## REDS RETAKE SEVERAL DOZEN MORE VILLAGES

### Two-Ton Bombs Smash Munich

#### Britain's Biggest Bombers Take Part In Raid

LONDON, Dec. 22 (CP)—Britain's biggest bombers looted two "block-buster" bombs, and thousands of incendiaries last night upon Hitler's conference capital of Munich in a 1,300-mile round trip blow at the railway foundry for supplies shipped to Italy and Africa.

From Maj.-Gen. Henry F. Miller, new head of the United States Army's 8th Air Force Service Command, there came the promise of still heavier blows.

"An all-out air offensive against the Axis," he is being prepared by this command, he said, and it "will be ready to accomplish this mission within a very brief period."

Gen. Miller told a press conference that there had been "a steady flow of materials from the United States for the big offensive."

Britain used her largest four-engined bombers, the Lancasters, for the fifth blow at Munich, and this was the R.A.F.'s second successive night attack on the Reich.

"As I lay in the nose of the bomber," said one Lancaster Bomber, "I saw thick smoke coming up to us after we had dropped 4,000-pound bombs."

The fliers were bothered with clouds over Munich, and this airman said his plane circled over the city for about 15 minutes.

Glow of Many Fires

"Before we left I saw the glow of many fires and columns of smoke were spiralling up to us through the clouds. Then I saw many buildings were alight."

The Air Ministry announced that "a great weight of bombs" was dropped on the birthplace of Nazism, and the German High Command acknowledged damage.

Twelve British bombers were lost, suggesting the raid was in considerable force.

The Air Ministry news service said Munich was defended weakly from the ground, with only a few searchlights and not much anti-aircraft fire, but German night fighters were in strength. At least two enemy fighters were destroyed, it said.

Striking singly, out of low clouds, German planes caused some casualties in southern and eastern England during day light attacks.

Daylight Attacks

During the day, an air ministry spokesman said, bomber command aircraft struck at railway and other targets in northwest Germany and in the Channel Islands. Several gun posts and attacked several gun posts in Holland as well as bombing a train in France.

The communiqué said a fighter and a bomber were missing from the operations.

Four persons were killed when bombs wrecked several homes at an inland town in southern England, six were killed and five injured seriously at an east Anglian town.

The R.A.F. downed one raider off the south coast, and anti-aircraft batteries and crew included women soldiers of the auxiliary territorial service, shot an intruder into the sea off the east coast.

Objectives of the Munich raid would be the big aero and submarine engine plants, the hand grenade factories and locomotive works there, and the vital rail lines linking southern Germany with Italy through the Brenner Pass.

YACHTMAN DEAD

TORONTO, Dec. 22 (CP)—E. J. Gooderham, 74, one of Canada's best known yachtsmen, died at his home here today.

BIG EVENTS EXPECTED

LONDON, Dec. 22 (CP)—R. G. Casey, British minister to the Middle East, said in a BBC broadcast today that it is possible the war can be won from the Middle East, using that section as a springboard.

The impression in the Middle East is that 1943 is going to be a year that will be long remembered with dread by the Italians," Casey said.

Coming Events

Loading live hogs Thursday, December 24th. Kensington till 3 P. M. Summerside till 1 P. M. On account of Christmas coming on Friday Bulman and Bagwell will load hogs Thursday till 3 P. M. Signed McEwen & Campbell. 12-23-11.

### 80 Fires In 60 Hours In Quebec

QUEBEC, Dec. 22 (CP)—Quebec firemen answered their 80th call in less than 60 hours early today when called out to fight a fire that broke out in the heart of downtown St. Roch Ward, following a furnace explosion.

Flames originated in the basement of the United Cigar Store at the corner of St. Joseph and L'Église Streets and quickly spread through four commercial buildings, housing Quebec Cash Jewellers, Pony Brand Candy Store, Robinson's Drygoods, Fur Store, La Rose Beauty Shop and several offices and two residential flats.

Only casualty was sub-chief Napoleon Droleit who collapsed after fighting fires since Sunday with little rest.

The blaze was checked and brought under control at noon, when firemen succeeded in isolating the adjoining Metropolitan Store, which suffered heavy smoke and water damage.

Damage caused by fires in Quebec City since Sunday night reaches \$600,000.

War Situation Last Night

(By Kirke L. Simpson, Associated Press War Analyst)

Accurate delineation of the Don battlefield is impossible on the basis of blind Soviet or Nazi official reports; but there seems no reason to doubt that this first day of his second war winter in Russia is confronting Hitler with even bleaker prospects than the first.

There, as in North Africa under the tightening Allied nut-cracker squeeze, retreat appears inevitable before it is too late to salvage some part of Hitler's threatened armies before Stalingrad, in the Don loop, in the Caucasus and northward in the Don-Donets corridor. The retreat may be already in progress. Persistent reports of breaking morale among his satellite divisions in Russia, particularly Italian units, come from many sources. By every available sign this Dec. 22 came for him under darker portents than a year ago when his own Dec. 22 came for his previous blackest hour was ended.

In Russia this winter, however, Hitler has lost a full month in futile efforts to take Stalingrad and consolidate his Don-Volga front, vital to protection of his drive southward in the Caucasus. If he now is forced to thumb his armies in the south back to a shortened and less exposed winter holding front as he did Nov. 28 last when he surrendered Rostov, the conditions of a winter retreat must be immeasurably worse than those of a year ago.

More Canadian Troops Reach Great Britain

Second Contingent of C.W.A.C., Airmen And Reinforcements For Army Included In Group.

By WILLIAM STEWART (Canadian Press Staff Writer)

A BRITISH PORT, Dec. 22 (CP)—Britain today welcomed many hundreds of reinforcements for the Canadian Army, graduates of the British Commonwealth Air Training Plan, personnel for a large Canadian hospital and the second contingent of the Canadian Women's Army Corps.

The newly-arrived men and women disembarked at this wartime port soon after their ships' anchors were let go into the grey water on which warships, merchantmen and seaplanes rode in the distance.

Rough Passage

They had experienced a fast but rough Atlantic passage which occasioned a few cases of sickness but apparently no injuries.

Arrivals included men of the Ordnance and Medical Corps, Artillerymen and Signallers.

Few of the Airmen were Canadians, although almost all were graduates of Canadian Schools of the Commonwealth Plan.

There were 69 fire-fighters who volunteered in Canada for duty with Britain's national fire service. A contingent of men from Newfoundland and recruits for the Royal Netherlands Army also were in the convoy.

As the disembarkation proceeded the soldiers glided upward from time to time as swift British aircraft patrolled the harbor around the shore.

Among anti-tank men found having a smoke in a corridor were Gunner John J. Halliday and Harold Goulet of Toronto.

There were representatives of many units already well established in Britain with respect to the distribution of first grade molasses," and added there was reason to believe "similar conditions affect other lines."

Ask Probe By Prices Board

NEW WATERFORD, N.S., Dec. 22 (CP)—The Board of Trade here decided today to ask the Wartime Prices Board for an investigation of commodity shortages in Cape Breton.

Board officers said there had been "flagrant discrimination against the island of Cape Breton with respect to the distribution of first grade molasses," and added there was reason to believe "similar conditions affect other lines."

Wounded Man Back

Lieut. J.B.R. Purcell of Toronto, a member of the Ontario Regiment who was with one of the first Canadian overseas contingents, said he had been waiting two months to return to Britain after having gone home wounded.

"I must say," he grinned, "it was a job harder to leave the wife for this trip than for the last."

Members of the eager C.W.A.C. contingent were the first to disembark in charge of Matron Edith R. Dick, former Matron of the Toronto Military Hospital.

ACCEPTED AS PILOT

MONTREAL, Dec. 22 (CP)—Prof. John Gullison, assistant professor of Economics at McGill University, was notified by the R.C.A.F. today that he had been accepted with the rank of Pilot Officer and was told to report at Machine Manning Depot Dec. 29.

Smooth Sailing For All your Baking When you use BLOSSOM Flour CANADA

### War Situation Last Night

(By Kirke L. Simpson, Associated Press War Analyst)

Accurate delineation of the Don battlefield is impossible on the basis of blind Soviet or Nazi official reports; but there seems no reason to doubt that this first day of his second war winter in Russia is confronting Hitler with even bleaker prospects than the first.

There, as in North Africa under the tightening Allied nut-cracker squeeze, retreat appears inevitable before it is too late to salvage some part of Hitler's threatened armies before Stalingrad, in the Don loop, in the Caucasus and northward in the Don-Donets corridor. The retreat may be already in progress. Persistent reports of breaking morale among his satellite divisions in Russia, particularly Italian units, come from many sources. By every available sign this Dec. 22 came for him under darker portents than a year ago when his own Dec. 22 came for his previous blackest hour was ended.

In Russia this winter, however, Hitler has lost a full month in futile efforts to take Stalingrad and consolidate his Don-Volga front, vital to protection of his drive southward in the Caucasus. If he now is forced to thumb his armies in the south back to a shortened and less exposed winter holding front as he did Nov. 28 last when he surrendered Rostov, the conditions of a winter retreat must be immeasurably worse than those of a year ago.

Island Ministers To Graduate

MONTREAL, Dec. 22 (CP)—The Presbyterian Theological College, an affiliate of McGill University, announced today that due to an "extreme shortage of Ministers throughout the country" final year men will be graduated at Christmas. The normal term ends in May. The graduates will include Joseph MacDonald of Picton, N.S., who is going to River John, Picton County, N.S.; Lloyd Henderson of Prince Edward Island to Trail, B.C.; John Carson also of Prince Edward Island to Grand Prairie, Alta.

Long Cold Spell In U.S. Mid-West

WASHINGTON, Dec. 22 (AP)—Price Administrator Leon Henderson today gave a 10 per cent increase in home heating fuel rationing to 13 midwestern states where the weather has been abnormally cold.

So far, Henderson said, the weather in the east has not been sufficiently cold for a prolonged period to warrant an increase, but if the east should have such weather it too will get a similar increase.

Increased Flow Of Beef Cattle

OTTAWA, Dec. 22 (CP)—Agriculture Department figures indicated today a smooth and increased flow of cattle to meet Canadian beef requirements, in contrast to the limited marketings which caused local shortages a few weeks ago.

Shipments to plants and sales at public stockyards during the week ended Dec. 17 totalled 26,225 head against 25,644 in the same week last year.

But totals for the year still reflect the reduced deliveries during spring and summer months. Shipments to plants and sales for the first 50 weeks of 1942 totalled 1,143,793 head against 1,207,463 during the same period in 1941.

Despite the increased beef cattle sales by farmers, practically all the animals are being bought for the Canadian market.

Shortage Of Turkeys Seen

TORONTO, Dec. 22 (CP)—A definite shortage of turkeys was reported today by the Dominion Department of Agriculture. The supply of local turkeys is light. Some dealers expressed the opinion Ontario turkeys are about cleaned up. With the buying price so close to the ceiling some dealers are not bidding for these birds in a wholesale way while others are buying only to supply regular customers.

Car lots of turkeys rolling from the prairie provinces have been delayed.

### Avalanche Wrecks Bus

ALQUIPPA, PA., Dec. 21 (AP)—An avalanche of rock and dirt 100 feet high toppled onto a bus loaded with a score or more of war workers tonight, killing at least a dozen.

"The death toll may go to 25," Chief of Police Trevor Jenkins reported as rescue workers slogged by cranes and wrecking cars struggled to clear up the wreckage.

The big bus, which had left Alliquippa at 5:03 P.M., "well loaded" the dispatcher said, was crushed like a paper box," Chief Jenkins reported.

5 Dieppe Heroes Are Rewarded

OTTAWA, Dec. 22 (CP)—Four months after Canadian troops stormed the French coast port of Dieppe, the tangible rewards of the gallantry in that operation came today to five of the Dominion's soldiers, with announcement by Defence Minister Balston of the award of Distinguished Conduct Medal and four Military Medals.

The D.C.M. 15th awarded in connection with the Dieppe battle, went to Pte. Harry Wichacz, 2d of Sherbrooke Ont., member of the Royal Hamilton Light Infantry who lost a leg during the fight last August and who now is recuperating at his mother's home in Stiefel.

Winners of the M.M. in today's list were PSM. Lucien Adelaar Dumas, 37, of Montreal; Pte. Guy Joly, 21, of Montreal; Pte. Conrad LeFleur, 26, of Ashville, Que.

The citations for these last four were not made public. A check of official army casualty lists disclosed that three of them, PSM. Dumas and Pte. Joly were originally reported missing after Dieppe but returned October were reported safe.

Fires At Amherst And Stellarton

AMHERST, N.S., Dec. 22 (CP)—Two fires here caused damage totalling about \$30,000 early today.

The large brick building of the Amherst Footwear company's jobbing plant was badly gutted, with its contents a total loss. The interior of the building was a mass of flames by the time firemen were called.

Fireman John Fitzpatrick was injured when he fell through a flight of steps and was carried from the building by Sam Fagan.

Damage was estimated unofficially at \$15,000.

Between \$4,000 and \$5,000 loss was caused in the second fire, at the grocery store of E.T. Hunter. Two families occupying apartments above the store were left homeless.

STELLARTON, N.S., Dec. 22 (CP)—A wooden building occupied by four families was completely destroyed by fire here today, but none of the 21 persons in the building was injured.

Two of the families had six young children, but their parents managed to get the youngsters out of the blazing structure. All the furniture was lost.

Cause of the fire was not known. There was no estimate of the damage.

LUTON HOLDS ITS HATS

LUTON, England (CP)—This Bedfordshire town is to remain the town of hatmakers. Rumors that this centre of hat-making for 300 years was to be abandoned today, but a shift north have been officially denied.

Commandos In Raid To Edge Of Bizerte

By JAMES F. KING Associated Press Staff Writer

LONDON, Dec. 22 (AP)—British and American pilots held aerial superiority over the Axis in Tunisia tonight but Allied commando troops who scouted the enemy's position up to the edge of Bizerte returned with a warning that the Germans were strongly entrenched.

"As we found out when we bumped into them,"

Both sides are sending out patrols, and moving up men and equipment for a resumption of heavy land fighting that will decide the fate of Africa.

Far to the east in Libya, the Italian High Command admitted the British 8th Army had reached Sirte, 180 miles west of El Agheila, in its pursuit of Field Marshal Erwin Rommel's troops headed for Tripoli, another 230 miles beyond.

It was expected Rommel's eventual destination was Tunisia, there to join Gen. Wafar Nehring's forces in a final effort to retain an Axis foothold in Africa.

The commando raid in Northern Tunisia struck to within five miles of Bizerte, Reuters News Agency said in a dispatch dated "with Lt.-Gen. Kenneth Anderson's 1st Army," which, with American units, holds positions anchored in the Medjez-el-Bab sector, about 50 miles south of Bizerte and 35 miles southwest of Tunis.

The Daily Telegraph said American troops participated in the commando assault.

Commando losses were described as relatively light compared with those inflicted on the Axis, but Reuters quoted the commando leader as saying the Nazis held well-built machine gun posts, even when they had shot us up."

"We came under fire from these," the commander said, "but we also succeeded in killing a number of Germans. The Germans, however, showed no inclination to come out, even when they had shot us up."

The German High Command indicated that Axis ground troops were on the defensive in Tunisia. The Germans apparently intend to try to hold off the Allies until they can muster reinforcements from Sicily and lower Italy and also what's left of Rommel's shattered Libyan legions.

### Nazi Retreat Still Said To Be Disordered

(By Eddy Gilmore, Associated Press Staff Writer)

MOSCOW, Dec. 22 (Wednesday)—(AP)—Russian troops sweeping across the middle Don River captured "several dozen" more villages in their drive on the key city of Rostov, and raised their seven-day toll of Nazi to 55,000 killed and captured, the Soviets announced early today.

A special announcement said Kamensky, Popovka, Morozovka, and Nikolesk were among the populated places seized on the heels of German troops who were in "disordered retreat," the same phrase used yesterday in announcing the drive that already is threatening Millerovo, 120 miles north of Rostov.

(Kamensky is not listed on available Russian maps. In the first radio broadcasts of the special communiqué this town was heard as Kamensk, which is 40 miles south of Millerovo and only 90 miles from Rostov on the Moscow-Rostov railway. A later official government version issued by Tass News Agency gave the town as Kamensky, and Soviet sources in London identified it as a large village somewhere in the Millerovo area.)

Popovka and Morozovka are astride the Moscow Rostov railway about mid-way between Millerovo and Voronezh. This wing of the Russian Army apparently was pushing westward into the Ukraine, and Russian units are ready were several miles inside the Ukraine at Nikolisk.

This latter town is west of the north-south railway that skirts the Ukraine border.

The Russian offensive across the Don was beating westward toward the Ukraine, and also spreading southwestward toward Rostov where seizure of that city would cut off the retreat, except by sea, of all the German troops stalled in the Caucasus and in the Don-Volga River pocket before Stalingrad far to the east.

A total of 55,000 Germans have been killed or captured in this series of offensives since Dec. 16, the communiqué said. Twenty thousand of these surrendered to the advancing Russians who were reported employing masses of tanks and infantry despite the heavy demands on two other offensive fronts—the central northwest of Moscow, and on both sides of Stalingrad.

In addition, this body was listed as captured in the seven-day-old drive.

One hundred and eight German tanks; 1,637 artillery guns; 2,339 machine guns; 6,735 trucks; 5,500 horses; 82 ammunition and supply dumps.

A total of 7,000 Germans fell on the snowy Don steppes during yesterday's operations alone, the Soviet communiqué said.

Fur Prices Up

WINNIPEG, Dec. 22 (CP)—The Dominion Fur Auction Sales, Limited, announced today that during the first general sale of the current season here yesterday cross foxes sold 10 per cent higher than a year ago with the high for early caught pelts at \$25.50.

Dark fox pelts brought up to \$14 and medium small foxes \$12.

Silver fox averaged five to 10 per cent higher, selling up to \$40 a pelt and martins brought \$46 for large skins.

More than 90,000 pelts, including Ermine, Muskrat, Skunk, Wolf, Beaver, Lynx, Squirrel, Red Fox and Badger will be marketed before the sale concludes this week.

DRIVE THROUGH SPAIN

LONDON, Dec. 22 (Wednesday)—(AP)—The Geneva Correspondent for the London Daily Mail reported today that the belief in Geneva is that Hitler is preparing for a drive through Spain aimed at Gibraltar. Hitler reportedly has written off the Russian campaign as a failure and plans to concentrate against southern and western Europe, the correspondent asserted.

Third Jap Raid On Calcutta

NEW DELHI, Dec. 22 (Wednesday)—(CP)—A small number of Japanese planes made a short raid on the Calcutta area last night for the third successive night, but damage and casualties were believed to be slight, a communiqué said today.

"Full details are not yet available, but it is reported that only a very few bombs were dropped," the bulletin said. "Casualties and damage are believed to be slight."

Commandos In Raid To Edge Of Bizerte

By JAMES F. KING Associated Press Staff Writer

LONDON, Dec. 22 (AP)—British and American pilots held aerial superiority over the Axis in Tunisia tonight but Allied commando troops who scouted the enemy's position up to the edge of Bizerte returned with a warning that the Germans were strongly entrenched.
