CONNOUGHTS TO PLAY SUMMERSIDE

The Connaught baseball team has decided to accept the invitation of the Summerside clubs and go to Summerside on Dominion Day. There they will play a team from the different Summerside clubs. A very strong team can be selected from the three Summerside clubs but no doubt if the Connaughts put up that excellent brand of play that they have handed out in the Charlottetown Baseball League they will give the Summerside aggregation a sturdy proposition to down. This will be an added attraction for Summerside on Dominion Day and a large number of the Charlottetown fans will likely go to the western city to witness the game. The players, accompanied by their rooters will leave here by the morning train and will return in the evening. As the Connaughts feel confident of victory, a large crowd of their admirers will likely go along with them to see them win.

ENGLAND LIKELY TO GET AERIAL DREADNOUGHTS

LONDON, June 26.—News comes from South Africa that a new flying machine has been invented which before long will take a prominent, if not the pre-eminent place among British air craft.

The inventor, Shaw Hunter, of Kimberley, has perfected his machine, which he names the Aeroclus. It is a powerful affair. Its carrying capacity is fifty tons dead weight, 100 passengers, plus the crew. The length is 600, height 48 and width 223 feet. The driving force is engines aggregating 3,000 horsepower.

The inventor claims his machine cannot possibly capsize, that it will remain in flight ten days, and that it will travel at a speed of fifty miles an hour minimum and 120 miles an hour maximum.

CENTRAL GUARDIAN

THE NORTHUMBERLAND.—The Northumberland docked in Charlottetown last night at 8 o'clock.

THE EXPRESS.—The express arrived in Charlottetown last night at 11.15.

BASEBALL PRACTICE.—The Anglican Church Baseball team will practice at the C. A. A. Grounds this afternoon at 3.30 o'clock.

BAPTIST CHURCH.—On Sunday morning at the Baptist Church the subject of the sermon will be, The First Question Asked a Man, in the Evening the subject will be, The First Question Asked a Woman. Rev. Z. L. Fash will preach at both services.

THE INWARD TRAINS.—Yesterday the eastern express arrived in Charlottetown at 9.30 a.m., on time; the eastern accommodation at 5.40 p.m., on time; the southern at 10.30 a.m., thirty minutes late; the Cape Traverse at 10.15 a.m., 20 minutes late, and the western at 10.40 a.m., on time.

DELAYED BY BAD WEATHER.—The D. G. S. Brant was to have left Charlottetown yesterday on her periodical trip to the lighthouses of the island with supplies for them, but the weather conditions interfered with these arrangements. The wind was blowing from the northwest, and this indicated a condition of weather outside which would not be favorable to such a trip as the vessel is going on—in fact it would be difficult for her to land her stores. Her departure has been delayed until Monday when she will leave at 5 a.m.

INTERESTING LECTURE.—Mr. F. J. Nash gave a delightfully interesting and instructive lecture on "Joseph Howe, Canadian Statesman," at Orwell on Thursday evening before a large and appreciative audience. Dr. Andrew McPhail presided. In addition to the lecture a choice musical and literary program was rendered, including an instrumental solo by Miss Lillian Acorn, a song by Miss Jean Acorn and a recitation by Miss Jessie McLeod. At the close a cordial and unanimous vote of thanks was tendered the lecturer, after which the meeting was closed with the National Anthem.

CHEESE BOARD.—The monthly meeting of the Charlottetown Cheese Board took place in Castle Hall yesterday at 2 o'clock. The President Mr. Lauchlan McDonald occupied the chair, and the factories were all well represented. The following officers were elected for the ensuing year: President—Mr. Lauchlan McDonald, East Point, (re-elected). Vice-President—Mr. Walter Simpson, Bay View; Secretary—Treasurer and Salesman—Mr. Robert Jenkins, Mt. Albion. The following cable message was received: "Five thousand offered; four thousand sold at twelve and five-eighths. John B. Wilson. The following factories boarded cheese:—1st half of June: New Perth 60; New Glasgow 100; Stanley Bridge 100; Kensington 200; Emerald 125; Gowan Brae 35. New Glasgow and Stanley Bridge were sold to Mr. Nowell agent for O'Leary and Lee, Halifax, for 12 7-16. The auditor submitted his report showing a balance of \$2.45 on hand to the credit of the Board. The following were decided as dates of meeting: July 11th, and 25th; August 8th and 22nd; Sept. 5th and 26th; October 19th and 24th; November 7th. The meeting then adjourned to meet again in two weeks.

WEDDING BELLS.—The home of Mr. and Mrs. Joseph Dixon, Pt. De Bute, N. S., tastefully decorated for the occasion, was the scene of a very interesting event, at high noon on Wednesday, the eighteenth day of June, when their daughter Mary A., was married to Rev. Carl A. Dawson of Lockport, N. S. The bride was beautifully gowned in white silk and was attended by her sister Dorner who wore pale blue silk. The groom was supported by his brother Ulric G. of Cape Traverse, P. E. I. The ceremony was performed on the lawn under an arch of apple blossoms by Rev. David Price of Middle Sackville. The groom's present to the bride was a gold bracelet, to the bridesmaid a sterling silver hand-bag and to the groomsmen a gold stickpin. The popular young couple were the recipients of many valuable presents including a cheque for two hundred dollars from the bride's father. The newly married couple left for Boston and other American cities on the four o'clock train from Sackville. On their return they will take up their residence in Lockport, N. S. (Carl A. Dawson referred to above, is a son of Mr. and Mrs. John A. Dawson of Cape Traverse, P. E. I.)

BRITISH FARMERS FOR P. E. ISLAND

(Continued from page 1) conditions of farming generally here in order to return to Great Britain and interest practical farmers with a certain amount of capital who desire to come to Canada, and to get them to take up farming in this Province in preference to emigrating to other places, also to obtain as much farm help as we possibly can. In furtherance of this purpose we have been over the Island, getting full particulars and a thorough practical knowledge of farming in this country, by visiting personally the farms and interviewing the farmers themselves.

"We have been very extensively over the Province, during the five or six weeks we have been on the Island, and we have visited a great many farms and interviewed the present owners. In about 30 to 40 cases we have obtained options on the farms for our purpose. The size of these farms range from about 100 to 130 acres each, there being only a few smaller. The farms are all actually under cultivation at present. We have taken photographs of these farms from two or three different positions, and have also obtained full particulars of the conditions in each case. With these data, in our possession and having secured these options we are leaving for England this week and I hope to return with the first party of farmers, farm hands and do-

estic helps in August. They will be about fifty altogether, I think. Another party of about 50, also, will be brought out by Mr. Richardson in September. We will leave Mr. George Coombs, of 44 Water Street, to look after our interests during our absence, and anyone wishing to sell his farm or having any communication to make to us on this subject, can either get into touch with Mr. Coombs, or address his communication to me at 19, Timber Hill, Norwich, England. Our future plans are, after we have returned with these parties we propose bringing out in August and September, to go back to Great Britain about the early part of November at the latest and to start at once on an extended tour through the principal agricultural districts of the United Kingdom, lecturing on the farming possibilities of this country and using the cinematograph to illustrate our lectures—as that will be the most effective way of getting into touch with the people—with the object of organizing a big party of emigrants for the spring."

As to their general impressions of the country and its agricultural development, both Capt. Thomas and Mr. Richardson were quite enthusiastic. The former said: "I think I voice the opinion of both Mr. Richardson and myself when I say that we have been greatly impressed with the farming possibilities throughout this Province, and we certainly think that any man with an ordinary practical knowledge of farming in the Old Country can make a good living in—In fact, more than a living, out here, and, indeed, on quite a small matter of capital. Generally speaking, throughout we have found the people very hospitable and thoroughly enlightened. We have also been struck with the certainty that the farms are not being sold because there is no possibility of a living being got from them, but in many cases because of declining age on the part of the holders, or some reason like that; in others on account of the shortage of farm labor."

A Charlottetown Mother's Advice

To Parents Who Have Suffering Children.

Dear Sir,—My sixteen-year-old son was terribly afflicted with rheumatism since he was six years old, so much so that it made him a cripple for life. He suffered most awful pains every night until I got your oxygen machine. This has entirely relieved him of pain and if the machine had done no more than that it would be very thankful, but it has also cured him of kidney trouble, made him sleep well and improved his general health. I know that if we had got the machine in time he would never have become a cripple. I had spent hundreds of dollars in trying to find relief for my boy, but nothing ever helped him until we got your oxygen machine over a year ago. My advice to people having sick or suffering children is to get an oxygen machine for them, and thus save your children from pain and yourselves unnecessary anguish and suspense.

The foregoing letter is addressed to Mr. W. E. Enman, 30 Longworth Ave. The two oxygenating machines—the Farador and the Oxyphator—are purchased or rented. The latter machine is now sold by Mr. Enman at a reduced figure. 6-28M.H.I.
