HORSE RACING THIS AFTERNOON.—Two more very interesting contests may be looked for in the 2:20 pace and 3 minute class, which take place this afternoon, on the C. D. C. course. The 2:20 pace has Mott Miller, Derby, and Cherry Ripe, and the 3 minute class, Commodore Wilks, Brazilian King, W. W. and Buster as starters. The races start promptly at 2 o'clock. More races are being made up to be held Wednesday should conditions prove favorable.

SKATING ACCIDENT.—On Saturday afternoon as two college girls were skating along near the wharf where the Northumberland is berthed, the ice gave way under them and the result might have been fatal had it not been for the assistance rendered them by a lady and gentleman who were skating at some distance out from the scene of the accident. The gentleman was only slight and it took him and the lady some fifteen minutes to rescue the drowning girls, one of whom had by that time become unconscious. The unconscious girl was taken into the Northumberland and artificial respiration was immediately begun. When she regained consciousness the lady rescuer deprived herself of her coat and wrapped the girl in it. She was put into a cab and taken to her boarding place suffering a little from nervousness due to the excitement of her predicament. During the rescue a man, who was both broad shouldered and clothed with a fur coat, skated up to the scene but without offering help leisurely looked on a little while and skated away again. Very chivalrous.

SCHOOL WORK.—The semi-annual examination of the New Haven school, was held on the 12th inst. There were about thirty-six visitors present, including parents and visiting teachers from other districts. The different classes were examined by Mr. Neil McCannell, Cornwall, Mr. John Hartz, Meadow Bank, Mr. Randolph Murchison, Clyde River and Miss Mary A. Cavanaugh, Elmwood, and all were fully satisfied with the manner in which the pupils acquitted themselves. The advanced reading class were fully up to the standard, and it was a difficult matter for the judges (the teachers) to decide how to award the prize, which was given to the best reader. While Miss Marjorie Darrach captured the prize, Joseph N. Berrigan, Malcolm Lamont, and Mary Devereaux deserve special mention. It is wonderful progress that has been made in this school during the last six months, and the greater part of the credit is due to the ability of the principal, Miss Sadie Currie. After the examination of the different classes was concluded, a programme, consisting of dialogues, recitation and singing, was rendered by the pupils, which was very entertaining. The scholars and visitors were treated to an abundance of candy provided by the teacher, which was very much enjoyed. The teachers, Miss Sadie Currie and Miss Katie McNeill, were presented with an address and presents, which were kindly acknowledged by P. J. Berrigan and others, who spoke of the great advancement noticeable in this school and their careful training apparent to everyone. A vote of thanks was tendered the visiting teachers and suitably acknowledged by Messrs. McCannell and Hartz, after which all returned to their homes well satisfied, having spent an entertaining and pleasant afternoon.—One who was present.

Suspicion fell on Campbell who had been in the neighborhood for a few days and who disappeared immediately after the theft. The matter was reported to the Attorney-General and the accused was tracked to Pictou where he was again lost sight of. The Attorney-General instructed Deputy Sheriff Wright to proceed to Pictou and hunt for the follow up. Mr. Wright, accompanied by Mr. Arsenault, an employee in the store of Arsenault and Gaudet, crossed to Pictou last Thursday. With the aid of the Chief of Police in Pictou, Mr. Wright succeeded in recovering two gold watches, a pocket watch and necktie, which the accused had disposed of in Pictou. From Pictou Mr. Wright tracked the accused to Caribou, thence to Port Hastings, where he arrested him on Friday morning at 6 o'clock. On Thursday evening some of the prominent residents of Kensington, Clermont and Indian River assembled at the home of James Brabant to tender to Emmett Driscoll their felicitations prior to his departure for the front. This brave lad is one of the valiant band who will do battle to assert their rights and defend the honor of the Empire. Mr. Hugh Morrison was chairman and Mr. E. H. Hiltz read the following address.

The joys of childhood are fleeting and are pure, fraught with delight. Only a few short years ago and you were but a small boy, attending your district school, but as the years glided by we found you treading paths leading to higher attainments. We learn with profound regret of your departure, but are consoled to know that you go forth in your country's defense. We cannot suffer you to depart without expressing our profound sorrow for your departure and without showing our appreciation of your courage and loyalty in offering your services in defense of your country. Your conscientious and genial disposition, your sobriety and charm of character have made hosts of friends for you. There is no greater sacrifice in the material world than to offer your services in defense of your King and country, since only the strongest and most virtuous are chosen. Therefore we feel proud to be able to send one from our midst who is fired with such commendable patriotism. It is the sincere wish of all your friends that God will shield you from harm, and we all will pray for the protection of heaven on your movements. In conclusion we all join in presenting you with our best wishes and this gift of gold which but faintly testifies to the affection in which we hold you. We pray that Providence will return you safely to us when the cruel war shall be successfully terminated.

Sumner McDonald, son of James A. McDonald, Clermont, was also banqueted at his home. He was also presented with an address and a substantial purse. He was the recipient of many sincere good wishes for his successful course through the war and his safe return. Such kind and convincing remembrances will serve to furnish the minds of these brave lads with food for reflection when leisure moments will allow the mind to revert to scenes of home, sweet home. He replied to the address in fitting terms. Short speeches were made by John A. L. McLellan, P. S. McIntyre, Mr. Croken, T. A. Driscoll, E. M. Mullin, Frank Shea, L. H. Hiltz, B. H. Hiltz, Jas. T. Driscoll, W. E. B. Hiltz, and wife.

Princess Etta has equalled the world's record, going a half mile on ice in 1 minute flat, and Angus Dillard holds the Canadian record for the fifth heat (in half mile) over a half mile track, of 1.4%.

"FOUR MONTHS UNDER FIRE." A diary by Corporal A. J. Sproston, Motor Cyclist Despatch Rider, with the British Expeditionary Force.

Food has been for some days almost unobtainable in the villages, and shops and cottages have been cleared out by the enemy. We beg a little hot water at Serches and make OXO, the bread I had obtained the previous day at Neuilly St. Front proving a boon.

Diary of a Rifleman of the Queen's Westminsters with the British Expeditionary Force.

For City men we have shaken down wonderfully, and our health generally is very good. The only change we can get from cold food is tea, OXO, etc. We cook in fires and pails, etc. The Germans, from the smoke we see rising from their trenches, seem to do things more elaborately.

Reprinted from the London "Star," December 9th, 1914.

The handiness of OXO CUBES is almost as great a recommendation as their food value. By simply adding an OXO CUBE to a cupful of hot water a delicious warming cupful of OXO can be made in a moment. OXO CUBES are prepared by intricate scientific processes: they provide in handy form the nourishing Beef-fibrine, which builds up the body and creates energy, combined with the valuable Beef-extractives which promote nutrition and ensure ready assimilation.

ICE RACING.—The season of 1911 has been a particularly favourable one for ice racing owing to clear cold weather and absence of snow. All throughout Canada and United States the ice racing is flourishing. The local horsemen will be interested to know that the fastest time made at the celebrated Lake of the Isles Course in Minneapolis was 1.2. What has been claimed as the world's ice record was made on this course last year by George Gano. His time was 1.1%. The fastest heat made by a trotter over the course was by King Orion; his time was 1.4%. The Huguenot, which was thought to be Dr. Sharper, is racing in the free-for-all trots there. It is said that the fresh water ice is from 2 to 3 seconds slower for a half mile than the salt water ice. This may account for the difference between local races and those

Two more Prince Edward Islanders left last night to join the Heavy Battery of the second contingent at Halifax, namely, Bombardier John Prowd and Gunner Walter Beer, son of Mr. and Mrs. E. H. Beer. Both are popular citizens and the best wishes of their many friends will follow them to the noble service into which they have volunteered. Cured Fifteen Years Ago of Piles and Eczema By Using Dr. Chase's Ointment—Certifies That the Cure Was Permanent.

Some people have tried so many doctors and so many treatments in their search for cure for piles and eczema that they find it difficult to believe there is an actual cure. The strong point about Dr. Chase's Ointment is that it not only brings relief promptly, but brings about actual and lasting cure. On Sept. 28, 1912, Mr. Ketcheson wrote as follows:—"I received a letter from you to-day, saying that you found on file a statement made by me 15 years ago. I have always given Dr. Chase's Ointment a good name since it cured me, and shall tell you how I came to use it. "I had suffered for many years from eczema and piles, and had tried doctors and everything I could hear of in vain. Reading about Dr. Chase's Ointment, I purchased it at once, and was soon completely cured. That was 15 years ago, so there can be no doubt of the cure being a permanent one. I have met a great many people who have been cured by Dr. Chase's Ointment. "Dr. Chase's Ointment cures eczema, all kinds of skin diseases, Itches, all kinds of itching, Piles & C.
