The "high cost of living" is a live subject with the politician, with the person with money as well as the poor man. The man with money finds that he needs more than he once did in order to get along comfortably. This means that his money must work harder, must earn more. He is not satisfied to allow his money to earn but 3 p. c., he is buying good industrial and public utility corporation bonds and preferred stocks, and in this way doubling the earning power of his money.

We own and offer for sale a number of issues of such securities as will meet the requirements of those who wish to double their interest income—with safety.

You will be under no obligation if you write us for particulars.

A TOKEN OF RESPECT.

There passed away at Springton on Saturday morning, June 22, 1912, one of the most highly respected and useful members of the community in the person of Donald Cameron, Esq. Ex.-M. P. P. The deceased was born in Springton between seventy-seven and seventy-eight years ago. He was of a retiring nature and yet a most intellectual man. He left an influence for good in the educational world for he was an educationist. He also left an influence for good in the church and state. As a church man he was useful especially in Sabbath school work. In this department he was a most effectual Bible teacher he was of a broad and generous mind and saw good in other churches as well as his own. For twelve or fourteen years he was a member of the Provincial Legislature and most useful in that capacity. He was first appointed by the Liberals but left that party, if the writer remembers correctly, on the R. R. question. Then he cast in his lot with the Conservative party and was elected and returned by that party several times. He had a good deal to do in securing the Railway for this Province, he had the highest regard for integrity. Being of a genial kindly disposition he was liked by both parties and by all people. Since his retirement from politics he served as magistrate and always advocated and upheld the claims of justice. His funeral took place on Monday, June 24th. The respect in which he was held was evinced by the very large concourse of people that came from far and near to pay the last tribute of esteem to the memory of a good man. The funeral services were conducted by his pastor, Rev. John Gillis, at the home and at the grave. The late Mr. Cameron was a first cousin of Capt. Alexander Cameron of the S. S. Empress.

HONORS FOR MCGILL MEN.

LONDON, June 28—The Hebdomenal Council of Oxford University has decided to confer the degree of Doctor of Literature upon Dr. William Peterson, principal of McGill University.

Principal Falconer of Toronto University, speaking in acknowledgement of the honorary degree of L.L.D. conferred upon him by Edinburgh University today, said that Canada had perhaps benefited more from Edinburgh's teaching than any other of the British Dominions. He urged that Edinburgh should offer Canadian graduates greater inducements for research and study and so prevent their going to the United States Universities which offered fellowships lavishly.

FIRE IN QUEBEC.

POINT AUX TREMBLE, Que., June 28.—Damage estimated between $75,000 and $100,000 was done by fire, which broke out here late this afternoon and raged until eleven o'clock this evening. Fifty buildings, mostly residences and small shops, were destroyed and two hundred people are homeless. The insurance is very small.

AMERICAN SAILOR MAKES FREE

HALIFAX, June 29— Aldermad Keltie member of the Halifax City Council got a scare this morning because of the act of a sailor on the United States Cruiser Chester.

The Alderman owns a motor boat which he keeps at one of the docks in the harbor front. He found the boat missing this forenoon when he went to look for it and on inquiry the craft had been taken by a Chester sailor who had to make a rush to get aboard the cruiser sailed.

When the sailor got aboard he abandoned the motor boat Mr. Keltie recovered the boat which had been picked up by a schooner, He had time to get aboard the Chester in pursuit of the sailor but there was little satisfaction for him there in his attempt at identification.

PRESENTATION.

Miss Loretta MacDonald, teacher at Rollo Bay East, arrived in Souris recently to spend her vacation. Previous to her departure, the pupils of her school presented her with a beautiful silk hand satchel and handkerchief case with the following. To our dear teacher:—Please accept this little gift as a testimony of our gratitude and of the affection which we bear you.—From your loving pupils.

SOURIS EAST AND MONTAGUE

...*It pays to buy in this Peovince.

...*The Annie M., Capt Poole, arrived in Souris from the fishing grounds Saturday and reports fish plentiful but bait scarce.*

...*Donald and Mrs. Nicholson and daughter, Head of Montague, were visiting ... of ...

...*Ronald ... in Souris Friday attending the funeral of the late Dr. E. B. Muttart.*

...*On complaint of Inspector Mosher a summons for first offence against the prohibition law has been served on Frank Gallant of Souris returnable on July 1st.

...*A summons has been served on James B. Finlayson, Murray Harbor, on complaint of Inspector Mosher, for second offence against the prohibition law returnable on July 3rd.

...*A number of the members of A. F. and A. M. St. George's Lodge, Georgetown, were in Souris Friday attending the funeral of Dr. E. B. Muttart.*

...*The Prohibition case of Inspector Mosher vs. John MacNeill of Souris which was tried before His Honor James H. Reddin at Souris on the 27th inst. resulted in a conviction for Mr. MacNeill who was fined $100 and costs or three months in King's County jail.

...*During the month of June we sold a large quantity of clothing, dry goods, shoes etc, but we yet have an excellent stock and offer the same bargains during the month of July. Highest market price paid for wool, butter and eggs.—McLeod & McGregor, Montague.

...*The granite and marble monumental works, formerly conducted by the late W. A. Lewis, at Cardigan Bridge, will be continued by the estate, on the same lines of honest and artistic workmanship, and moderate prices which won so much favor for this business in the past. The management is now prepared to quote attractive prices on all kinds of granite and marble monumental work.

...*Inspector D. J. Mullin examined the Lorne Valley School on Wednesday, the 26th instant, and in his new official role as inspector he created a most favorable impression. There was a large attendance of pupils and some of the subjects in which he tested them were:—Grammar, Penmanship, Reading, Arithmetic, Geography, Botany. The work done in Geometry, Latin, Mechanical and Freehand Drawing, French, Algebra and Map-Drawing was also carefully inspected. As this visit was a special one on account of the school being entered in the Lord Strathcona Prize Competition for Military and Physical Drill the scholars were then assembled in the school yard for inspection in marching. Under their popular and experienced teacher, Mr. Gordon, the pupils performed the evolutions of the Military Drill and executed the movements of the Physical Exercises with accuracy and precision. At the close the Inspector placed on record in the School Register the following report of the examination: "The pupils acquitted themselves in general very satisfactorily. I am pleased to learn that the Trustees and ratepayers intend making the school-house more comfortable and attractive." Mr. Mullin then left to attend the Eastern Teachers' Association meeting at Mt. Stewart. Mr. Mullin is a capable official and his appointment by the Government is endorsed by the people.

...*C. F. Pooley, Halifax, N.S., (who was Sergeant 1st Canadian Contingent and afterwards Lieut. 4th C.M.R) the popular representative of Taylor & Co., Beaver Flour Mills, Chatham, Ont., was in Montague on Friday.—L-L.

...*The new road system was given a practical test recently in King's County at Lorne Valley under the efficient supervision of the Road Master Allan McSwain. For three days gangs of stalwart Conservatives and Liberals worked together in unity to repair the roads and as a result of their united labors, the King's highway is now in a better condition than it has been for many, many moons past.—"Loo-Loo."

their prompt and ready answers gave sufficient proof of the very careful teaching they have received from their teacher, Miss A. J. Callahan. Special mention should be made of the Geography and Map Drawing, which were the subjects of much comment. Complimentary speeches were made by Michael O'Halloran, James Gorman, and Edward C. Griffin, all speaking in the highest terms of the teacher. The following address was then read by Mrs. Patrick L. Butler and a suitable gift was presented to the teacher by Alphonsus P. Griffin. The meeting was brought to a close by all singing, God Save the King.

Dear Miss Callahan:—It is with feelings of regret that we learn of your intention to sever your connection with our school. It would be unjust to your and to ourselves to allow you to depart from our midst without thanking you for the very able and efficient manner, in which you have conducted our school, for the last two years. The general standing of the pupils are not only a credit to themselves and you but to their parents. Your genial disposition, courteous and winning ways, linked with a rare charm of character has endeared you to the people of Glengarry and made for you hosts of friends socially as well as otherwise, and your departure leaves a void which cannot easily be filled. You are leaving us with a highly honored reputation from your inspector and with one ever greater from the people of this district as being a painstaking, capable energetic teacher. We hope the years spent among us have not been ones altogether of toil but that some pleasure has been your lot which will cause you to look back on us with kind feelings, the same as we shall always have for you. Please accept the accompanying gift as a small token of our appreciation of your workf Joseph Griffin, Joseph Doyle, Michael O'Halloran, Patrick Griffin, James Gorman, Ambrose Dalton, Patrick Bulter, Alex. MacDonald.

MOTOR POWER ON THE FARM.

Very few people have any idea of how large a motor is required for a given purpose on the farm.

Below are given some data which have been compiled from actual tests, and are taken from recent publications of the General Electric Company:

Six horsepower will run a feed separator and thresh 2,500 bushels of oats in ten hours.

Three horsepower furnishes all power needed to make 5,000 pounds of milk into cheese in one day.

Six horsepower will run a feed mill, grinding twenty bushels or more an hour.

Five horsepower grinds ... five to forty bushels of feed ... to twelve bushels of ear corn an hour.

Seven horsepower drives an 18-inch separator, burr mill, corn cob crusher and corn shellers, grinding from twelve to fifteen bushels of good fine meal.

Six horsepower runs an apple grater, grinding and pressing two hundred to two hundred and fifty bushels of apples an hour.

Five horsepower will run a 30-inch circular saw, sawing from fifty to seventy-five cords of stove wood and from hard oak in ten hours.

Six horsepower saws all the wood four men can pile.

Twelve horsepower will drive a 50-inch circular saw sawing 4,000 feet of oak or ... poplar in a day.

Ten horsepower will run a 16-inch cutter and blower and elevate the ensilage into ... feet high at the rate of ... per hour.

One horsepower will pump water from a well of ordinary depth in sufficient quantity to supply an ordinary farmhouse and the buildings with water for all ordinary uses.

"The new ... in men's and boys' ... have just been received from ... leading factories. All the ... are shown in the latest ... patterns. Brown's, The Home of Good Hats. 6-29M3i.

WAS A CONFIRMED DYSPEPTIC

Now Finds it a Pleasure to Enjoy Meals

Here is a case which seemed as bad and as hopeless as yours can possibly be. This is the experience of Mr. H. J. Brown, 384 Bathurst St., Toronto, in his own words:

"Gentlemen—I have much pleasure in mentioning to you that ... received ... all the advertised cures with no success. You have in Na-Dru-Co Dyspepsia Tablets the best curative agent I could find. It is now such a pleasure to enjoy meals with their consequent nourishment that I want to mention this for the benefit of others."

The fact that a lot of prescriptions or so-called "cures" have failed to help you is no sign that you have got to go on suffering. Try Na-Dru-Co Dyspepsia Tablets and see how quickly this sterling remedy will give you relief and start your stomach working properly. If it doesn't help you, you get your money back. 50c a box at your druggist's. Compounded by the National Drug and Chemical Co. of Canada, Limited, Montreal. 141

THE WORLD'S BUSIEST STREET.

"Yes, we are proud of this, our street," remarked a stockbroker who was strolling through Throgmorton street. "We call it "The Street"—just as if it were London's thoroughtainly the richest in the world. What other street has transacted business fare, One of the shortest, it is ceraggregating 675 million dollars in one day?

"Amusing comedies, and even farces, are here played daily. The inexhaustible spectacle of Finance, with its romance, plucky exploits, brigandisms, daring adventures, and tragical collapses, is far more attractive than most artificial dramatic inventions. Nowhere else is the place of human emotions so varied; here are experienced a rapid succession of hopes and fears, sickening failures and intoxicating successes.

"Here, when markets are "booming," is a scene of palpitating, nervous excitement unknown elsewhere. except when a wild panic is engineered by frenzied financiers in America. But, compared with London, New York is a mere local market; we deal in the securties of the universe. Money rules the world; we control the total gold supply. In the street values are constantly being manipulated; fortunes are promptly made—and lost. Between the 'bulls,' who want to force prices up and the 'bears,' who strive to bang them down, a fierce battle rages incessantly."—Answers.

WORK DONE BY A WATCH.

It is a matter of everyday occurrence for a person to say to his watch maker:

'Here is a watch which you sold me some ten years ago. It has always gone well till just lately when it has taken to stopping without any apparent cause.'

The people who speak in this way little think of the amount of work a watch has performed in this space of time and might be astonished at the following figures:

In ten years, which includes two leap years and consequently a total of 2,652 days, the hour hand has made 7,306 and the minute hand 87,648 revolutions. The end of an average minute hand travels more than 10,280 yards—more than six miles. The second hand has made 5,258,880 revolution and its extremity has travered on the dial a distance of upward of 123 miles. The escape wheel has made 5,588,800 revolutions, and it has fifteen teeth, it has come 788.832,000 times in contact with each pallet The balance wheel has made 1,577,644,000 vibrations and any point on the outside of its rim has covered a distance of 50,000 miles, and that is equal to twice the circumference of the earth.—London 'Answers'i

ADDRESS AND PRESENTATION.

The following address together with a presentation was tendered Charles McInnis teacher of Newton School, by the pupils at the end of his term of teaching in that school:—

Dear teacher: We learn with profound regret of your departure from our midst, where during the short period of your teaching, you have succeeded in an unusual degree in drawing towards yourself the affections of us your pupils. Your strictness to duty and your solicitude for lessening of school monotony have, we assure you, impressed us with a sense of your regard for our welfare, which in the short space of two years we have learned to appreciate. We shall not dwell here on our relations during those two years. They have been satisfactory and fruitful of happy memories. We trust that in your new sphere of life you will have the good wishes of everybody and your life will be as happy as it deserves to be.

In conclusion we request the acceptance of this gift which but faintly typifies the affection in which we hold you. Signed: The Pupils.

F. F. PROCTOR'S FIFTH AVE. THEATRE, NEW YORK, FOR WEEK OF JULY 1ST.

Continuing its recently announced policy of presenting at least one act new to vaudeville each week, Proctor's Fifth Avenue Theatre next week will present no less than three features new to the two a day style of entertainment. The first of these will be Thomas A. Wise in an original character sketch by Abigail Marshall, Dad and Mother which will give Mr. Wise ample scope for his fun-making abilities and a legitimate opportunity to introduce some clever bits of true pathos. Mr. Wise as usual in his vaudeville flights will be supported by an excellent little company. Something which should interest all music lovers will be the debut of Carl Schuetze, hitherto harp soloist of the Philharmonic Society and Metropolitan Opera House orchestra. Mr. Schuetze will be assisted by Miss Hettie Deumm, soprano, and numerous of his conferes of the musical world have promised to augment the orchestra to full concert strength.

The third new number on the bill will be De Witt Mott and Mary Maxfield in a bit of airy persiflage suited to the times, The Salesman and The Manicurist, in which the repartee is exchanged so rapidly, that the flyest audience must pay strict attention to glean all the points. Others on a gala holiday bill well calculated to amuse the stay at homes over the Fourth, will be such established favorites as Frank Mayne and Company in that remarkable protean drama The Third Degree; Burnham and Greenwood, feminine eccentriques and pianologistes; Welch, Healy and Montrose in a slang classic of baseball experience; Lane and O'Donnell, the lunatic tumblers and Ben Beyer and Company, cycling messenger boys.

"Now that the warm weather is here you will need a pair of oxfords. We have all the latest styles in black and tan Goff Bros New Store, Richmond St. 6-28M3i.

"Neckwear.—An up-to-date line always on hand in silks and crochet. If you want novelties, here is the place to come for them. "Bruce's." 4-29dtf.
