p. up and every one fully guaranteed.  
Write for our free illustrated catalogue.

Charlottetown, P. E. I.

**They Thrive on it**  
**Tillson's Oats**  
If there is any food that has in it ruddier cheeks or sturdier legs than Tillson's Rolled Oats, nobody knows what it is. It's the food that children thrive on.  
An underlying principle of proper diet is that the food one takes should furnish to the body energy and tissue in the ratio that the body consumes energy and tissue. This ratio is 5 1/2 parts energy to one part of tissue. Tillson's Oats provide that ratio more nearly than any other food except milk.  
In giving children porridge it is a mistake to add a quantity of cream and sugar, because the dish is then too rich. Oats are most healthful when eaten with milk and a sprinkle of salt, or possibly a small portion of sugar.  
**Oatmeal Gruel for Children**  
To one cupful of cold water add one-half cupful of boiling water and one cupful of milk. Stir until mixed and cook in the double boiler for one hour stirring occasionally. Add a little water if desired and serve hot.  
Your grocer has Tillson's. Two sizes—10c and 25c. Each 25c package contains a handsome piece of English Porcelain Tableware.
