(Continued from page Six)

HONOR LIST OF ST. DUNSTAN'S UNIVERSITY 1918-1919

The following is the complete Honor list of St. Dunstan's University:

RELIGIOUS INSTRUCTION

Moral
First, William McGill.
Honors—G. Monaghan, G. Dalton, N. Hughes, J. B. Ward, A. L. Stip...

Apologetics

First, Francis Nelligan
Honors—W. Zaib, St. C. Trainor, T. Monaghan, W. McGilligan, W. Gill...

Preparatory

First, Thomas Doyle.
Honors—C. Gallant, A. Noonan, H. McCleary, P. McGilligan, G. Cheverie...

ENGLISH

Literature

First—Patrick Goodwin.
Honors—L. Callaghan, W. McCabe, J. Johnston, P. McMahon, M. Monaghan.

Rhetoric

First, Patrick McMahon.
Honors—L. Callaghan, J. Johnston, M. Monaghan, P. Goodwin, W. McCabe, J. Fay.

Third Year

First, Roland Howatt.
Honors—F. Nelligan, T. Stapleton, U. Gillis, J. A. McDonald, A. Byrne.

Second Year

First, Leonard Farmer.
Honors—T. Monaghan, W. Power, E. Doyle.

First Year (A)

First, Howard Griffin.
Honors—A. Noonan, C. Gallant, G. Cheverie, J. O'Mara, E. McGuire.

First Year (B)

First, Edward Lauzier.

LATIN

Fourth Year
First, James Johnston.
Honors—P. McMahon.

Third Year

First, Francis Nelligan.

Second Year

First, Henri Dolron.
Honors—T. Monaghan, L. Farmer, W. Power, B. Murphy.

First Year (A)

First, Austin Noonan.
Honors—H. Griffin, C. Gallant, E. McGuire, A. Doyle.

First Year (B)

First, Francis Shea.

FRENCH

Fourth Year

First, Antoine Gagnon.
Honors—J. Johnston.

Third Year

First, Francis Nelligan.

Second Year

First, Laurent Couture.
Honors—Theodore Monaghan.

First Year (A)

First, Camille Gallant.
Honors—H. Griffin, A. Doyle, A. Noonan, E. McGuire, F. Doucette.

First Year (B)

First, Owen McMerney.
Honors—F. McVarish.

FRENCH GRAMMAR

First, Edmund Auboin.
Honors—T. Arsenault, H. Dolron.

GREEK

Third Year
First, James Johnston.
Honors—L. Callaghan, P. Goodwin.

Second Year

First, William Zaib.
Honors—F. Nelligan.

First Year

First, Henri Dolron.

Honors—T. Monaghan, W. Power, R. Malone, C. Jenkins, L. Farmer, St. C. Trainor, F. Campbell

PHILOSOPHY

Senior

First, Antonin Lefebvre.

Honors—J. Lefebvre.

Junior

First, Lucien Morin, Norbert Hughes, (Equal.)
Honors—G. Monaghan, G. Dalton, R. O'Neill.

PHYSICS

Senior

First, Gerald Dalton.
Honors—G. Monaghan, R. O'Neill, G. McCabe, A. Lefebvre, L. Morin.

Junior

First, Urban Gillis.
Honors—T. Stapleton, F. Nelligan, P. Sullivan, W. McGilligan, R. Howatt, W. Zaib, J. Bowlen.

CHEMISTRY

First, Francis Nelligan.
Honors—R. Howatt.

ECONOMICS

First, Joseph B. Ward.
Honors—A. L. Sminott, W. McGill.

Junior

First, Gerald Dalton.
Honors—G. Monaghan, N. Hughes, R. O'Neill.

MATHEMATICS

Fifth and Sixth Years

First, Antonin Lefebvre.
Honors—G. Dalton, G. McCabe.

TRIGONOMETRY

First, Walter McGilligan.
Honors—F. Campbell, W. Zaib, F. Nelligan, J. Zaib, A. Gillis.

ALGEBRA

Third Year

First, Francis Nelligan.
Honors—J. A. Reardon, P. Sullivan, P. Campbell, W. McGilligan, J. Zaib, W. Zaib, U. Gillis.

Second Year

First, Charles Murphy.
Honors—B. Murphy, H. Murphy, T. Monaghan.

First Year

First, Howard Griffin.
Honors—A. Noonan, C. Gallant, E. McGuire.

GEOMETRY

Third Year

First, Francis Nelligan.
Honors—P. Sullivan, W. McGilligan, J. A. Reardon, J. A. McDonald, J. Zaib, F. Campbell, E. Anconin, U. Gillis, H. Rowatt, J. A. Byrne.

Second Year

First, Herbert Murphy.
Honors—H. Dolron, T. Monaghan, R. Malone, L. McIntyre, C. Murphy, L. Farmer, L. Croken, W. Power, B. Murphy, D. McCormac, St. C. Trainor.

First Year

First, Camille Gallant.
Honors—A. Noonan, H. Griffin, E. McGuire, E. Arsenault.

ARITHMETIC

Senior

First, Bernard Murphy.
Honors—H. Dolron, T. Monaghan.

Junior

First, Howard Griffin.
Honors—E. McGuire, A. Noonan, F. Doucette, R. Patterson.

HISTORY

Epochs of History

First, Gavan Monaghan.
Honors—G. McCabe, W. McGilligan, G. Dalton, N. Hughes, J. R. O'Neill, A. L. Sminott, J. B. Ward, J. Ruste, J. Higgins.

Universal

First, Louis Callaghan, Martin Monaghan, equal.
Honors—J. Johnston, P. McMahon, W. McCabe, P. Goodwin, J. Fay.

Greek and Roman

First, Francis Nelligan.
Honors—W. Zaib, T. Stapleton, W. McGilligan.

English and Canadian

Senior

First, Theodore Monaghan.
Honors—E. Doyle, L. Farmer, A. Monaghan, B. Murphy, J. Mullally, W. Power, St. C. Trainor.

Junior

First, Howard Griffin.
Honors—A. Noonan, C. Gallant.

GEOGRAPHY

Physical

First, Herbert Murphy.
Honors—W. Power, L. Farmer, H. Doiron, L. McIntyre, J. D. McCormac, T. Monaghan, F. Collins, E. Doyle, C. Jenkins.

Political

First, Austin Noonan.
Honors—H. Griffin, C. Gallant.

BOTANY

First, Henri Dolron.
Honors—W. Power, H. Murphy.

PHYSIOLOGY

First, Henri Dolron.
Honors—W. Power, L. McIntyre, B. Murphy, R. Malone, W. Fisher, E. Doyle, T. Monaghan, L. Croken, D. Buote, W. McDonald, C. Jenkins, F. Cronin, R. Murphy, St. C. Trainor, D. McCormac, H. Murphy, J. D. McCormac, L. Farmer, C. Murphy, J. Mullally, L. Couture, F. Collins, L. McIsaac.

BOOK-KEEPING

First, Thomas Doyle.
Honors—G. Cheverie, Y. Mercier, C. Gaudet, W. Praught.

COMMERCIAL CORRESPONDENCE

First, Thomas Doyle.
Honors—G. Cheverie, E. McDonald, C. Gaudet, Y. Mercier, W. Praught, A. Gallant.

BUSINESS PAPERS

First, Thomas Doyle.
Honors—G. Cheverie, E. McDonald, E. Lanzier, W. Praught, A. Gallant, E. Duffy, C. Gaudet, A. Arsenault, Y. Mercier.

COMMERCIAL ARITHMETIC

First, Thomas Doyle.
Honors—G. Cheverie, W. Praught, C. Gaudet, Y. Mercier, E. Duffy.

STENOGRAPHY

First, Francis Doucette.

PENMANSHIP

First, Thomas Doyle.
Honors—G. Cheverie, W. Praught, E. Duffy, Y. Mercier, E. Lanzier, L. Paquet, E. McDonald, A. Arsenault.

SPELLING

First, Gordon Cheverie.
Honors—T. Doyle, E. McDonald, W. Praught, C. Gaudet, E. Duffy, Y. Mercier, E. Lanzier, A. Arsenault.

TYPEWRITING

First, Thomas Doyle.
Honors—E. Praught, G. Fraser, L. Paquet.

PRISONER OF WAR USED SHIRT AS WRITING PAPER.

Quite a romantic interest attaches to the original manuscripts of several books that are to be published shortly. One novel, with an after-the-war plot, was written by two officers belonging to the Royal Air Force and Argyll and Sutherland Highlanders respectively, while they were prisoners of war in the hands of the Turks. The difficulties they had to overcome in order to obtain paper were tremendous, and when the book was eventually finished it had been written down on the backs of old letters, paper taken from parcels, and a piece of a one-time white shirt. Another author, repatriated from Germany before hostilities ceased, had his manuscript taken from him by the frontier guards on the German-Dutch border. It has just come to hand from Berlin, our authorities having been the means of securing its return to its rightful owner.—Tit-Bits.

WHO AM I?

Last Leap Year I did not wish to embarrass my best girl by letting her propose to me, so I asked her to be my wife, but she said she would rather be excused, so I foolishly excused her, but I got even with her because I married the girl's mother, and then the girl became my daughter, and when my father married my daughter, he became my son. When my father married her she became my mother. If my father is my son and my daughter is my mother, then who am I? My mother's mother which is my wife, must be my grandmother, I being my grandmother's husband, I must be my own grandfather.

HON. SIR CHARLES DALTON, ST. DUNSTAN'S BENEFACTOR

BICYCLE A TIME SAVER

Workmen can beat the whistle by riding a bicycle to work, and they can be in better condition to do a good day's work when they get there. Merchants and business men will be in better condition, too, after a brisk ride on a bicycle than after jamming along with the crowds in a stuffy street car or reclining in a luxurious auto.

For delivering small parcels, a carrier on a bicycle has everything else beaten. Service counts, and when service is given by bicycle delivery, it is economical as well as quick and satisfactory. Collectors can get around so quickly on a bicycle that no creditor can escape them unless he, too, rides a bicycle; even then they can give him a great run for his money. Physicians, even when they own more than one motor car, find that there are times when grabbing a bicycle with one hand, their medicine case with the other, and getting their hat on somehow, get them there quicker than any other method. Professionally men, indeed, are among the most enthusiastic exponents of this modern efficiency scheme.

Clergymen in ever increasing numbers are taking to bicycling; they find it just the thing to enable them to make their pastoral calls and at the same time secure some wholesome fresh air exercise. Who shall say, indeed, that their congregations do not receive sounder theology and necessities of greater comfort because the preacher has had his cheeks reddened and his blood sent healthfully coursing by a spin in the great out-of-doors.

Even the ladies will find that a little spin once in a while is not time wasted, since work can be done with greater ease and speed after such a refreshing change from household drudgery of social duties. For riding to business or making informal calls, scarcely anything in the world equals a good bicycle, and it is quite in good form too.

For the boy or the girl who rides, the school bell holds no terrors. Always they can be there on time and get through their lessons with less trouble. After school hours, or during vacation, it is wonderful how much the same faithful bicycle will enable them to accomplish in running errands; how much solid fun they can get out of it between times. The war has indeed taught us many things. Not the least of these is the value of the time-saving and exercise. The bicycle is helping toward both, and its usefulness in that respect is increasing daily.

Weeds Yield Rubber

Of German plants known to contain rubber, several have attracted attention, says the Indian Rubber World. Indeed, fully twenty years ago the idea of growing rubber in Europe was seriously discussed. Several indigenous plants were found which yielded rubber, or a rubber-like gum. The "Sicilian artichoke" is a composite similar to the artichoke in appearance, and yields considerable rubber. It is not found wild in Germany proper, but is cultivated there. May there not be rubber-yielding plants in this country? the bystander is inclined to ask.

RESULTS TO THE CREDIT OF WAR SAVINGS CAMPAIGNS

It would be a mistake to think that because a War Savings Stamp costs only \$4 and a few cents, and a Thrift Stamp costs but 25 cents that, therefore, the War Savings campaign does not amount to much.

In the United Kingdom about \$1,500,000,000 worth of War Savings Certificates have been sold during the last three years and the movement is being continued as a permanent peace effort.

In the United States over \$1,100,000,000 worth of War Savings and Thrift Stamps have been sold during the last 17 months. So as money raising efforts these campaigns are important.

But perhaps the chief benefit is to be seen in the creating of an entirely new class of investors in Government securities. At the outbreak of war there were in Great Britain only 345,000 holders of Government securities, now there are over 18,000,000 such. In the United States the number has been increased from 300,000 to possibly between 25,000,000 and 30,000,000. This change has been brought about through the National War Bond and War Savings campaigns.

At the outbreak of war the number of people in this country who had invested in Dominion Government securities numbered only a few thousand. Now they will exceed 1,000,000. The War Savings campaign is adding thousands to this number because it practically enables anyone with \$4 to buy a Dominion Government bond.

YANKS DO THE "IMPOSSIBLE"

Declaring that is the first time that a stone house has been moved in France, Sergeants Abe Greisner and Mike Murphy of Company C, have recently finished a job of moving a 350-ton structure and have set it down on its new site.

The French said it could not be done and declared that the only way the road could be cleared for the new line of railway track would be to tear the house down. But the sergeants with their detail of fifteen men started to work with jacks and rollers and soon had the house moving across the fields. News of the feat spread and the authorities sent a photographer from the French Academy of Sciences to record officially the stages of the work.

The house was placed upon its new site without a crack. It is believed that this demonstration of American ingenuity will save many stations along the lines where the Yankee engineers are building additional tracks and switching yards.—From the Spik-er, France.

A DAILY THOUGHT

If you and I, just you and I, Should laugh, instead of worry; If we should grow, just you and I, Kinder and sweeter-hearted, Perhaps in some near by and by A good time might get started; Then what a happy world it would be For you and me, for you and me.

It is proposed to enact legislation which will put a stop to the habit of cigarette smoking among women in England.

GLASS HOUSES.

"Within ten years people in this country will be building houses of glass which will excel in sanitary appointments, beauty and durability and also low cost of maintenance any type of structure of the present time. In other words, the American people within ten years will be living in glass houses. They will therefore be unable to throw stones."

This was the interesting declaration made recently by Rodger S. Pease, one of the oldest glassmakers in the United States, a man who has taken an active part in all the improvements that have set the glass world face to face with new conditions and placed it in line for the greatest development in its long history. By glass houses Mr. Pease said he meant just what he said—foundations of concrete which are now recognized as standard; the walls of wired glass, the ceilings and roofs of wired glass and the floors of tile, covered with a light sheeting of wood. Such a building will prove practically indestructible can be made of any set of colors desired and requires no painting, no papering inside, will be sound proof, moisture proof and fire-proof.

Mr. Pease has planned a house that will be composed of glass and is going to have it finished in some color that will make it attractive, and such colors will be permanent.

The moment this idea is started, Mr. Pease declared, the public will be quick to see the value of the material. Its cheapness and reliability are understood. Glass, he said, is the most honest and most easily understood material in the world. It is not mysterious, and people will not have to employ experts to see that the quality is right. The glass for the walls of houses need not be transparent, but dense, like slate or stone. It will, however, be hard and durable.

The roofs can be of the same character of glass. It withstands heat and cold alike, and whatever patents may interfere with the cheapness of the material now are so nearly expired that it will be but a short time before these will be eliminated as a cost factor.—Pittsburg Gazette-Times.

THE WAYFARER

(H. H. Bashford in The English Outlook.)
Unknown am I and homeless.
What of that?
Two friends I have and none to do me ill.
All roads are home, each changing scene a room.
Each broken hedge a sunlit window sill.

Uncrowned am I, unhonored.
What of that?
Green garlands hang for crowns above my way,
And children's love and passing smiles are mine.
The homage of each windy wayside day.

No birds have I or singers.
What of that?
The birds are mine and the old restless sea,
The spreading downs, their urgent viking songs,
And all the deep woods tender minstrelsy.

No wealth have I or fortune.
What of that?
Unfashioned jewels glimmer on each hedge,
And great waves roll and glitter, reaching out
In endless pageant to the wide world's edge.

No throne have I or palace.
What of that?
All dells are mine, all hidden dreaming glades,
Where streams slip by and murmur in my ears,
And God sends peace down solemn green arcades.

And death will come some day, and
What of that?
No strangers are we, quiet earth and I.
And there's no spot that cannot see one star,
Or hear the great winds thronging down the sky.

THE FINANCES OF CANADA

OTTAWA, May 18.—A proposal that the senate should give more careful attention to the financial proposals of the government, and should have a finance committee for the examination of all measures for expenditure of large sums was made yesterday by Senator Turf upon the alleged expenditure statement, and \$350,000,000 for demobilization and for other purposes. He advocated national economy, and said that a hundred millions could and should be cut off the estimates for this year. Sir James Loughheed declared that all of the expenditure proposed by the government was necessary. He said demobilization was being carried out so rapidly that already provision had been made for the expenditure of almost \$300,000,000 of the \$350,000,000 asked.

A BICYCLE BOOM

bicycle is now classed in its proper plane is that the fact that bicycle racing is now a popular feature in many cities of Canada. The riders are also much interested in bicycle runs and tours once more while the decorated wheel competition is another feature that is now seen in many cities.

With war worries a thing of the past, many cities are planning to have bicycle racing and touring events and it is apparent that there will be more of the wheel sport this year than for many years. The wheeling activities are really taking their place among the big post-war revivals of the sporting world and many newspapers have already been devoting considerable space to the subject of bicycle outings and contests this year.

Vancouver, B. C., enjoyed the distinction of staging the first bicycle races of the season when races were held at Braxton Point Track in April as a benefit for returned soldiers. The next bicycle sport was scheduled to be held at Ottawa, Ontario, where a big revival is in evidence. This consisted of a series of bicycle track and road races on Saturday, May 10th.

Winnipeg, Manitoba, promises to hold a real bicycle road race on May 24th, while races are also scheduled for Toronto on the May holiday. Brantford has planned to hold a series of weekly twilight race-meets throughout the season while Montreal enthusiasts also propose to stage a number of events.

There was real competition this year for the National Championships of the Canadian Wheelmen's Association which were suspended for the duration of the war. London, Ontario, has secured the National meet and it is promised that it will be so attractive that many United States riders will try their luck against the Canadian speed specialists. The titular meet will be held on July 1st.

Other championship races are to be held at Ottawa probably in August, the C. W. A. having awarded a number of titular events to the Capital at its thirty-ninth annual meeting at Toronto.

Orillia, Ontario, Kingston, Windsor, Chatham, Woodstock and Brookville will also be the scene of bicycle races this year, according to present information. Many cities of Canada will confine their attention to bicycle runs and parades, however, because of lack of facilities and experience for the staging of races. These outings will go a long way toward demonstrating the health-giving and practical uses of the silent two-wheeler.

LEAVES MILLION TO UPLIFT CITY

Close to \$1,000,000 is bequeathed in the will of Thomas Shelton Harrison for a trust fund to be used in improving Governmental conditions in Philadelphia. Mr. Harrison died last Saturday week. He formerly was Minister and Consul General to Egypt. He was a Civil War veteran and prominent as a manufacturer and art patron.

The testament provides for a board of seven men to apply part of the income to the fund to procure honest and impartial enforcements of all contracts made by the city, for furnishing labor, erection of buildings and other public improvements, cleaning of streets, removal of garbage, furnishing water, gas, electricity or transportation facilities.

The Board also is directed to make any expenditures necessary to obtain prompt prosecution and punishment of persons guilty of violating the provisions of city contracts or of speculation from the city, and to assist in the prosecution of frauds, including those committed against the election laws. Another function of the board is to help the city departments install a modern system of municipal book-keeping, and to facilitate the issuing of financial statements that can be readily understood by private citizens.

Mr. Harrison warned that the trust fund must not be used to favor any political party, or to procure the election of any candidate for public office. The trustees must be citizens of Pennsylvania engaged in business in this city. One each is to be chosen by the Franklin Institute, Law Association, College of Physicians, City Club, Board of Trade, Board of City Trusts, and University of Pennsylvania.

Two Luxemburgs

There is a province in Luxemburg, the largest of the eight provinces of Belgium, and a grand duchy of Luxemburg, lying southeast of Belgium, which is an independent state. The two formerly constituted a province of Holland, but the separation of Belgium from Holland in 1830 was followed by various adjustments and changes, ending with the division of Luxemburg, one part belonging to Belgium and the other independent. Prior to the war both were guaranteed as neutral territory.

The normal year of three hundred and sixty five days always ends on the same day of the week on which it begins.
