

# THE PORTUGUESE ARMED ROYALISTS

### Threaten the Republic from the Spanish Border, Spain's Good Faith Doubted.

Special to The Guardian.  
 BADAJOS, Spanish Frontier, July 21.—The Royalist forces appears imminent.  
 The Portuguese monarchists possess thousands of rifles of the latest pattern smuggled into Galicia, Spain and also many field guns and maxims.  
 The monarchists remain on the Spanish frontier, conspiring openly against the Republic, notwithstanding the continued assurances of the Spanish Government.  
 The Socialists daily hold military drills and practice rifle shooting on large private estates and among the hills.  
 Influential opinion is convinced that the Spanish Government is secretly protecting the Portuguese plotters in Galicia, and the press has begun a bitter campaign against Spain, alleging bad faith.

# HENRI BOURASSA TO CHALLENGE MURPHY

OTTAWA, July 17.—Henri Bourassa, the man of sensations, has a big surprise in store for the Laurier government, according to the statement made to The Sunday World by a French-Canadian liberal member, Bourassa, the French Nationalist leader, may be a candidate in an Ontario constituency.  
 It will be remembered that when the Labelle nomination was offered recently to Mr. Bourassa, he did not accept it, although Labelle is his old constituency and would have undoubtedly returned him to parliament. An explanation of his refusal is forthcoming in the statement that he intends to cross the Ottawa and do battle with Hon. Charles Murphy, secretary of state, in the county of Russell.  
 This is the meaning of the unexpected vigor recently thrown into the anti-Murphy revolt in Russell, a revolt which has been giving the secretary of state many anxious hours and a lot of hard work. A month of the interval since the adjournment of parliament has been spent by Mr. Murphy in Russell, summoning electorates and asking in each parish the question: "Are there many Nationalists among you?" Mr. Murphy is the Murphy of Russell, with French Catholic clergy openly hostile to him, that the secretary of state has been looking around for a political harbor of refuge. Redistribution would have given him one in Mississippi and he would have run there, but there is to be redistribution before the election.  
 That means that if Hal B. McGivern will not make way for the minister in Ottawa, Mr. Murphy must take his chances in Russell. With Henri Bourassa in the field against him, the situation would be a hopeless one, as the French vote predominates in Russell and practically all of it would be swung for Bourassa.

# YOUNG WOMAN SHOT BY A BOY

SOUTH NORWALK, Conn., July 20.—Miss Eva Hammond, of Coaticook, Quebec, lies today at the home of her uncle here with a bullet lodged against the base of her brain. Her body is paralyzed and there is little hope that she will survive.  
 She was shot while automobile late yesterday, and William Beers, a 12-year-old boy, is accused of having caused the injury.  
 Young Beers told the police that a passing auto ran over his pet bantam hen a day or two ago, and he had lain in ambush to avenge the death of his favorite with a small rifle in his hand. He hid in the bushes and determined to shoot a hole through the tire of every automobile that went by. This, he said, was his notion of revenge.  
 Miss Hammond's car was the first to pass. The lad attempted to hit the tire, but the bullet glanced off and landed in the young woman's neck.

# SIR WILLIAM WILCOCK HAS RESIGNED OFFICE

CONSTANTINOPLE, July 20.—Sir William Wilcock, the British adviser to the ministry of public works, the noted engineer and designer of the Assout dam, who has carried out great irrigation works in Egypt and Mesopotamia, has resigned.

# SUPREME COURT

Special by Telephone.  
 GEORGETOWN, July 21.—At the Supreme Court here this morning the case against Wm. Molyneux, indicted for murder, was continued at ten a. m. Dr. Barnes, who had been on the stand yesterday afternoon testifying in direct and cross examination. Dr. Brehaut took the stand just before adjournment for lunch at one o'clock and also took up a large part of the afternoon session.  
 Others examined were: Wm. McKinon, Thos. May, recalled regarding plans; Mrs. Finlay McBeath, J. Leslie Poole and John Atken respecting the grave; and John McBeath.  
 Court meets again this morning at 10.00.

# PLASTERED WITH YELLOW METAL

### Richest Gold Discovery Yet in Swastika District, Ontario. Now Reported

Special to The Guardian.  
 TORONTO, July 21.—Another rich strike has been made on the properties of the Pike Lake Gold Mining Co., in Swastika district.  
 The gold was in grains half the size of peas.  
 The quartz is literally plastered with gold.

# SAVED MONEY OF THE BANK

GALT, July 20.—The thrilling story of how the cash and books of the South Porcupine branch of the Imperial Bank of Canada were saved by the plucky action of a young Galtton was brought home by Mr. Harry Tomkinson, who arrived here last night from the stricken district. His story is that when it was realized that the fire would devastate the town, Harold McKay, son of M. S. McKay, Galt Manager of the branch of the Imperial Bank at Porcupine, decided that all that was valuable would have to be taken from the wooden building if it was to be saved. The money, amounting to thousands of dollars, was carefully packed, and with the books of the bank put into a canoe by Mr. McKay and one of his clerks. They took their precious load out on the bay, where owing to the gale, they had to drop into the water and hang on to the sides of the canoe in order to keep it from capsizing. The water was cold, and it must have been a frightful ordeal which the young men had to go through in order to preserve the bank's property, but they succeeded in their efforts.

# COURTESY WON HIM A FORTUNE

ATLANTA, Ga., July 20.—A courteous act on the part of William R. O'Neil, of Bainbridge, Ga., has been rewarded by a fortune.  
 When O'Neil exchanged a lower berth for an upper sleeping car berth with J. T. Young, of Oakland, California, four years ago, when the two men were en route to Florida, where Mr. Young was going for his health, he thought little of the incident. Evidently Mr. Young considered it a great favor for in his will he left \$20,000 to the Georgia young man, who is 26 years old. O'Neil was in Atlanta yesterday and was informed of his good fortune by a son of Mr. Young, who had come to Georgia to look for him.

# REVOLT OF THE INSURGENT PEERS UNMISTAKEABLY FAILED TO MATERIALIZE

LONDON, July 20.—The House of lords passed the third reading of the parliamentary bill, otherwise known as the veto bill, without division today, after only three hours' debate. The revolt of the insurgent peers failed to materialize. All the threats of the extremist lords to throw out the bill at this stage and precipitate a crisis proved a bluff. One solitary peer, Baron Stanmore, raised his voice to demand a vote. He found no supporters in his role of Horatius at the bridge.  
 Lord Morley of Blackburn, for the government, and Lord Lansdowne, leader of the opposition, repeated some familiar arguments for and against the measure.  
 Lord Halsbury, leader of the extremists, threatened fight if the house of commons rejects the amendments.  
 The future of the measure may be predicted tonight with reasonable certainty. Premier Asquith in the house of commons on Monday will move the rejection of the lords amendments en bloc. This done the prime minister will announce that if the lords persist there will be no course open for him but to tender the king certain advice which will ensure the passage of the bill.  
 It would not be in accordance with constitutional etiquette to specify the nature of the advice, but every one will understand that this means the creation of Liberal peers. The house of lords will meet on Wednesday or Thursday, and Lord Lansdowne will move the acceptance of the bill, predicting its repeal as soon as the unionists return to office.

# TROOPS CALLED TO QUELL RIOT

### Great Destruction by All Night Disturbance by Strikers in Cardiff

Special to The Guardian.  
 CARDIFF, July 21.—Five hundred Lancashire Fusiliers arrived here today and occupied buildings in the dock district.  
 There was rioting by the shipping strikers throughout the night.  
 The streets are strewn with wreckage and the hospitals are filled with the victims of mob violence.  
 Efforts are being made to open negotiations between the shipping men and the strikers in the hope of reaching a settlement.

# SWAN & HUNTER NAVY CONTRACT

Special to The Guardian.  
 SYDNEY, July 21.—It is reported that Swan and Hunter have been awarded the contract for the construction of the Canadian Navy and that a shipbuilding plant is to be located at Halifax.  
 Correspondents are as yet unable to secure a confirmation of this report.

# A LITTLE BOY DROWNED AT FISHING

LUNenburg, July 20.—The six year old son of George Mosher was found drowned near a fish house on the river this afternoon. The boy was fishing from the platform about the fish house, and was noticed by two boys. A few minutes later he was missed and a search showed the dead body lying in a little water near the shore.

# DIED FROM DOSE OF PARIS GREEN

WOLFVILLE, July 20.—Yesterday morning, a well known farmer, Fred Eric Erye, who lived on the Ridge on the south side of Grand Pre, in a fit of temporary insanity, took a large dose of Paris green. The doctors were hastily summoned, and at first it was hoped that the large quantity taken was in his favor, but the hope was vain, as he passed away in the afternoon after everything possible was done for his relief. He leaves a large family of children, mostly grown up. No adequate cause can be suggested to account for this unexpected deed.

# LIGHTNING FIRED BIG GAS MILL

### Flames Burned Night to Day in Chatham Ont. Well is Still Burning

Special to The Guardian.  
 CHATHAM, Ont., July 21.—Lightning struck a gas well on the farm of Joyce Bros., last night ignited an enormous pressure of gas.  
 The roar could be heard for miles around and the illumination was so bright that a newspaper could easily be read half a mile from the burning well.  
 The gas is still burning in a gigantic jet.

# RUN OVER BY TRAIN AND DIED SOON AFTER

SYDNEY, July 20.—A man named John MacIntyre, a resident of Cranberry Head, was killed by a train at Sydney Mines today. He was lying on the track when the train passed over him, severing both legs above the knees. He lived but twenty minutes. The deceased was 25 years of age and unmarried.

# WOMAN SMOKER FIRED HER BELT

MONTREAL, July 19.—According to the testimony gathered by the present and police officers who were fired at a little blaze in 69 St. Elizabeth street shortly before one o'clock this morning, Anne Grave had lighted a cigarette to relieve the tedium of a sleepless night. Anne was careless and fired the clothing necessitating a hurry up call for portion of the central section, who promptly doused the blaze. Mean while Lieutenant Turner, of No. 4 Police Station, entered the house and rescued Anne from her precarious couch. On the sidewalk the lieutenant decided to find other quarters for the woman, accordingly she was given a drive in the waggon to the Ontario street and held there on a charge of drunkenness.

# PRINCE OF WALES NOT GOING TO VISIT NEW YORK

LONDON, July 20.—The private secretary to King George has long been saying there is no truth in the report that the Prince of Wales is going to visit New York and other American cities.

# FRANCE AND THE ARBITRATION PACT

### RECIPROcity STEP IN THE RIGHT DIRECTION

WASHINGTON, July 20.—The only respect in which the Canadian reciprocity measure can be considered as agreeing with Democratic beliefs, declared Senator Jones of Washington today in a speech in the Senate, is that it will benefit the country. "On that we can all unite," he said. "It is not in accordance with the Democratic doctrine of a tariff for revenue only. It is not obnoxious to the principle of free trade, and it is a step in the right direction. It is a step which will stimulate all the industry here but will stimulate all; it will not decrease the price of wheat but should give us better and cheaper flour; it should widen our market for manufactured products, thereby giving more employment to labor and increasing the domestic demand for farm products; it adds to the total of our internal trade, the trade and commerce of a territory as great as our own—to be peopled and developed by men and women of the same race, character, needs, desires, hopes, ambition and destiny as our own, and whose trade is far more desirable than that of many other nations; it insures perpetual peace between the two people. With the same conscientious solicitude for the welfare of our people that animates the man who proposes the measure, I shall vote for its passage."

# SAYS DEATH NOT DUE TO DROWNING

IPSWICH, July 18.—Further investigation of the circumstances surrounding the death of Charles Buzzell, whose body was found in the Ipswich River last week, has been ordered by Assistant District Attorney Burt, as a result of an unsatisfactory inquest held this afternoon. Medical Examiner Bailey stated death was not by drowning.  
 On July 3 Buzzell, in company with four acquaintances, namely Alfonso Lemieux, Alex McCullum, James Young and Edward McGregor, went swimming and boating on the Ipswich River. In the evening the latter four returned without Buzzell. Questioned as to his whereabouts the men stated he had gone home across the fields. Later they said he drowned while swimming in the river. Buzzell's body was found the following day, being marked off what was thought to be a severe beating.  
 At the inquest yesterday the four companions of Buzzell stated they had gone up the river as far as Second Grove. There they went in swimming. After the swim they rowed the boat down the river until they were opposite First Grove. At this point the boat was overturned.  
 None was sure whether or not Buzzell was in the boat at the time. After the overturning of the boat, the men asserted, they stood on the shore until the boat was brought ashore, after which they rowed down the river.  
 Two of the men stated they thought Buzzell had gone home through the fields. They all claimed to have been in the bow of the boat. There was a difference as to the amount of liquor on hand. In several points their stories conflicted.  
 Medical Examiner Bailey stated that Buzzell's death was not due to drowning. He said that there were several marks on the head that had evidently been made by a blunt-edged instrument. He was not sure as to what caused the death, but said it might have been caused by the combination of drinking, hot weather, the blows on the head and the shock of being thrown into the water.  
 Francis Wade, a student in the Ipswich High School, testified that he had been swimming on the day of Buzzell's death. He stated he saw the four men on the shore and the boat overturned in the river. At their request he brought in the boat. Later one of the men offered him 25 cents to dive for the body of a man, who they said was in the water. He did not find the body.  
 District Attorney Burt criticized the work of the local police and after declaring there was not enough evidence to hold the men, ordered a more thorough investigation. Two of the men are serving three month sentences for drunkenness, the others are held on probation.

### Earnest Desire and Effort to Induce France to Join in the Treaty

Special to The Guardian.  
 WASHINGTON, July 21.—Although the British Government has already practically given its assent to the arbitration treaty, it is the wish of the President and Secretary of State that the agreement be given a truly international character which can be had only by the adherence of more than two of the great powers.  
 This desire has been made known to the French Government and Ambassador Jussurand now in Paris is laboring to induce his Foreign Office to give its assent to the adherence of France.

# SON FIGHTS SEA IN VAIN FOR FATHER

YORK, Me., July 18.—Clayton H. Taft, ex-sergeant of the Waltham police force, was caught in a strong undertow at Long Beach this afternoon and drowned in spite of the heroic endeavors of his son, Clayton H., Jr., who nearly died in a desperate attempt to save his father's life.  
 Not until a second strong swimmer, James Steele of Waltham, had gone to the rescue of the exhausted son, did any of the several hundred bathers on shore who were witnesses of the tragedy, believe that either could survive. After failing strength had compelled the son to leave his father, it was only with the aid of a rope that Steele brought him to shore where a physician worked two hours before there was the least sign of returning life.  
 The disaster happening as it did hundreds of yards at sea and in sight of all the bathers along the long stretch of sandy beach cast a pall of gloom over this resort tonight. The senior Taft, although about 60 years of age, was an expert swimmer and his cries for help were at first regarded as a joke.  
 A heavy sea and a treacherous undercurrent were buffeting and sucking the elder man to sea when the son started to the rescue of his father. Although an excellent swimmer himself the young man's strength was far spent by the time he reached his father's side.  
 Several times both disappeared in the deep troughs but they reappeared on the crest of a swell, their struggles becoming weaker and weaker. It appeared that the younger Taft had ceased striving to bring his father ashore and was making an almost superhuman effort to keep the elder man's head out of the water.  
 Steele, who had already started from shore, had a desperate time reaching the side of the son even after his weakened condition had compelled him to release his grip on his father. Steele managed to make headway to shore and grasp a rope that had been brought out to him. The son by this time had entirely lost consciousness. Scores of people finally tugged two men ashore.

# GRAND TRUNK TO DISPLACE THE TELEGRAPH

TORONTO, July 20.—It was announced last night by W. W. Ashald, superintendent of the Grand Trunk telegraphs, Montreal, that the company would adopt in the near future the dispatching of trains by telephone over its entire system, displacing the telegraph for this purpose. The company has had two telephone circuits in operation carrying the past eighteen months, and the entire system of the railway totals about 4,700 miles, and the telephone dispatching department will include 31 circuits. A rough estimate of the cost of installing the system and placing it in operation is \$105 a mile. This will bring the entire cost of installation for the system to around \$500,000.  
 Minard's Liniment cures garget in cows

# AN ENDURING TREASURE

Of all beautiful things, a beautiful character is the most beautiful. That is not a thing that you can prove. It needs no proving. It is what we all acknowledge in our hearts. And if it is the most beautiful thing in the world, it is also the most useful. It is character that tells more than anything else in the long run, and that secures for mankind the wealth that is most worth coveting.  
 There is not very much, perhaps, that we can do for our fellow-men in what we call practical ways, but we can help them enormously by being just good men. It is more useful to be a great saint than to be a great inventor. Moreover, this is a treasure which endures. Many of the things that we build up with so much beyond the grave, labor and care disappear and are forgotten like the towers we built with bricks when we were children, or the brave structures by the seashore that swept away by the incoming tide.  
 Our riches take wings and fly away, and we, too, fly away and are forgotten, and it seems as if all the toil of our lives were for nothing. We go out of the world and carry nothing with us. But there is something that we carry with us; we take ourselves. We do not lose the character that we have been building up with so much patience and self-denial. That is ours to keep, and ours to keep forever.  
 There are six ways of carrying that which God is still carrying on his own great purpose in us and preparing us for the better things that await us that we build up with so much beyond the grave.

# COMMUNICATION THROUGH PROVINCE AND WITH MAINLAND

Yesterday the Northumberland left this port at 8.20 a. m., for Pictou with passengers, freight, express and mail, docking at 12.00. She left on arrival at 4.35 p. m., bringing passengers, freight, express, and yesterday's N. S. Mail. She leaves this morning for Pictou at 8.15 a. m.  
 The Harland left yesterday afternoon at 3.30 for Victoria and East River and returned at night. She had a good general cargo and a large number of passengers. Today she leaves here at 6.00 a. m., and 3.30 p. m. for West River, returning at night.  
 Yesterday the Eastern express and the Southern and Western accommodation trains arrived on time, the Summerside accommodation was ten minutes late, the Eastern accommodation arrived on time and Western express was twenty minutes late.

# WEATHER FORECAST

Special to The Guardian.  
 TORONTO, July 22.—Local showers or thunder storms, but partly fair and warm with moderate winds.  
 The temperature at three o'clock this morning was sixty-two degrees above zero.  
 The lowest temperature recorded yesterday was sixty-nine degrees above zero and the highest was eighty-four. The coldest recorded the previous night was sixty-four degrees above zero. At nine p. m. yesterday it was sixty-nine degrees above zero.  
 The length of today will be fifteen hours and three minutes, tomorrow fifteen hours and one minute and of Monday fourteen hours and fifty nine minutes.  
 The tide will be high tonight at 8.15 tomorrow morning at 7.04 and Monday morning at 8.10.  
 The sun sets this evening at 7.37 tomorrow evening at 7.36 and Monday evening at 7.35; it rises tomorrow morning at 4.35, Monday at 4.36 and Tuesday at 4.37.  
 The moon rises tomorrow morning at 1.28, Monday at 2.31.
