HEAVY DECLINES IN THE STOCK MARKET

NEW YORK, March 19—The weakness of the stock prices today is explained by the recurrence of uneasiness over several factors which had been operative in the decline earlier in the week. Renewed anxiety was felt over the outcome of the mediation by the Government officials to settle the dispute between railroads and locomotive firemen and enginemen. The rapid declines in prices of the western railroad stocks was believed to foreshadow a failure of the negotiations for a labor settlement.

The seriousness of the London money situation in its relation to the New York money market came in for some belated recognition again today. The private discount rate hardened again in London and another shipment of gold was made from there to Egypt. The effect this situation may have on the foreign subscription to the $50,000,000 of New York city 4¼ per cent. corporate stock which is to be sold on Monday is awaited with keen interest. Reliance has been placed on foreign subscriptions to these bonds to help up the indebtedness of the New York money market abroad. The advance in the Bank of England rate on Thursday was followed by a fall in the existing New York city bonds to low record period. The amount of foreign takings of the new issue may govern the question of gold exports from New York in the near future.

The chaotic political conditions at Washington had some disturbing effect. There existed an impression, also, that the American Tobacco decision might be handed down at Washington on Monday, prior to the spring recess of the supreme court.

The bank statement of actual conditions on Friday night reflected the indicated gain in cash and the heavy scaling down of loans by nearly $21,000,000, leaving an increase of $7,223,450 in the margin of the surplus. The loan decrease came as a surprise, in view of the several large bond issues which were subscribed for during the week. On the other hand, preparations were in hand for the New York city bond issue on Monday.

Bonds were heavy. Total sales, par value, $1,228,000.

U. S. twos coupon and the fours registered have lost ½ and the threes ¼ in the bid price on call this week.
