THE PRINCE COUNTY GUARDIAN

Places in Summerside, Miss Amy G. Burrows, Agent, Summer Street, and J. J. Lafferty, Water Street, News Correspondent; and in Alberton, Herbert Clark, Agent.

The latest news, first of all. -J. J. Hughes, ex M. P., Souris, was in Summerside yesterday.

Miss Mildred Galt, Charlottetown, is visiting in Summerside the guest of Miss Bertie McFarlane.

Dr. John E. and Mrs. McDonald, Summerside, left yesterday morning for Calgary where they will reside.

James McGowan, who has been visiting his former home on the Island left yesterday on return to Spokane, Wash.

Keith Stewart, left yesterday morning on return to New York after spending a few days at his home in Summerside.

Owing to the opera, in aid of the hospital in market hall on Friday night, the usual band concert which was to be given in the public square on that evening will take place this evening.

A heavy thunder and lightning storm passed over Summerside about nine o'clock last evening which was accompanied by a heavy downpour of rain. No damage as far as is known, was done. During the afternoon a heavy storm passed to the south of the town being very heavy in the vicinity of Bedouet. At about five p. m. another storm passed northward which was exceptionally heavy around the western part of the Island.

The marriage took place in Spokane, Washington, on July second, last, of Miss Edith Ellen Clay to Laurence Leavitt Brown, both of Spokane. Mr and Mrs Brown were at home after July 15th at Alexandria Apartment, Spokane. The bride's parents are Fulton J. and Mrs. Clay, formerly of this province, Mr Clay being a son of the late John Clay of Summerside and Mrs Clay a daughter of the late Adam Leard, formerly of Tryon. The Guardian extends best wishes to the newly married couple.

CURIOUS CUSTOMS WITH BANK NOTES.

Odd Things Found in Indorsements on the Paper of the Bank of England.

The custom of endorsing English bank notes, even when they pass in some trivial purchases, is a surprise to most Americans who go abroad for the first time. It is an old custom, says the London Queen, and one which has led to many curious inscriptions on the notes.

A debtor in prison wrote on the lack of a £10 note: "The first debt I have honestly paid for a year," while a prodigal son turned the babies against him when he wrote on a £20 note: "The last of thousands left by my father, who slaved to earn them."

Wire Wounds

My mare, a very valuable one, was badly injured and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks, the sores have healed, and best of all, the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

In 1759 the Bank of England began to issue £10 notes as well as £20, till then exclusively used. It was not till thirty years after that £5 notes were brought out, and in 1797 there were £1 and £2 notes, but they ceased in 1821, owing to the immense amount of forgery they led to. Hundreds, if not thousands, were hanged for counterfeiting notes for such small sums.

A curious bank note designed by Home has prison chains across one end, is signed by "Jack" Ketch, and in 1821, owing to the immense amount of forgery they led to. Hundreds, if not thousands, were hanged for counterfeiting notes for such small sums.

The eye is the most delicate complex organ of the body yet no part of the physical system suffers greater neglect, one reason is its character has been imperfectly understood until recently even by scientists. Ages of ignorance have developed large herds of ignorant superstitions, morbid whims and prejudices; these deter people from having their eyes carefully tested and fitted out by the progress of science for the sake of the travelling public. An engineer is no longer qualified to take control of a locomotive till his eyes have been examined and pronounced free from color blindness. For their own comfort as well as the preservation of their sight all adults should secure repeated tests of vision as age advances to prevent serious injury and possible ruin of their sight. All children's eyes should be examined especially at the time of entering school. We expect to see the time when this will become as compulsory as vaccinating school children and with great reason. Advertising Sense and Science. An inch of good advertising is worth more than a foot of bad. After all its not the amount of space and superlatives you use that count. If you are a man who desires to build a lasting, successful business, watch your advertising. Any fool can show some returns by tearing down the future reputation of a business, but it's the advertising that creates confidence and will make permanent customers that count. Keep an eye on your advertising—it's the greatest factor in the success or failure of your business. Let us talk advertising. Phone 123. BONNELL Advertising Agency Cameron Block
