## DOROTHY DIX SAYS—

(Continued from Page 2

DEAR DOROTHY DIX: I am secretly married to one woman and deeply in love with another. My wife has plenty of money, the other woman is penniless. I am physically incapable of supporting myself. Shall I get my marriage annulled and marry my poor girl friend, or announce my marriage to the rich woman?

JOHN N.

ANSWER: Apparently you need a meal ticket more than you do a soul mate, so I should say that the rich woman is your best bet. But it is playing it pretty lowdown on her.

NOW THE LID IS OFF

...ar was declared in 1939, ...officers of the Canadian National ... knew the tremendous war ... the company would be called ... to perform. Hundreds of mil... of tons of war materials would ... to be shipped to the United ... from Canadian and Amer... war plants to Halifax for over... rail, the Atlantic port is ... only by the Canadian Nat... Like all other railways in ..., the C.N.R. emerged from ...pression with a minimum of ...ment. To keep the essential ... moving, not a single delay ...occur—cars would have to be ... and make a quick turn... this big task was done ... be told. A lighterage pier 650 ... and 100 wide was built with ...way tracks to handle 52 cars. ...undation took 1,800 piles and ...1,700,000 feet of timber.

More than 100 lighters; 110 feet long, 34 wide and eight-and-a-half deep with a capacity of 400 tons each were constructed. A 350-car yard was set up. Housing for the 200 C.N.R. employees needed to transfer the war supplies to the lighters was erected. In 1942 alone 72,000,000 tons of war equipment was handled. In a single hour 100 C.N.R. trains were loaded and despatched to Halifax from a Canadian munitions depot. Not a single delay was caused in handling the essential equipment and munitions by the Railway during almost six years of war. In the upper photograph a convoy of 94 ships is shown ready to steam out of Bedford Basin at Halifax, while, in the lower, C.N.R. employees are unloading TNT from a freight car direct to a lighter on a chute with a R.C.M.P. officer on guard. Convoys as large as 125 ships were loaded from the lighters.

## Toronto Quoted Values Pass Eight Billion Mark

TORONTO, Feb. 16 — Quoted values of all listed stocks on the Toronto Stock Exchange in January passed the eight billion dollar mark for the first time. Figures as of the last day of the month showed the total to be $8,026,068,632, a gain of $590 millions on the previous month. Contributing to the gain was the number of listed issues which at 693 is 88 higher than those of a year ago.

Of the two main groups on the board, the industrial section aggregated $5,191,312,648 and showed an increase of $340 millions against the previous month, while the mines totalled $2,834,745,984, an advance of $248 millions.

Widest gain in the industrials was made by the refining oils which were over a billion dollars in value up $73 millions, while the utilities with approximately the same total, gained $62 millions, followed by manufacturing with an advance of $41 millions and finance, which gained $40 millions. All 14 of the groups in the industrials comprising agricultural, amusement, construction, food and allied, liquor, milling, motor and allied, paper and textiles showed advances.

Mining issues featured the base metal stocks which jumped $167 millions at $1,442,784,221, producing golds gaining $49 millions at $887,837,971 and the prospecting golds advancing $15 millions, while miscellaneous mines were up $21 3-4 millions and the gas and oil companies $3 millions.

Of the 693 issues listed in the January values, average price for the industrials was $26.39 against $24.62 in the previous month and for the mines $3.57 against $3.30. Highest average for any group was made by the liquors at $50.99, motor and allied at $40.82 and the textiles $38.24. Of the mines, the base metals averaged $19.22 against $15.89 the previous months, producing golds were $4.29 and the secondary golds 69 cents against 67.

## The Markets At A Glance

CHICAGO, Feb. 17 —(AP)— Moderate profit taking and other liquidation cancelled gains of more than two cents a bushel for May Rye yesterday after brokers had bid aggressively for the grain against light offerings in early dealings..

WINNIPEG, Feb.. 17 —(CP)— In the coarse grains futures market Rye futures gave a very erratic display in nervous trading Saturday on the Winnipeg Grain Exchange.. Advances as much as three cents were posted in early trading with May and July making new all-time highs..

The advance was stimulated by upturns at Chicago and a strong stock market.. Later offerings increased and support dropped off..

NEW YORK, Feb.. 17—(CP)— The stock market emerged yesterday from a generally rallying week with one of the fastest Saturday upswings in seven years as further buying was inspired by the brightening labor picture and rising inflation psychology..

Settlement of the United States steel strike and imminence of peace in the General Motors controversy inspired heavy demand for leading industrials at the opening.

The pace then moderated as profit cashing intervened; extreme gains running to two or more points were reduced or canceled in many instances at the close..

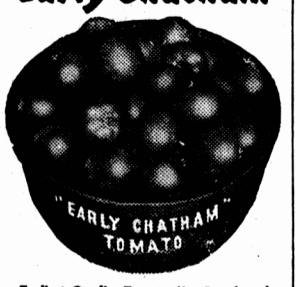
The Associated Press 60-stock composite was up .7 of a point at 79 6 and on the week showed a net gain of a full point..

### HOLLOW PROTECTION

The porcupine's quills, numbering about 30,000 are hollow and tubular.

In industrial accidents the fingers are most frequently injured.

EXTRA EARLY NEW TOMATO
*Early Chatham*



***Earliest Quality Tomato Yet Developed — Valuable For All Parts of Canada***

Of immense value for the North and West and other short season districts. Highly desirable for all other areas too as an extra early sort producing fine quality ripe fruit as much as two weeks or more before most other varieties. Proved a sensation on the Prairies in 1943, 1944 and 1945, including such districts as Lethbridge and Brooks, Alta.; Indian Head and Swift Current, Sask.; Brandon and Morden, Man. Around Calgary, where first distributed under the name of "Alberta", gardeners were simply "wild" about it. At Lethbridge Early Chatham ripened a week to twelve days before other extra early varieties. At Morden, Man., it has yielded as much as 20% to 40% greater crops than other good earlies. Early Chatham is dwarf, non-staking, and may be planted as closely as two feet each way. Fruits uniform, fine shape and colour; delicious quality. Average about 2¼ inches across but frequently larger. Order direct from this advertisement. As seed is not yet plentiful we cannot offer larger quantities than listed. (Pkt 15¢) (oz 75¢) postpaid.

## LIVING & LEISURE

(Continued from Page 2

long rush of waters rampaging over certain cherished and traditional concepts of comfort. There is logic in streamlining kitchens into small, compact food preparation laboratories, though one regrets the passing of kitchens large enough to serve as the heart of the home, says The New York Times. Plate glass windows are all right. If people cannot see enough from the regular-sized windows, more glass has its points. And if the ladies find lace curtains at the windows too great a chore, a man can accept the idea that rows of slats will be the mid-century style in window draperies. But when it is suggested that rocking chairs are an outmoded relic of the preatomic age, the time has come to make a stand. A correctly made rocker, big enough to relax on comfortably, with rockers that permit a man to sway gently back and forth without danger of a rear overturn, is one of the most functional pieces of furniture devised by the mind of man. A generation ago there were a goodly number of choices if a new rocker were needed. Some were broad and low, with upholstered seats. Some were all wood, good solid maple or birch stained a deep cherry red or a rich mahogany brown. Mother always wanted her Boston rocker when she had a few minutes to rest during the day and for the comfortable hours in the winter evenings. The greatest danger in the current ideology is for the future of the porch on summer evenings. It was bad enough when the old swinging hammock was superseded by modern contraptions of metal and weather-proof pillows that glide back and forth in a six-inch sway. But if the householder after a day's work cannot sit in a big wicker rocker on his porch and enjoy the evening, something will be lost. There are so many uncontrolled alarums and diver... world that a man needs the gentle soporific movement of a favorite rocking chair to keep his balance.

### IRON LOLLIPOPS

Members of an obscure Siberian tribe reputedly licked lollipops of iron when they felt the need of a tonic.
