OTTAWA HOUSE LABOR PREMIER PAYS TRIBUTE TO WAR HERO

Bronze Tablet in Memory of Former Member Unveiled Yesterday.

(British United Press) PRESS GALLERY, OTTAWA, Feb. 29.—With the sad wailing of the Last Post throbbing through the House of Commons; with all military honors accorded a national hero, and in the presence of His Excellency the Governor General, the Prime Minister, leaders of the Opposition and leaders of Church and State the nation today paid humble tribute to the heroism and sacrifice of Lieut. Colonel George Harold Baker, member of Commons for Brome and first parliamentarian to give his life on the altar of service during the first bitter months of the Great War. The occasion was the unveiling of a bronze memorial for Colonel Baker, typifying his sacrifice and standing in the hall of fame of the country he served in peace and in war. It constitutes a tribute to his memory which will remain while the picturesque building on Parliament Hill house those who legislate for the people.

Ludendorff Bemoans Decline of Germany

(British United Press) MUNICH, Feb. 29.—"I have grown old in the service of the Fatherland" gray haired General Ludendorff, famous German world war commander, declared on the witness stand this afternoon, during his trial for treason.

"My heart longs for freedom for the people, whom I see declining through their own fault, not as a result of any external force," Ludendorff continued. The former quartermaster general of the Imperial armies is being tried with Adolf Hitler and eight others for participation in a beer-cellar conspiracy last November of which the object was the restoration of the monarchy.

MORE TROUBLE IN STORE FOR LABOR GOV'T

(British United Press) LONDON, Feb. 29.—Ramsay MacDonald as prime minister is a striking testimonial to the public's infinite capacity for changing its mind. No man in Britain was more disliked by his countrymen than was Mr. MacDonald in the heated, emotional years of the war. From start to finish he was against the conflict, and he never compromised with his principles.

Vote on Reparation Duty Reduction May Bring Complications

(British United Press) LONDON, Feb. 29.—The MacDonald government is beginning to scent another difficulty which may arise as the result of the vote next week when the proposal to reduce the 26 percent reparations duty by five percent is debated in the House. The bulk of the Labor members maintain that this duty is in reality a customs tariff as Germany is not reimbursing twenty-six percent on the cost of goods exported as she agreed to do. In this way the German exporter charges the British importer 126 dollars for every 100 dollars worth of goods purchased by the latter the British treasury taking twenty-six percent. This reduction means a loss of six and half million pounds every year to the British treasury and this sum is likely to increase as the volume of the German export trade grows.

The despatch says "while the time is not specified, the arrangement is such that it has permitted Mr. Coolidge to begin search for his successor. Of the eventual resignation of Attorney General Daugherty there can be no doubt."

BILL FOR VOTE FOR WOMEN UNDER 21

(Canadian Press) LONDON, Feb. 29.—Not quite solidly but still with impressive seriousness the little group of women members of the British Parliament with Lady Astor, the dominant figure marched bravely today to an attack on the age restriction upon woman suffrage. With votes a plenty from all sides of the House backing the bill in its second reading their majority was supported, extending the franchise to all women at the age of 21 by a vote. The woman member who broke away from the feminine group and spoke against the measure was Duchess Atholl. Conservative, while Miss Dorothea Jewson and Miss Margaret Wintingham added voices to Lady Astor's advocacy of the proposition. The fate of the measure beyond the second reading is problematical as the government has not promised any further facilities for its progress.

Ex-Service Men to Get Prior Consideration

(Canadian Press) OTTAWA, Feb. 29.—Ex-service men and women will receive prior consideration for retention when reductions in the civil service personnel are to be made. In a telegram to the Fort William branch of the V. A. Sees Bright Future For Communistic Movement

(British United Press) MOSCOW, Feb. 29.—Moscow and London today are the two poles of the International Workers' movements according to M. Zinovieff, writing to the Pravda in connection with the fifth anniversary of the central executive committee of the Communist International.
