NARROW ESCAPE — A very strange happening took place at the home of Mr. and Mrs. David Walsh on Sunday, Sept. 12, at Port Elgin, N. B. Their little six-year-old son Wendell was outside playing with his kitten when a bear walked out of the woods and stood beside him. The little fellow raised his hands and aho, while the bear walked back into the woods. Wendell excited the little fellow "aunt" and told his parents. His father went out but only got a small glimpse of the bear. (Patrist Please Copy).

Find Vitamin E Aids Diabetics

(By The Canadian Press) LONDON, Ont., Sept. 15 — Dr. Arthur Vogelzang, one of four researchers who announced two years ago they had developed vitamin E to treat heart disease, disclosed today the same vitamin has been used successfully to treat diabetes.

Other doctors who helped develop vitamin E are Dr. Evan V. Shute and his brother, Dr. Wilfrid E. Shute, both of London, Ont., and Dr. Floyd Skelton of nearby Ballymote.

Dr. Vogelzang said he and Dr. Wilfrid Shute have used vitamin E successfully in treating diabetes. Their clinical findings were identical, he said, in treating diabetes here and in Guelph, Ont. He had found some diabetics who did not respond to vitamin E but they had been effectively treated with oestrogen.

The vitamin treatment had been used in conjunction with the insulin treatment, said Dr. Vogelzang, and some of the diabetics under his care had been able to dispense entirely with insulin dosages after eight to 12 months of vitamin E taken in pill form.

A wider diet and greater activity of the patient was possible with the vitamin treatment. Gangrenous conditions, brought on by diabetes, can also be healed by vitamin E, said Dr. Vogelzang. Formerly amputation was necessary when insulin treatment failed to help a gangrenous condition.
